Gov. Beekman Orders Three
Troops of Militia to Guard
India Rubber Plant

PROVIDENCE, R. I., May 28.—Governor Beekman has issued a proclamation declaring that as a result of the riot of striking National India Rubber Co. employees at Bristol this morning, the town is in a state of insurrection. He has ordered out three troops of militia to guard the company's property.

BRISTOL, R. I., May 28.—Two strike sympathizers were shot and three guards injured by stones during a riot today outside the plant of the National Rubber Co., where a strike is in progress.

The trouble started with the arrival of a morning train bringing women clerks, mechanics and other employees whose work had not stopped with the closing of the mill. It lasted about 15 minutes and resulted in the sounding of the riot call on the fire alarm, calling out every available special policeman.

A crowd of 400 or more strike sympathizers, including a number of women, met the train and after trying unsuccessfully to induce the 10 or more clerks and others to keep away from the mill, attacked them. Women in the mob pulled the hair of clerks and several of them were roughly handled. When the workers started for the mill, about four blocks away, the crowd followed, hooting and jeering.

It was alleged by the plaintiff that the rental value of certain property had been misrepresented to him, and he asked for \$200 claimed to have been paid as a brokerage commission.

MEMORIAL DAY PROGRAM

Impressive Exercises by
Pupils of High School at
Keith's Theatre

The most impressive Memorial day exercises ever participated in by the pupils of the Lowell high school took place in the B. F. Keith theatre this morning at 8:45 o'clock. The program finished at 10 o'clock, the school was then dismissed to allow for field day preparations.

The program was rich in sentiment and expressions of deep consciousness of the meaning and significance of the day being observed and included a splendid 10-minute address by Capt. W. C. MacBrayne and an exceptionally

BUSINESS IS GOOD WITH LOCAL FLORISTS

Higher prices, a restricted supply of outdoor plants and a number of innovations in grave decorations are a few of the outstanding features of this year's pre-Memorial day business of local florists.

Despite their difficulties, the florists are doing a brisk business and attribute it to the fact that there will be a wider observance of Memorial day this year than for some time past owing to the active part being taken not only by the veterans of the Civil and Spanish-American wars, but also by the American Legion.

Flowers which are grown in hot-houses will command slightly higher prices than formerly, according to one local florist, owing to the fact that labor and coal, two essential items entering into the maintenance of a hot-house, have advanced considerably in cost since last Memorial day.

However, there has been no sudden flight of prices just because of the approach of the holidays; the prices which will be paid in Lowell for Memorial day flowers have been charged for the past eight or ten months, but they are somewhat higher than those charged a year ago.

Wreaths can be bought this year from \$2.50 to \$5.00, the average price being \$3. There is a scarcity of many outdoor flowers that have been popular in past years owing to the backward season this spring. Lilacs and other flowers that usually bloom early in May are just beginning to make themselves known and, accordingly, their absence is reflected in the market.

One of the innovations in floral grave decorations this year which is meeting

Libellant Tells Court Hus-

"Some Baby"

A navy "yeomanette," whose name was not given, figured prominently in the trial in the superior court this morning before Judge James Fox of the petition of Emily Blake D'Arby of Cambridge, for divorce with allimony of \$15 per month, from her husband, Francis Gay D'Arby, a non-commissioned naval officer.

Mrs. D'Arby testified that her husband insisted against her remonstrances in inviting the yeoman (F) to their apartments on Massachusetts avenue, Cambridge, and that the young woman accepted the invitation and prolonged her visit over night. This incident, the witness said, was the cause of a quarrel in which she was subjected to abusive treatment.

On Thanksgiving day, Mrs. D'Arby testified, she prepared dinner for her husband and that he refused to eat it, called her names and struck her. She called her friend, Mrs. Emily Ford, was present. She said she had a handsome case made to hold medals belonging to her husband, his name was beautifully inscribed upon it, but that when she gave it to him he threw it at her. On Easter Sunday, the witness said, her husband abused her after she urged him to go to church with her.

She testified that her husband had given her cyanide of potassium and told her to take some of it if she felt blue or despondent.

On May 1, 1918, the witness testified, her husband kissed her good-bye and took his trunk and went away. Later, she said, he sent a furniture mover who removed all the furnishings of the apartment, including a victrola that was her personal property.

Mrs. D'Arby described her husband as being a "psychic."

Mrs. Ford, mentioned in connection with the Thanksgiving dinner incident, was called to the stand and corroborated statements of Mrs. D'Arby. She said she had seen Mr. D'Arby strike his wife.

LOWELL COMMERCIAL COLLEGE OUTING

The annual outing and field day of the students and faculty of the Lowell Commercial college will be held next Wednesday, June 2, at Canobie Lake park. This year the local students will join with those of the Lawrence Business college, and it is expected that 500 or more will attend. From the Lowell school alone 200 will attend the affair.

The local students will leave Merrimack square at 8:15 and upon arrival at the park an excellent program of sports, dancing and music will be carried out. Baseball games between teams representing the various schools will be staged and there will be sports for the young women as well as young men. Prizes donated by the school will be awarded the winners. There will also be a prize walk contest.

Former students of the Lowell Commercial college and other friends of the school are earnestly invited to attend the affair.

Dillingham, clerk of the superior court, that naturalization sessions will be held at the court house here in Lowell for those desiring that papers on Monday and Tuesday, June 7 and 8. No petitions for first or second papers will be considered on those dates, but during the week of June 1, Clerk Dillingham expects to be in Lowell to accommodate those wishing first or second papers. Molloy at the Green school during the school year which is just drawing to a close are expected to take advantage of the naturalization sessions next month.

Supt. Molloy conducted two distinct courses this year, one beginning in October and continuing one night a week for 12 weeks and the second beginning early in the present year and continuing until last Wednesday night.

MRS. ANNE HALPIN,
MRS. THOS. J. SAWYERS.

LOCAL POLICE MADE VERY GOOD CATCH

Shortly after the arrest of George R. Hermann, the counterfeiter, which took place in this city a couple of days ago, Supt. Welch of the local police department sent a postal card to the chief of police of Springfield, informing him of the arrest of the man, who it is claimed is wanted in Springfield for having passed counterfeit money, and this morning the following letter was received:

I have your card of yesterday referring to George R. Hermann, a counterfeiter, who was arrested in your city. I think this was a splendid piece of police work but, of course, I always knew that Lowell had a good police force in convention. I think the chiefs of police would very much like to hear his methods, for the benefit of the whole country.

I congratulate you upon this most important arrest and I beg to remain, Very sincerely yours,
WILLIAM J. QUITY,
Chief of Police, Springfield, Mass.

MIS LICENSES SUSPENDED

As a result of complaints filed with the highway commissioner by Patrolman James J. Kennedy of this city, through the superintendent of police, the operators license of Manuel Joaquin, of 22 Bradford street, has been suspended. It seems that on May 20, Joaquin, while operating his car, struck a man named Chandler and on May 21, he struck Joseph J. Albert of 100 Fourth avenue. Officer Kennedy, who was near the scene of the last accident, rode to the police station with Joaquin and he claims that on route, Joaquin narrowly escaped striking two other persons. A complaint was filed against Joaquin and this morning, the highway commissioner notified the superintendent that Joaquin's license had been suspended.

STATE AND MILITARY AID
The regular monthly disbursements for state and military aid will be paid

able at the state aid office at city hall next Tuesday, the first of the month. The amounts to be paid include \$493 for state aid, \$134 for military aid, and \$377 for soldiers' relief.

AUTOMOBILE STOLEN

A seven-passenger Hudson automobile bearing the Massachusetts registration 11257, and owned by Edward J. Fahey of 194 Chelmsford street, was stolen at Lakeview last evening, at about 10:30 o'clock. The local police have been requested to be on the lookout for the machine, the color of which is dark blue.

Observing a passage of Exodus which refers to the discovery of Moses in the bullrushes in an ark daubed with slime and with pitch, Standard Oil engineers went to Egypt on a little trip of exploration and made discoveries as the result of which there will soon be extensive oil operations there.

OBSERVE MEMORIAL DAY

Appropriate Programs Carried
Out Today in the Local
Schools

Fitting tributes to the veterans of the Civil, Spanish-American and world wars were paid by Lowell school children today when the annual exercises appropriate to Memorial day were held in the school halls.

In some of the schools the exercises were held this morning and in others this afternoon. Parents and friends of many of the children attended the observances and the programs were just as elaborate as in years past. Many of them opened with the time-honored "Salute to the Flag," and recitations, poems and songs of a patriotic nature made up the programs in most instances.

This afternoon the schools closed not to reopen until next Tuesday morning. Programs as carried out in the various schools were as follows:

SELLS-FLOTO CIRCUS COMING TO TOWN

Paint brushstrokes have been slapping against the dead walls and fences; lithographers have been hanging "bills" of brightly-colored paper in the windows of business houses; the kiddies have been staring at the vividly-tinted pictures of parades, bands, clowns and animals, for the circus—the Sells-Floto circus, is coming to town.

The publicity men on the first ad-

"Old Synder," one of the big elephants in the herd with the Sells-Floto circus and his partner, Goldie, a pet hen, who has found a roosting place on the head of the big pachyderm.

vertising car have been busy announcing to the circus "fans" the day and date of exhibition, which is Thursday, June 10.

The Sells-Floto circus is the second largest circus in the world, and wherever it appears it brings hundreds of performers and animals with scores and scores of the very best acts to be seen under the white tops this season; acts that thrill the great audiences which gather both afternoon and evening under the great tents. "The Birth of the Rainbow" is the big spectacular feature that starts the program, and from that time until the end, novelty after novelty is presented. There is awesomeness in the aerial, wire ground, ring riding, Indiana, animal, clown and goodness knows what other kind of acts, all of them circusy. "And there's always a plenty to see," says the press agent.

The parade takes place in the morning, leaving the grounds at 11 o'clock. The doors to the big show open at 1 and 7, performances starting an hour later. The concert by the celebrated Sells-Floto circus band of 50 pieces, begins half an hour after the main entrance opens.

BANK CASHIER ENDS LIFE BEFORE POLICE

BURLINGTON, Vt., May 28.—Charles H. Strong, 62 years old, cashier of the Vergennes national bank for 20 years and an employee of the institution for 40, shot himself dead yesterday morning immediately following the appearance of Bank Examiner J. A. Connor and his assistant, J. Walsh of Montpelier. Last night bank officials admitted there was a shortage in the dead cashier's books as revealed by a partial examination.

The incidents attendant upon the suicide were dramatic. At 9:15 yesterday morning the bank examiner and assistant made their appearance just as Mr. Strong had cashed a check for a woman customer. The bank examiner had no sooner started work on the books than Strong started for the cellar. It was also noted, after he had gone, that the bank revolver was missing. Policeman Fred Lebeau was called in and went down into the cellar where he found Strong in a highly excited state and flourishing the revolver. Lebeau hastily returned upstairs, getting a revolver himself and calling another officer. When the two returned to the cellar, Strong, who had retreated to the far end, placed the revolver in his mouth and shot himself. He died instantly.

A person usually begins to lose height at the age of 50 and at the age of 90 it is estimated that on the average he has lost about 1 1/2 inches.

ALLEGED KILLER INSANE

Mrs. Anna Tomazskiewicz Found Not Guilty by Reason of Insanity

NORTHAMPTON, May 28.—A verdict of not guilty by reason of insanity was returned last night by the jury in the case of Mrs. Anna Tomazskiewicz, charged with the murder of her husband Andrew.

The case went to the jury at 4:20 p. m. which after 1 1/2 hours for lunch began its deliberations which occupied three hours.

Mrs. Tomazskiewicz was committed to the Northampton State hospital for the insane for life.

The state contended that Mrs. Tomazskiewicz had murdered her husband by giving him poison, her motive being to collect insurance which she had placed on his life. The testimony showed that two other former husbands, Theodore Darmatka and Peter Vilos, had died of poison and that they also were heavily insured. The evidence was largely circumstantial and did not show that Mrs. Tomazskiewicz had placed poison in the food of her last husband.

The defense claimed that the defendant was not mentally sound, experts testifying that her actions during the court proceedings indicated she was of low mentality.

NOTES FROM IRELAND

What British Writers Say of Present Situation

The following is from an article in the London "Daily News" of April 19th, 1920, by Major Erskine Childers, D.S.O.: "What we all know is that Ireland is permeated with spies, ordinary and extraordinary, imported Englishmen and native Irishmen, in low place and in high places; who, under various official designations and with the temptation of high rewards, ply their calling in the never-ending work of detecting and punishing first and foremost the great national crime of republicanism."

Major Childers then remarks that the British government's pretext for myriads of arrests in Ireland is that those taken are guilty of crime. He continues:

"In actual fact they (the British government) are accelerating and intensifying the proscription, now long in vogue, of people believing in the independence of Ireland. Pacifists, Intellectuals, labor leaders, workers in economic and industrial revival, teachers of the Irish language, election organizers, elected members of local bodies, elected members of parliament, not to speak of a host of local leaders of opinion—all these classes are being swept into the net, together with a number of men—and sometimes young boys—indiscriminately arrested because they happen to be found in a house which happens to have been des-

ignated by a spy for a raid. . . . I want to insist on this general statement, that an attempt is being made to break up a whole national organization, a living, vital, magnificent thing, normally and democratically evolved from the intense desire of a fettered and repressed people for self-reliance and self-development."

The De Facto Republic

"Gradually but surely the Sinn Féin courts are extending their dominion in the west and where Sinn Féin, with the aid of the Volunteers, has not driven out the British rule altogether the old warfare continues. . . . It is obvious that in this kind of warfare the government is slowly losing and that Sinn Féin, with the aid of the Volunteers and organized labor has reached an unprecedented degree of power."—Special Correspondent "Manchester Guardian," April 17th, 1920.

The Wilful Murder of a People

"The Irish will not allow themselves to be ruled by England. They will, as the Mountjoy men proved, prefer the alternative of death. Therefore, they must be freed—or they must be exterminated. If we will not do justice we must accept responsibility for wilful murder."—London "Daily Herald," April 19th, 1920.

\$68,345 RAISED FOR COOLIDGE CAMPAIGN

WASHINGTON, May 28.—James B. Reynolds, who was in charge of headquarters in Washington in the interest of Gov. Coolidge for president, was one of the witnesses yesterday before the special senate committee investigating campaign contributions and expenditures.

Mr. Reynolds disclosed a list of subscriptions which totalled \$68,345.

The largest individual contribution was \$12,500 from F. W. Stearns; \$10,000 contributions were made by Andrew Adie and William F. Whiting; \$5000 by Max Mitchell; \$5000 each by W. M. Crane and E. B. Dane; other subscriptions were as follows:

Winthrop Coffin, \$500; Thomas E. Chandler, \$25; Frank W. Remick, \$2500; L. M. Hood, \$1250; F. C. Webster, \$1250; John P. Reynolds, \$1000; J. H. Hanaford, \$100; Walter Scott, \$500; John Rousmaniere, \$100; H. I. Harriman, \$100; J. C. Hills, Jr., \$1000; G. A. Baker, \$50; A. C. Hatchesky, \$500; William N. Wellington, \$1000; William A. Paine, \$1000; R. W. Maynard, \$1000; John W. Simpson, \$2500; A. J. McWaters, \$1000; Nell A. Weather, \$1000; Grosvenor H. Backus, \$2000.

E. C. Cresset, \$1000; Lucius R. Eastman, \$500.

Committee Asked No Questions

In marked contrast with the examination of most of the other witnesses who have appeared before the committee, there was no attempt to question any of the statements made by Mr. Reynolds or to inquire into or scrutinize the identity of any of the men who appeared in the list of contributors. Most of the campaign treasurers who have thus far appeared have been closely questioned as to the possible motives and the professional or business connections of those making contributions. Senator Kanyon's committee appeared to be satisfied that the Coolidge contributions needed no investigating.

Shortly after Gov. Coolidge was re-elected last fall, the Republican club of Massachusetts formally proposed his name for president, said Mr. Reynolds. "In the early part of January of this year, without consultation with the governor—but after consultation with certain of his friends in Massachusetts—I opened headquarters in Washington at the Raleigh hotel in support of Gov. Coolidge."

"About the middle of February, Gov. Coolidge, who had heretofore taken no action whatever in the matter, issued a public statement that he desired no contest for delegates made on his behalf, on the ground that it was his duty to devote his whole time to his work as governor of Massachusetts. I thereupon closed the headquarters at

the Raleigh hotel.

East One Governor's Book

"Many of the governor's friends and admirers felt that it was not inconsistent with the governor's position for them to continue their efforts to make his life and work more widely known. These efforts consisted almost entirely in circulating copies of his book of speeches and public papers published under the title 'Have Faith in Massachusetts.' This book was published last October, not at all in connection with the presidential campaign. It has run through several editions."

"The total amount of money collected from all sources is \$68,345, of which \$60,375 came from Massachusetts and \$8990 from outside of the state of Massachusetts. This latter amount came largely from college friends of the governor."

"The work has been carried on largely by volunteers, part of it from my own office in Washington, and part of it from an office in New York opened about three months ago by a committee of college friends of the governor. The money has been expended in the purchase of books, in clerk hire, in wrapping and mailing, in postage, and in the printing and distribution of supplemental matter such as reprints of magazine and newspaper articles. No money has been sent into any state for any purpose. The work has been entirely educational."

LOWELL CARMEN TO DECORATE GRAVES OF MEMBERS WHO DIED IN WAR

The graves of the three members of the local carmen's union who gave their lives in the recent war will be decorated on Memorial day, according to a unanimous vote taken at the last meeting of the organization.

The others where rest the bodies of Ralph Tewksbury and Eugene Tansey are in Lowell and committees have been appointed to personally supervise their decoration.

MOCK TRIAL AT FIRST BAPTIST CHURCH

A mock trial of "The Great Chicken Case" was given last evening in the First Baptist church before a large audience. Many pleasing and humorous incidents were brought out during the prosecution of the case. After the rendering of the decision by the jury, refreshments were served by the ladies of the church.

Warren T. Reid presided. As judge over the trial, and the jury was picked from the audience. The defendant was George Tiffany and his witnesses were Mr. Greenwood, Mrs. Alice Shaffer and Frank J. Spooner. The witnesses for the plaintiff were Mrs. Gilman Alcott, Mrs. John Y. Myers and Eljsha Hutchinson. William Anderson acted as sheriff.

Special Blue Serge Offer

CLOSED ALL DAY MONDAY, MEMORIAL DAY

ARLINGTON MILL SERGE with absolute knowledge of the quality of this blue serge, knowing what I paid for it, knowing what I sold it to you for a year ago, two years ago, yes, and four years hence, I would know I must have pleased you, even if constant demand and duplicate orders didn't prove it to my entire satisfaction. I want you to pass the word around among your friends, tell them exactly what you paid, tell them how the suit wore, tell them exactly how I pleased you.

MY OBJECT is to interest them in this special offer just now for \$27.50. Owing to a temporary lull among the wholesale woolen jobbers the past few weeks, I bought 18 pieces for this store, 20 per cent. less than I paid for it four weeks ago—it is even a better blue and heavier in weight. I don't hesitate to say, that not a man in Lowell who has done any shopping this season, even looking in windows, will guess the price under forty after he sees it made and on your back. I don't mind telling you that this serge was never intended for low priced suitings and it is no secret that there is no concern in Lowell or New England which can sell it anywhere near my price.

I GUARANTEE to put every cent where it counts most—into the clothing itself no costly plate glass or swell mahogany fixtures, no Oriental rugs, no oil paintings, and no haughty floorwalkers. I carry no charge accounts and don't have to make up any credit losses. I've cut out expense to the bone—and save you \$10 to \$15.

All garments sell under this express stipulation—that the customer be satisfied or no sale. GUARANTEED BLUE SERGE, 11 1/2 oz. in weight, absolutely all wool and fast color. If it fades I'll make you a new suit and you can keep the old one....

FANCY WOOL CASSIMERES, plain and fancy colors, \$35 values. Several good styles to select from, made to your order, any style for \$25.00.

THE MERRIMACK RIVER

Nothing Doing on Plan to Make River Navigable to the Sea

Another adverse report has been made by the federal board of engineers for rivers and harbors on the Merrimack river navigation project and for the current year, at least, the proposition will remain in the same state of coma. It has been assumed for the past several years.

The report states that whereas the estimated cost of the project in 1914 was \$7,076,609 with \$100,000 annually for maintenance, it now has jumped to \$14,200,000, with yearly upkeep amounting to \$200,000 in round numbers.

This 100 per cent. advance has led the board to pronounce the work inadvisable at the present time, adding, however, that should the conditions obtaining in 1916 return, the project may be worthy of further consideration.

Congressman John Jacob Rogers, backed up by a number of prominent Lowell men, have worked hard for the success of the project for a number of years, but to date, their efforts have been fruitless.

The report covering the fluting of the board of engineers follows:

WAR DEPARTMENT

The Board of Engineers for Rivers and Harbors, May 4, 1920.

From the Board of Engineers for Rivers and Harbors.

To: The Chief of Engineers, U. S. Army, Washington.

Subject: Report on Merrimack River, from Lowell to the sea, in response to resolution.

1. The board submits report in response to the following resolution:

Resolved, by the committee on rivers and harbors of the House of Representatives, United States, That the board of engineers for rivers and harbors, created under section 3 of the river and harbor act approved June 13, 1907, be, and it hereby is, requested to review the report on Merrimack River, Mass., printed in House Document No. 1313, 54th Congress, 2d session, with a view to ascertaining if the improvement there recommended is advisable at the present time, and to undertake certain local co-operation as recommended in said report; also with a view to submitting an estimate of the cost of the improvement.

2. The report under review contemplates the improvement of the Merrimack river from Lowell to the sea to the extent of providing a channel 15 feet deep at mean low water and 200 feet wide from Black Rocks Beach to Hunt's Falls, at an estimated cost of \$1,676,600 and \$100,000 annually for maintenance, the state of Massachusetts or other local interests to contribute 50 per cent. of the first cost of improvement, and to undertake certain additional co-operation specified; and further to the extent of securing and maintaining a channel 1000 feet wide and not less than 25 feet deep across the bar at the mouth of the river at the expense of the United States at a cost not to exceed \$50,000 a year. The plan of improvement includes the construction of a lock and dam at Lion's Mouth, a lock at Lawrence dam, and dredging and rock excavation where necessary.

3. These estimates were made in 1916 when prices were fairly normal. Revised estimates prepared at the instance of the board shows that the work would now cost in round numbers \$14,200,000, including \$198,000 for dredging between the ocean and Black Rocks not in the former estimate, but now considered an essential part of the project. It will therefore be seen that the amount now involved is almost exactly twice the original estimate. In addition to this sum of over \$14,000,000, a large amount will be required for rail connections, wharves, terminal facilities, etc., to be paid by local interests. No estimate has been made for flowage and other damages. If the cost is distributed as formerly, the amount to be furnished by the United States would be in round numbers \$7,100,000; the state or local interests would have to supply the indefinite balance. The cost of the indefinite balance, the cost of the indefinite balance, and maintenance to be borne by the United States is now placed at probably \$200,000.

4. With regard to the inquiry whether the improvement recommended in the report under review is advisable at the present time, it may be stated that in this, as in other investigations looking toward river and harbor improvements, the question hinges upon the relation of cost to benefit. It is quite clear that under present conditions, the cost would be very much greater than formerly estimated, but there is no conclusive evidence that the benefits would be larger than anticipated in 1916, and as the prospective advantages were not then materially greater than considered necessary to justify the improvement, the board must report that the improvement is not deemed advisable at the present time. Should the conditions obtaining in 1916 as to cost of material and labor return, the project may be worthy of further consideration.

For the board:

J. C. SANFORD,

Colonel, Corps of Engineers,

Senior Member of the Board.

REP. BRENNEN LEADS FIGHT AGAINST BILL

Special to The Sun.

STATE HOUSE, Boston, May 25.—

Representative Owen E. Brennan of Lowell took a prominent part in the rejection of the bill permitting savings banks to invest in first mortgage bonds secured by real estate located in this commonwealth.

The bill has been reported favorably by the banks and banking committee of which Rep. Brennan is a member, but the vote of the committee was six to five for the bill, and it fell to the lot of Rep. Brennan to lead the dissenters.

He made the assertion that the purpose of the bill was not to enable savings banks to buy such bonds, but rather to enable real estate promoters more easily to dispose of their bonds to private investors, by stamping upon them a statement that they are legal investments for savings banks, and supposedly a safe investment for private individuals. He said:

"I do not believe that this bill should receive the approval of the legislature. I do not believe that we should put the stamp of approval upon any more questionable methods of offering to

the public securities of doubtful value. There is altogether too much wild cat financing going on today with the public victims. This bill, if adopted, will simply put into the hands of bond salesmen a very powerful argument to use in offering bonds for sale to the people, because they will be in a position to say, and truthfully, that savings banks in this commonwealth are authorized and permitted to purchase such bonds and consequently the security behind those bonds must be legitimate and absolutely safe or savings banks would not be allowed to purchase them. A bond salesman can very easily glibly argue that a bond that is good enough and safe enough for a savings bank to invest in, is surely good enough and sound enough for an individual to put his money into.

"Instead of opening up wider opportunities for savings banks to invest the people's money in what may turn out to be unsound investments, it would be better for us to give consideration to measures having for their object a more restrictive privilege for investment than now exists. There is, to my mind, already too much latitude allowed savings banks in the investment of the people's money in securities, some of which are not altogether what could be called absolutely sound and safe.

"The object of this bill, as I understand it, is to permit big operations in real estate, that is, to allow for erection of mammoth buildings in the commonwealth, constructed upon bond issues, such bond to be secured by first mortgages on the buildings.

Buildings that probably would cost so much that no one bank or group of banks or individuals could successfully finance. With bonds issued for the construction of such buildings there, of course, would be a wider distribution and sale of these bonds, thereby allowing for the erection of buildings costing colossal sums of money. In theory this may seem fairly reasonable, but may I ask what good are the bonds secured by first mortgages on such buildings, if these kind of buildings turn out to be so much stone and mortar and fail to earn sufficient revenue to even pay the interest on the bonds issued against their construction. This does happen and one may point to many large buildings that fail to show any earning whatever on the investment.

"If we submit to this unwise and dangerous legislation and allow it to be enacted into law, the next step will be legislation to let down the bars and legalize for safe investment by savings banks all kinds of foreign bonds of doubtful and questionable value. We should stiffen up rather than loosen up

at this time in safeguarding the people's money in savings banks through out this commonwealth. Massachusetts has gone far enough already in designating and permitting savings banks to invest in various kinds of securities. No doubt, some savings banks today would be much better off if they had been more restricted in the kind of securities that they could legally purchase for investment. Bond salesmen are prolific enough in arguments offering bonds for sale to the people without giving them additional arguments to offer that they have bonds now for sale and to offer to the public, that have the stamp of approval of the commonwealth as legal investments for saving banks. I trust this bill will be defeated as a protection to public interest."

KAISER NOW A TAILOR

Work Shows He Missed His Vocation — Doing Good Job at "Building" Suits

LONDON, May 28.—William of Hohenzollern, former emperor of Germany, is trying his hand as a tailor, according to a Central News despatch from Amsterdam. He is cutting out patterns for many new suits with which he is going to stock his wardrobe and the despatch quotes a trade paper as declaring that he is "excelling at the job."

"How unfortunate it is," says the paper, "that William missed his vocation. After all the notoriety he achieved as an emperor, one can imagine what would have been his fame as a tailor."

has a truly complete

HOUSE FURNISHING STORE

In the cuts below some of the most attractive parts of our model rooms have, of necessity, been left out, since the camera cannot focus the entire room.

LIVING ROOM

In this room may be seen a three-piece set of exceptional design and upholstery (a combination of tapestry and velour.) On either side of the divan are consoles or half tables. The shades, both for the table and reading lamps are of parchment, with artistic hand painted designs.

The pictures on the walls are taken from our picture department and include a fine selection of Wallace Nutting and Johnson's works.

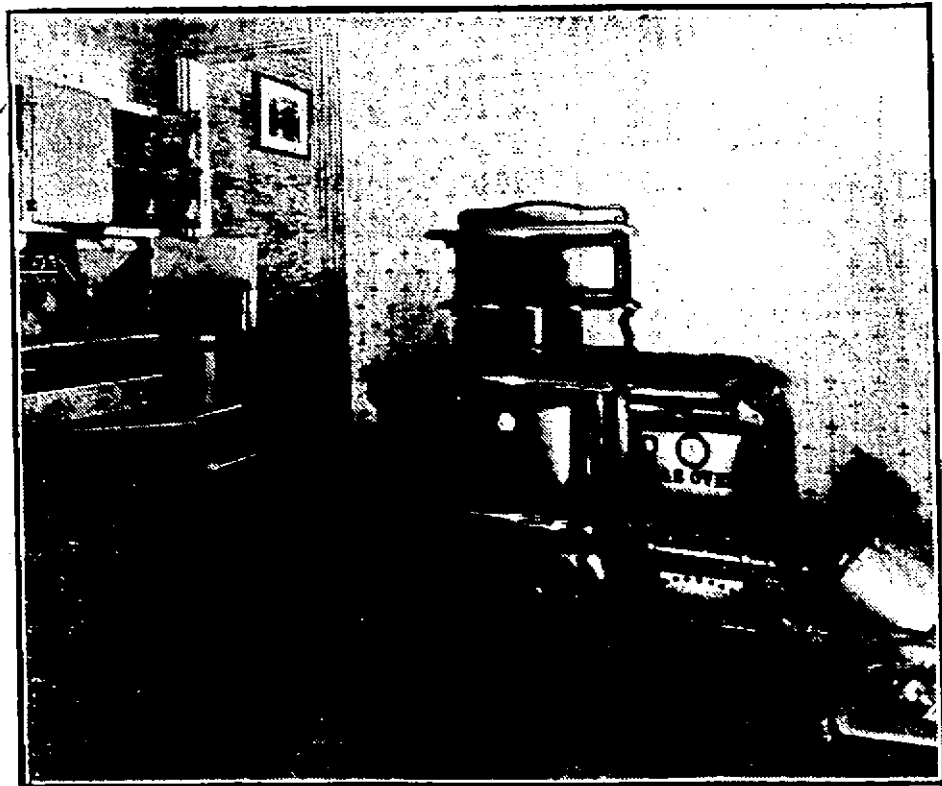

SUN PARLOR

The reed furniture in this room is from our REED AND WILLOW FURNITURE DEPT. A striking feature of this furniture is the new kind of finish, known as antique mahogany. Before buying reed furniture ask to see some in this new finish.

DINING ROOM

This set as displayed in the above cut is made from hand rubbed dull brown mahogany; of excellent workmanship, it represents some of the best furniture from Grand Rapids. The set consists of eleven pieces; buffet, china, serving table, dining room table, tea wagon and five chairs and an armchair.

Within the last year our dining room furniture department has almost been doubled in size. Here may be found every style of dining room set in every wood and finish; oak (fumed and golden); mahogany and walnut.

KITCHEN

Were it necessary one could step in to our model kitchen and prepare a meal. The equipment includes a QUAKER PRIZE B No. 8-20 range with gas attachment; a large porcelain top Hoosier cabinet; a Ranney Refrigerator and a Domestic Science fireless cooker—along with this—a complete set of aluminum cooking utensils.

In short everything needed to equip a kitchen may be obtained in our complete Kitchen Furnishings Dept.

Inlaid linoleum is used as a floor covering in this room. This assures a sanitary and durable covering.

THIS suite of rooms will have an entire change of furnishings every three weeks.

YOU are cordially invited to inspect them at any time.

BED ROOM

The bed room set in this room includes eight pieces of walnut furniture consisting of dresser, chiffonier, dressing table, bed, dressing table bench, chair, rocker, and bedside table. The bed is equipped with a De-Lux spiral spring and an imperial edge SILK FLOSS mattress.

We are exceptionally proud of this particular make of mattress since it is without doubt the best of its kind on the market.

SEVEN-MINUTE TIME

Home Rule Committee Seeks
Better Service for Gorham
Street Residents

An effort to secure 7-minute time on the Gorham street line instead of 15-minute time as is at present the case was made at the regular meeting of the home rule committee yesterday afternoon at city hall by John E. Sullivan, one of the members. On Mr. Sullivan's motion it was voted to request the trustees of the Eastern Massachusetts Street Railway company to furnish such service during certain periods of the day.

Otherwise, yesterday's meeting was more or less routine. Chairman John J. O'Rourke brought forth the novel suggestion that the Hildreth building be arcaded so that cars might run through it and thus relieve traffic congestion in Merrimack square but no action was taken on the matter.

The resignation of Abel R. Campbell, a member of the committee, was read and referred to Mayor Thompson.

The meeting was called at 6.15. Messrs. O'Rourke, Curtin, Duffee and Sullivan were present. Manager Lees was absent. Mr. Ricard came in later.

The resignation of Abel R. Campbell as a member of the committee was read by Chairman O'Rourke. The resignation was addressed to Secretary Curtin.

Mr. Sullivan moved that the matter be referred to the mayor and it was so voted.

A communication from Manager Lees, announcing that the trustees of the

road had approved the recommendations of the committee that the fare between Lowell and Lakeview be reduced from 15 to 10 cents, was read and accepted. The reduced fare will be operative from May 30 to Labor day.

There was a discussion of the working of the one-man cars on the Pawtucketville-Oaklands and Varnum avenue-Christian hill lines. Manager Lees wrote that the cars were meeting with success, particularly on the former route. During the rush hours a little difficulty is experienced. Chairman O'Rourke thought, in view of the saving in men effected by the one-man

system, that more cars might be put on during the rush hours. It was decided to take the matter up with Manager Lees.

Mr. Ricard again brought up the matter of a belt line which had been discussed at a previous meeting. There was no action.

Chairman O'Rourke broached the proposition to arcade the Hildreth building as a means of relieving congestion in Merrimack square. He said that cars might come directly from Central st., through the arcade and out to Brookings street. The cars

would then come into Bridge st. and around to the square again. No action was taken.

A letter from Fred Cummings, publicity agent of the company, showing the increase in the cost of materials used by the road in the past few years, brought forth a discussion of the increase in fares in Lowell. Mr. O'Rourke thought it would be a good idea to have the net earnings of each line during May presented to the committee at its next meeting. The secretary was instructed to ask Manager Lees to furnish the information.

Mr. Sullivan said that he believed the Gorham street line was one of those

entitled to better service in view of the amount of traffic there.

He moved that the secretary be instructed to write to the trustees asking that 7-minute time be established on the Gorham street line from 11 a. m. to 5.30 in the evening on Monday, Tuesday, Wednesday, Thursday and Friday and from 11 a. m. to the last car on Saturdays, from the square to the Edison cemetery during the summer months. It was so voted.

A COMFORTABLE SHOE THAT IS SMART

Here's the happiest combination of style and comfort you ever wore.

Nunn-Bush call it their Panama Last. In the ball of the shoe you find all the width of an Army shoe, yet the toe swings to a point that makes the shoe appear much narrower than it is.

That means comfort and style.

It's a well made shoe, silk and linen sewn, only the highest quality of leather used and the style and shape are retained to the last day you wear them.

We feature this shoe in chocolate calf at \$12.00. We also show it in black vici and other leathers, some lower priced.

FULL TEXT OF VETO MESSAGE

President Gives Reasons for
Refusing to Sign Republi-
can Peace Resolution

Provides Peace Without
Exacting Action to Right
Wrongs Committed

WASHINGTON, May 28.—The full
text of President Wilson's message ve-
ting the republican peace resolution
which was sent to congress late yester-
day afternoon follows:

To the House of Representatives:
"I return herewith without my sig-
nature, house joint resolution 327, in-
tended to repeal the joint resolution of
April 8, 1917, declaring a state of war
to exist between the United States and
the Austro-Hungarian government, and
to declare a state of peace. I have
not felt at liberty to sign this joint
resolution because I cannot bring my-
self to become party to an action
which would place indefensible statu-
s upon the gallantry and honor of the
United States. The resolution seeks
to establish peace with the German
empire without exacting from the
German government any action by way
of setting right the infinite wrongs
which it did to the peoples whom it
attacked and whom we professed it
our purpose to assist when we entered
the war. Have we sacrificed the lives
of more than 100,000 Americans and
ruined the lives of thousands of others
and brought upon thousands of Amer-
ican families an unhappiness that
can never end for purposes which we
do not now care to state or take fur-
ther steps to attain? The attainment
of these purposes is provided for in
the treaty of Versailles by terms
deemed adequate by the leading states-
men and experts of all the great peo-
ples who were associated in the war
against Germany. Do we now not care
to join in the effort to secure them?"

"We entered the war most reluc-
tantly. Our people were profoundly
distinclined to take part in a Euro-
pean war, and at last did so, only be-
cause they became convinced that it
could not in truth be regarded as only
a European war, but must be regard-
ed as a war in which civilization it-
self was involved and human rights of
every kind as against a belligerent
government. Moreover, when we en-
tered the war, we set forth very de-
finitely the purposes for which we en-
tered, partly because we did not wish
to be considered as merely taking part
in a European contest.

"This joint resolution which I re-
turn does not seek to accomplish any
of these objects, but in effect makes a
complete surrender of the rights of
the United States so far as the Ger-
man government is concerned. A treaty
of peace was signed at Versailles on
the 28th of June last, which did seek
to accomplish the objects which we
had declared to be in our minds, be-
cause all the great governments and
peoples which united against Germany
had adopted our declarations of pur-
pose as their own and had in solemn
form embodied them in communica-
tions to the German government pro-
liminary to the armistice of Nov. 11,
1918. But the treaty as signed at
Versailles has been rejected by the se-
nate of the United States, though it has
been ratified by Germany. By that
rejection and by its methods we had
in effect declared that we wish to
draw apart and pursue objects and
interests of our own, unhampered by
any connections of interest or of pur-
pose with other governments and peo-
ples.

"Notwithstanding the fact that upon
our entrance into the war we pro-
fessed to be seeking to assist in the
maintenance of common interest, noth-
ing is said in this resolution about the
freedom of navigation upon the seas,
or the reduction of armaments, or the
vindication of the rights of Belgium,
or the rectification of wrongs done to
France, or the release of the Chris-
tian populations of the Ottoman em-
pire from the intolerable subjugation
which they have had for so many gen-
erations to endure, or the establish-
ment of an independent Polish state,
or the continued maintenance of any
kind of understanding among the great
powers of the world which would be
calculated to prevent in the future such
outrages as Germany attempted, and
in part consummated. We have now
in effect declared that we do not care
to take any further action with re-
gard to the freedom of nations or the
sacredness of international obligations
or the safety of independent peoples.
Such a peace with Germany—a peace
in which none of the essential interests
which we had at heart when we en-
tered the war is safeguarded—is, or
ought to be, inconceivable, is in-
consistent with the dignity of the United
States, with the rights and liberties of
her citizens and with the very funda-
mental conditions of civilization.

"I hope that in these statements, I
have sufficiently set forth the reasons
why I have felt it incumbent upon me
to withhold my signature.

"WOODROW WILSON.
"The White House, 28th May, 1920."

ADVENTURES OF THE TWINS

by Olive Roberts Burton

SLEEKER SWALLOW'S NEWS

Sleeker Swallow was leaving Scrub-Up Land to go to the Land-Where-Spring-Is-Coming, when he thought of something.

"Say," he said, "aren't you the children who live in the white house on a hill above a meadow that has a chestnut tree in it?"

"Yes, we are. Do you know us?" asked the twins in pleased surprise.

"My, yes!" Sleeker assured them. "I remember when you were first brought

downstairs a few days after you were born. You were as red as strawberries! And they made a big fire in the grate, although it was only September, and I hadn't left for the south yet. I was almost roasted out."

"Where were you? I didn't see you," wondered Nick.

Sleeker laughed. "I was living in your chimney at the time," he said.

"Sometimes I live in the barn instead. It's about the barn I wish to speak. It's been on my mind for some time.

Spring Ailments

Relieved By a Well-Known Medicine of Superlative Merit

Spring ailments are due to impure, impoverished, devitalized blood.

Among them are pimples, boils and other eruptions, loss of appetite, that tired feeling, a run-down condition of the system, and sometimes chronic weaknesses made worse.

Hood's Sarsaparilla combines the roots, barks, herbs, berries and other medicinals that have been found, in many years of intelligent observation, to be most effective in treatment of these ailments.

Successful physicians prescribe these ingredients for diseases of the blood, stomach, liver and kidneys, and in cases where alterative and tonic effects are needed.

Hood's Sarsaparilla is the spring medicine that purifies, enriches and revitalizes your blood, increasing power of resistance to disease.

For a laxative take Hood's Pills.—Adv.

TULLE ON SATIN FOR DANCE FROCKS

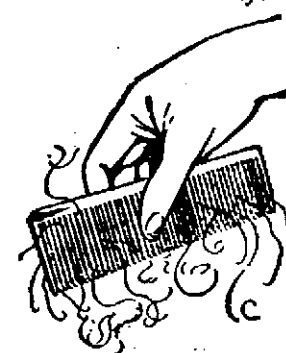

NEW YORK, May 26.—As charming and simple a summer evening dance gown as the most exacting could desire is this frock from "Trene." It is of majenta tulle over white satin, the tulle trimmed with iridescent bands of sequins and the white satin slip scalloped and bound with a narrow velvet ribbon.

A bandeau bodice of white lace has a drapery of the majenta tulle about it and is held up by one sequin band strap and one lace band. A velvet girdle with a velvet ribbon bow into which a few flowers are tied in, gives the finishing touch.

Much attention is given to the slips and underdresses over which transparencies are draped. They are oftentimes trimmed more or less elaborately with lace, French flowers and ribbons, the latter twisted into knots, shaped in rosettes or introduced in shirred, plaited or plain bands.

"DANDERINE"

Stops Hair Coming Out;
Doubles Its Beauty.

A few cents buys "Danderine." After an application of "Danderine" you can not find a fallen hair or any dandruff. Besides every hair shows new life, vigor, brightness, more color and thickness.—Adv.

GLIDDEN ANNOUNCES PLAN FOR BIG FLIGHT

BOSTON, May 28.—Formation of a world's board of aeronautical commissioners, consisting of representative men of 60 countries and colonies, to advance aviation and encourage aerial navigation on all parts of the world, was announced in a cablegram received here last night from Maj. Charles J. Glidden of this city, who is now in London.

Maj. Glidden said that tentative plans had been completed for a tour around the world in an airplane as a test flight for the projected aerial derby. The plans call for three passen-

FAREWELL RECEPTION TO PASTOR AND WIFE AT PAIGE STREET CHURCH

Rev. and Mrs. Earl T. Favro, the former pastor of the Paige Street Baptist church, who recently sent in his resignation and who will conclude his services with the church next Sunday, were tendered a farewell reception last evening. The event was conducted in the vestry of the church, which was prettily decorated for the occasion, and was largely attended. In the receiving line with Rev. and Mrs. Favro were

gers, to be selected by the Aero Club of America, in addition to the crew. Maj. Glidden estimates the distance to be travelled as 23,000 miles and the flying time as 250 hours.

Music was also furnished by an orchestra, while Mrs. Mildred McKeon entertained with pleasing numbers. The committee in charge of the reception was composed of the following: Mrs. Alvin E. Joy was chairman, assisted by Mrs. W. E. Hatch, Mrs. Walter I. Chase, Mrs. W. O. Brown, Mrs. Carrie Upham, Mrs. Fred Balcom, Mrs. Minnie Barton and Mrs. Fred A. Lawson. KILL MASON RESOLUTION

Provided Recognition of Irish Republic—Cong. Rogers Votes Against Measure

WASHINGTON, May 26.—The committee on foreign affairs of the house will in all probability report a resolution today, expressing "sympathy with the aspirations of the Irish people for a government of their own choice."

This action was forecasted last night by Congressman Rogers of Massachusetts following a long session of the committee, during which the original Mason resolution providing for an appropriation for a minister and consuls to the Irish republic, was rejected by a vote of 15 to 5.

The resolution upon which it is expected the committee will finally agree is suggested as an amendment to the substitute Mason resolution. It is as follows:

"Whereas the American people have always sympathized with the aspirations of every people seeking political freedom; and

"Whereas the people of Ireland have

shown unmistakably their desire to govern themselves; and

"Whereas the conditions in Ireland today endanger world peace; and

"Whereas in particular the unrest caused by these conditions is inevitably reflected in these United States of America, tending to weaken the bonds of unity and the ancient ties of kinship which bind so many of our people to the people of Great Britain and Ireland, therefore, in the interest of world peace and international good will, be it

"Resolved by the house of representatives (the senate concurring) that the house of representatives views with concern and solicitude these conditions and expresses its sympathy with the aspirations of the Irish people for a government of their own choice."

The vote on the original Mason resolution was as follows: In favor, Kennedy of Rhode Island, Browne of Wisconsin, Sabath of Illinois, Smith of New York, Mason of Illinois.

Opposed—Rogers of Massachusetts, Temple of Pennsylvania, Ackerman of New Jersey, Begg of Ohio, Houghton of New York, Newton of Minnesota, Dickinson of Iowa, Smith of Illinois, Flood of Virginia, Goodwin of Arkansas, Huddleston of Alabama, Connally of Texas, Linthicum of Maryland.

Moore of Indiana and Stedman of North Carolina. All resolutions providing directly for a recognition of the Irish republic were defeated.

MEMORIAL DAY PLANS

At a meeting of Admiral Farragut camp, auxiliary, 47, held last evening in Memorial hall plans for Memorial day were completed. Mrs. Eleanor Parker, the president, occupied the chair. It was announced that the auxiliary will co-operate with the Sons and Daughters of Veterans in providing supper and entertainment at the First Universalist church in Hurd street for Post 42 and the Women's Relief corps. 75, after the Memorial day parade. In the course of the meeting two new members were initiated and one application for membership was received.

NEW POLISH REPUBLIC

Pledges to Purchase \$20,000

Worth of Bonds Made at Meeting

Pledges to purchase \$20,000 worth of bonds of the new Polish republic were gathered in at a public meeting held last evening at Associate hall to open a campaign for the sale of \$100,000 of the bonds in Lowell. The largest single subscription was from Rev. Alexander Ogonowski, pastor of Holy Trinity church in High street. About 300 persons were in attendance at the meeting.

The meeting was in charge of an executive committee made up of Frank Kus, president; Anthony Pomprok and Peter Kostrowa, treasurers; Jacob Targ, financial secretary, and Frank Urbanek, recording secretary. President Kus was chairman of the evening.

The meeting opened with the reading by Jacob Targ of an appeal from the Polish government for the purchase of the bonds. In the appeal reference was made to what had been accomplished by America in the world war toward giving Poland her freedom.

Rev. Fr. Soltyski spoke of Poland's bitter experiences in the past, and said that the opportunity to purchase the bonds offered a splendid chance to the Polish people of America, and others, to help a country that was just emerging from a long era of oppression.

Rev. Fr. Ogonowski told of the part Poland had played in the war and expressed appreciation for the splendid help given to her by America through the Red Cross and other agencies.

The final speaker was Rudolph Zabek of the speakers' bureau of the Boston headquarters for the bond drive.

The bonds that are being offered are in denominations of \$50, \$100 and \$500 and are payable in 1910. They bear interest at the rate of 6 per cent.

The headquarters for the drive in Lowell are at the Polish club house in Cornhill street and the parish house of Holy Trinity church in High street. At these headquarters reports will be received from canvassers who will visit every Polish resident of the city.

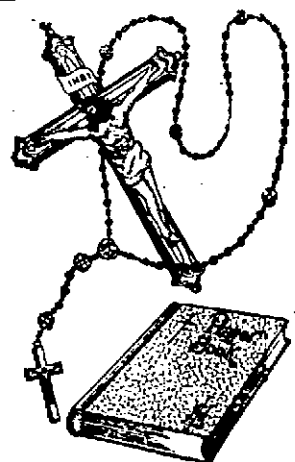

On the advisory committee connected with the drive are the presidents of all of the Polish societies of the city and the pastors of the two Polish churches.

RETURNED VERDICT FOR DEFENDANT

The jury in the case of George Bascas against Dr. John K. Gatsopoulos for the recovery of damages for the results of alleged illegal acts performed upon the plaintiff's wife by the defendant returned a verdict for the defendant in the superior court yesterday afternoon. The case had occupied the time of the court for two days, its progress having been held back by the fact that the plaintiff, who conducted his own case, was unfamiliar with the methods and rules governing court procedure. The members of the jury reached a decision in about half an hour after the case was given to them.

Secretary Daniels is able to hold his own fairly well despite the efforts of Senator Hule and others to make him ridiculous.

Governor Coolidge seems to still have an inside track as a favorite son and dark horse in the race for the nomination at Chicago with Lowden gaining in his efforts to force the Bay State man back among the "also rans" as the distance to the wire grows shorter.

Assuming that the total population is four times the number of polls, the assessors estimate the city's population at 120,000, while the federal census makes it 112,479. Can it be that the federal enumerators are over 7,000 astray? The assessors in past years have come quite close to the official figures.

Recently quite a lively tilt occurred in the national house over a pet provision included in the diplomatic and consular appropriation bill, by which citizens of other countries could not come here without a passport from their home government. It was killed by a vote of 192 to 96.

Self-interest, it appears, is causing many of the great motor companies to unite with government agencies in improving the roads of the country. If the roads are good, the motor truck can render valuable assistance to the railroads, especially in short haul business and for this reason the good roads movement is being pushed in every part of the union.

The drive that has been started to dispose of \$100,000 worth of Polish government bonds in Lowell deserves to meet with success. The buyers will have a chance of making a reasonably safe and profitable investment, and the certainty of doing something to help the people of a long-oppressed nation for which Americans have long had an abiding sympathy.

If it be found true, as alleged, that certain American manipulators are parties to the scheme by which Cuba is to hold back sugar so as to get up the price here, they should be punished, if it be possible to punish anybody in high places. There are profiteers and speculators conspiring against the people; but the government doesn't seem to have any success in finding them.

The message of Chairman O'Leary of the democratic state committee to the speaker of the Louisiana house of representatives urging the ratification of the suffrage amendment may or may not materially help to bring the desired result for the reason that there seems to be about as many women in the Bayou state opposed to ratification as in favor of it.

Representing the railroads before the Railroad Labor Board considering the demand of 2,000,000 railroad men for an increase of wages, Mr. E. T. Whiter said the railroads are not opposed to granting an increase provided they get a fair day's work in return. That would seem to imply that they have not been getting an honest day's work in the past. The implication is unjust to the great body of railroad men for the reason that only those who have done good work have been retained by the bosses.

SENDING PRICES HIGHER
Strange as it may appear, the first effect of price probes is to advance the prices. We have had many examples of that since the close of the war. The latest instance is that of sugar over which the nation has been raving for some weeks past. If the price is kept up by profiteers it is queer that the government should do not catch them. But with reports that sugar is coming to Boston in great quantities, still the prices continue to advance. Somebody will say the prices are regulated by the law of supply and demand. A temporary shortage may result in an increase in price but when that shortage is overcome the price falls to come down. This the law of supply and demand seems to operate against the consumer. Whose fault is it?

WOOD INDICTED
It is not at all probable that the federal authorities will be able to sustain the charge of profiteering against the American Woolen company although the profits of that concern during the war and since, have been enormous. That the company violated any law by rolling up such great profits is not now apparent. President Wood who has been indicted appeals to the employees of his mills to suspend judgment until the case is heard in court, claiming that he, himself, and the company as well, will be exonerated from all blame.

In all probability, this and other indictments have been made in response to the clamor for action against profiteers; but thus far the government has had very indifferent success in such proceedings. Its action against the packers and other big food producing concerns, indicates that it is not so easy as some people think to convict on the general charge of profiteering.

GLARING HEADLIGHTS

There is a law on the statute books of Massachusetts forbidding the use of glaring headlights on automobiles. It has the support of every conservative motorist. It was enacted to protect drivers of cars as much as pedestrians from possible injury.

That this law is not being enforced as it should be is plain enough to anyone who passes along any of the highways at night. On the streets of Lowell, and more especially in the country round about, cars run back and forth over the roads at high speed with lights that are simply blinding to those who meet them full glare.

The police seem to have fallen asleep on their jobs so far as the glaring headlights are concerned. An effort on their part, and it would not require the expenditure of very much energy, ought to go far to prevent such violations of the law. It ought not to require a large amount of sleuthing to obtain evidence against this particular class of law-breakers whose offences menace the safety of all who use the streets and roads either on foot or in vehicles of any sort at night.

A COMMUNITY SPIRIT

Charles H. Penneyer, of Attleboro, in a recent address in this city said: "The community spirit is needed to cement the many factions existing throughout the country into one American brotherhood." These words have a familiar ring. Something very similar has been said a number of times before. Every thoughtful person probably realizes the truth that lies behind the statements. Perhaps only a few who have looked below the surface and studied existing conditions realize fully how great the need of a wider and more inclusive community spirit really is.

As a nation we are split up into many little exclusive circles that very seldom widen out sufficiently to overlap and mingle with one another. We are kept apart by boundaries of wealth or the lack of it, or perhaps because we speak the English tongue through our noses with a Yankee twang or in the broken, vowel-be-spangled dialects of some whose birthplaces are on the other side of the Atlantic.

As a people we need some common meeting places where we can get together in the warmth and understanding of human companionship. We need places where men and women can gather to talk over their common interests. In the Community Service club house on Dutton street a splendid beginning has been made toward providing such places. It is only a beginning though and can only accommodate comparatively few people. There is a wide field for the growth and expansion of the idea.

FOR NEW FORESTS

This is forest preservation week. Why? Charles Lathrop Pack, president of the American Forestry association, calls our forests the backbone of all industry and cites some figures to prove it. Take a look at these facts and then endorse the association's move to have forest preservation week multiplied by 52. Ten years ago the United States produced its entire supply of pulpwood, but now two-thirds of it is imported. This means freight rates to be added to the purchase price. Indications are that supplies of pulpwood in New England and New York will be exhausted in 10 to 20 years. Ten years ago the United States produced its entire newsprint supply—now we import two thirds of it.

Do you wonder that newspapers are fighting for their lives? Do you wonder what makes the cost of building a home so high?

Experts predict saw-log lumber will be gone in 50 years. The bulk of the original supplies of yellow pine in the south will be gone in 10 years, and, within seven years, 3,000 manufacturing plants there will go out of existence.

White pine in the lake states is nearing exhaustion, and these states are paying \$4,000,000 a year in freight bills to import timber.

New England, self-supporting in lumber 20 years ago, now has to import one-third of the amount used.

Fire destroys over \$20,000,000 worth of timber every year and kills the reproduction upon thousands of acres of forest lands.

Within 50 years the present timber shortage will have become a blighting timber famine.

Forest devastation must be stopped; lands now in forest must be kept continuously productive; forest lands now devastated and idle must be put to work.—N. E. A.

THE IRISH PROBLEM

Our old friend Gamaliel Bradford comes out in a long letter to the Boston Herald against "people who are urging America to enter into a war against England in behalf of Ireland." What Mr. Bradford thinks of the status of America and her chances in a war with England may be judged from the following statement in his communication:

"To hope that a victory of America over England would free Ireland, is to hope for a dream; there would be no Ireland left to free and no America left to free it."

Thus does Mr. Bradford intimate that if we became involved with England over the Irish question, England would wipe both the United States and Ireland off the map. No true American will show such a lack of confidence in his own country. But all this talk about war with England over Ireland, is merely the outcome of superheated propagandists. Why should the demand of any people for justice be regarded as a cause of war between two great nations?

Ireland is demanding her right to deliverance from eight centuries of continued British oppression. She is adopting radical measures because she is goaded to this action by the decision of England not only not to grant the Irish parliament which was conceded under the leadership of Redmond, but actually to place the entire country under the control of the Carson faction in the north, about one-sixth of the entire population. That means that in Ireland alone is majority rule to be reversed, and it means also partition along religious lines or the restoration of the ancient "pale" which divided the native Irish from the British invaders.

If England refused to grant Ireland independence, why did she refuse to treat her fairly as any of the other colonies of the empire? Had England adopted the latter course instead of breaking all her pledges, in 1915, all the trouble that has since occurred, would have been prevented.

The enemies of Ireland in defending the course of England, put the effect for the cause and charge that the people were in collusion with Germany in the war.

The record of enlistments and actual service demolishes that lie. There was no opposition to enlistment or conscription on the part of Ireland until the government sided with the Ulster minority in its opposition to putting the home rule act in operation.

The Irish people are disarmed and defenseless against the power of England; but they are pursuing a policy of passive resistance that will make alien government impossible. England may imagine that she can stamp out the national spirit of the people; but nothing less than extermination will accomplish that end. None of the terrible things conjured up by Mr. Bradford will happen. Nobody is urging the United States to interfere in behalf of Ireland, but representatives of Great Britain, official and otherwise, are quite outspoken in their threats that would result in war between this country and England. We still agree with Secretary Colby that congress has a right to do as it pleases in this matter without consulting any foreign power. It might be as well for some European statesmen to realize that the world has undergone a radical change-of late and that coun-

"What!" cried the careful housewife, "you charge me a shilling a pound for these apples?"

"Yes, ma'am," answered the polite grocer, "that is the very lowest price we can sell them for."

"How is it that I can get them from Tom's for eighteen cents, then?"

"I cannot say, madam. Perhaps Mr. Tom has taken a fancy to you. He is a widower and you are beautiful. Unfortunately—Yes, two pounds? Certainly!—Blighly."

The Wise Agent

The agent for the Useless Dingus he was selling was a smart man. He rang the doorbell and a maid opened the door.

"Good morning," smiled the agent. "I am trying to find a married lady whose name I can't remember just now. I think this is her house. She is a woman easily described. Perhaps you know her. She is a handsome woman, with a perfect complexion, beautiful hair and teeth, lovely eyes and an ideal figure. I thought—"

As She Is Wrote

Critic Butler Glensizer, whose knowledge of French is profound, said at the Players' club:

"All our popular authors managed to get to France on one excuse or another during the war, and now they all burden their stories with French phrases."

"Those French phrases! How awful they are! How they make you laugh if you know French at all!"

"A woman magazine writer who gets \$300 a piece for her short stories came into a restaurant the other day and sat down near me. She wore a Y uniform. I knew she'd had a week or two abroad."

"Got any bon vivant?" she said to the waiter.

"But, madame, I don't understand," the waiter, a Parisian, stammered.

"Go on! I thought you was French!" said the woman magazine writer. "Bon vivant means good liver. Bring me some with bacon!"

I join my fellow citizen and on the bleachers from afar I gaze on eighteen lively men engaged in baseball's mimic war. How oft my logic-loving mind has asked what normal-seeming gent in this here foolishness could find, but all have fled my arguments. Because these sturdy hired boys elect to throw a ball or run, should I proceed to make a noise and call it any kind of fun? They start, and some fond fool implores a lad to give the ball a ride, and when three strikes are called he roars that that there umpire's brains are fried. He criticizes every play, he groans or cheers with every run; he knows a more effective way to do whatever thing is done. He pounds his neighbors on the back, he hurls remarks across the scene; in short, he shows an utter lack of what we call the placid mind. This most undignified of guys, who can the foolish fat-head be? Quite suddenly I realize the evidence all points to me!

No matter if out of the frosty North a zero spell or a blizzard blows, Though a polar gale leaps fiercely forth From haunts of the hardy Eskimos; Though it snows and sleets, and flurries and snows, And though Boreas croons and howls and hums, Though it's cold, and steadily colder grows— No matter how cold—our iceman comes.

The butcher's cart in the snow is stalled. The grocer's sticks in the stable yard. The baker's wagon drifts where it willed. Tight to the barn, and frozen hard. The coal man, once by Garfield started, Sits within to twiddle his thumbs; All but one by the weather's barred— No matter how cold—our iceman comes.

We're shy of sugar, and out of bread; The furnace dwindles, drapery and dyes There's a leak below and leak overhead. But the plumber's phone it never rings; Father prouches and mother sighs; None are comforted by the crumb; And then, from without, some sounds arise— No matter how cold—our iceman comes. —Cartoons Magazine.

MAN ABOUT TOWN

The manager of a downtown store which deals in yeast cakes tells me that he has noticed a great increase in the sales of this article within the past few months and is wondering just what reason may be assigned for the unusual demand. Ordinarily, only a few cakes a day were sold in days gone by, but now it is not unusual to sell several dozen a day, the manager in question tells me. Of course, it is assumed that the great majority of purchasers plan to use the yeast for bread, but when a customer asks for a half dozen or more at a time, there naturally arises suspicion that something more tasty than bread is to be made. "Home brew" might be mentioned, for instance, but, of course, there's no way of telling what the yeast is used for after it leaves the store.

The Eastern Massachusetts Street Railway Co. has introduced the one-man car in this city in an endeavor to increase business, and there is no doubt in mind that if the cars were operated in a proper manner a great many people who do not patronize street cars would take to riding. By this statement I do not mean to criticize all operators of one-man cars, for some of them are doing their utmost to make the enterprise a success, but some others seem indifferent. Thursday afternoon I stood at the railroad crossing at Dutton and Merrimack streets, where all electric cars are supposed to stop. BIG DAY IN TEWKSBURY

Memorial Day Program Includes Welcome Home to World War Veterans

The most extensive and elaborate program in the history of the town of Tewksbury has been planned for Monday, May 31, Memorial day. Not only will events include special tributes to the G.A.R. veterans, but also the official town welcome home reception to the World War veterans. The program beginning at 8.30 in the morning and ending late in the evening has been made possible, to a large extent, by the facilities afforded by the new town hall which gives ample room for the memorial services, the dinner, a banquet and a military ball at different times during the day and evening.

The first event of the morning will be memorial services for the G.A.R. men in the Center cemetery, under the direction of Post 185 of Lowell, Commander Franklin S. Pevey. This will include the usual tributes and the planting of new flags on the veterans' graves. More extensive memorial services will then be held in the new town hall when Rev. N. W. Matthews of Lowell will be the orator of the occasion.

For the veterans of the G.A.R. and their guests, the annual dinner will then be served in the town hall under the direction of the Ladies' Aid society of the Center church. In the evening, from 8.30 to 9.30, there will be a band concert on the common by the Reading Brass band. The foregoing part of the program has been arranged and will be in charge of the Memorial day committee of the town.

In regard to the official welcome home reception to the world war veterans which will take place in the afternoon and evening, it may be said that the special committee in charge has been working tirelessly for the success of the affair. The exercises in the town hall in the afternoon for the reception are open to the public and will consist of speeches welcoming home the boys, the presentation of the town emblems to the world war soldiers, the presentation of a memorial to the town by those soldiers, the unveiling of the memorial tablet in the town hall on which is embossed the names of 61 men and one woman who served during the great war, and community singing under the direction of Albert Edmund Brown of Lowell. The address in the presentation of the town's emblem to the soldiers will be made by Lieut. Col. Frank S. Perkins, formerly of the 101st Light Artillery, U.S.A.

The memorial from the world war veterans will be presented by George E. Pierce, assistant superintendent of the state infirmary, who served in the medical corps during the war.

Following the afternoon exercises for the welcome home to the veterans, there will be a banquet in the town hall at which the world war

One presentation of the second act of Edward Peple's gripping story, "The Littlest Rebel," with Miss Mary Casey, John Groark, Raymond Crowley and Donald Adams in the character roles.

Undoubtedly the major portion of credit for the excellent production is due Miss Mary C. Joyce, dramatic coach but the four pupils raised their acting far above the usual amateur standard and read into the patriotic lines every possible bit of meaning and interpretation the author intended.

"Virgie," the littlest Rebel, daughter of Capt. Casey of the south, was played by Miss Casey in her usual graceful manner. She received splendid support from John Groark as "Capt. Casey," Raymond Crowley as "Lieut. Col. Morrison of the North," and Donald Adams as "Corporal Dudley."

The school assembled at the usual hour and went to the theatre, each room in charge of a teacher. The exercises were preceded by an entrance march played by the school orchestra, directed by Frederick O. Blunt. Piano solos by Francis German were followed by Civil war songs, sung by the girls' glee club, also under Mr. Blunt's baton. Miss Anna Mulligan gave the prologue to "The Littlest Rebel" in excellent voice and with fine ability. The troops in the cast were Everett Bixby, Erwin Braverman, Cecil Gardner and William Plante.

As the curtain went down at the close of the play a huge American flag fell and the audience rose as the orchestra played "The Star Spangled Banner."

Capt. MacBrayne struck a serious note in his address, fearfully referring to the millions of young men who were sacrificed in the last great war.

A declamation in French of "Gloire aux Morts," adapted from Victor Hugo, was spiritedly given by George Perreault, and the exercises closed with "Taps" played by Regimental Buglers Fred C. Laite and Wallace McQuesten.

old pump that has been at the station for some time but not used recently, into operation to maintain the city's water supply. However, the old pump has not the capacity of the Allis-Chalmers machine and today the water in the reservoir was going down rapidly.

Commissioner John F. Salmon immediately made plans for a campaign of water conservation in the city until the pump is repaired, which may be a matter of a few weeks or perhaps months. He will ask Commissioner Dennis A. Murphy of the street department to forego using further water for streets until the pump is repaired and through the press urge the general public to be as saving in the use of water as possible until the present emergency is passed. It is doubtful if the average daily consumption of 7,000,000 gallons a day, which has been the amount used during the past few months, can be maintained with the substitute pump and only by the cooperation of the public in using no more water than necessary can enough be pumped to meet all needs.

The Cook wells on the boulevard, which have been closed for the past month or more, were opened again this morning and will be kept going at full blast until conditions become normal again.

It will be remembered that the municipal council last fall voted to purchase a new snow cross-bar pump for the West Sixth street station to replace the machine which broke down last night and the contract was signed long before the close of the year with the understanding that the new pump should be delivered not later than Feb. 1. The stipulations provided rich penalties for the city if the foundation for the new pump were not ready at that time and when Commissioner Salmon assumed office he had work on the foundation pushed forward at a rapid pace.

However, Feb. 1 came and went and today, almost four months after the date when the pump should be delivered, it has not reached the city. Information has been received that it has been shipped and tracers have been sent out to try to locate it. If it is found within a few weeks it will be set in place and the old Allis-Chalmers will be kept for emergencies such as that which happened last evening.

According to an Italian scientist more suicides occur between the ages of 15 and 26 than at any other period of life.

HIDDEN FOR TEN YEARS

Musty American Diplomatic Secret Has Just Been Disclosed

PHILADELPHIA, May 28.—A musty American diplomatic secret has been disclosed here through announcement that Canada soon will send its own minister to Washington. It is that for the last ten years a specially made chair, carved with the Canadian coat of arms, has been waiting in Washington for use of its envoy.

Elihu Root, then secretary of state, ordered the chair, one of many specially designed for the Pan-American Union building at the capitol, Andrew Carnegie's memorial to cement more firmly the relation of the Americas. The story is told by Albert Kelsey, of this city, one of the architects of the Pan-American building, who said:

"Once a month the ambassadors and ministers of all the American republics meet and are presided over by our secretary of state in the Pan-American building and each representative has a chair of his own, with the arms of his country carved on the back.

"Now when these chairs were decid-

ed on, Secretary Root asked me to have an additional one made with the Canadian arms on it, which was done, and which has been hidden for the past ten years, for Secretary Root cautioned me to use his exact words—to be a 'little reticent about the matter.'"

In one ward at the Philadelphia primaries there was a riot in which the ballot box disappeared and the voting booth was set on fire.

MILLION UNDERFED CHILDREN IN GERMANY

BERLIN, May 28.—The American Friends service committee now is feeding 100,000 of the undernourished children of Germany, of whom there are, according to estimates based on physicians' reports, at least 1,000,000. Only one-fourth of them are being cared for, as the committee can feed only those seriously or dangerously underfed.

In a kindergarten at Schoenberg, a huge district where the Berlin poor cluster like bees, the correspondent saw several hundred pale-faced children ravenously attack the meal the committee daily provides. It was a ground-floor room with big windows flush with the street. Every window had a dais of swarming little ones. They stood on the sidewalk peering in, noses flattened against the panes, their big, round eyes eagerly watching the children in the room feasting.

Most of those on the outside were in the class of merely under-nourished, for whom no aid is available. Fraulein Margaret Barth, a well known educator, who, as the head of the local committee, supervises all the feeding arrangements in the Schoenberg district, sighed as she glanced at those wistful faces at the windows, and turned away.

"On the first day," she said, "we permitted the parents to come to see their children fed. They wept with gratitude. We didn't let them come again. They were hungry themselves and their pinched faces were more than we could bear in a place where food was being served."

Cocoa, milk, flour, sugar, rice, peas, beans and lard are the foodstuffs supplied by the American friends committee. Of the different menus afforded the most popular among the Berlin children is a kind of porridge made of flour, condensed milk, sugar and lard, eaten with a roll.

Sixty per cent flour is furnished, Fraulein Barth spoke of it with enthusiasm. "Such flour hasn't been seen in Berlin for years," she exclaimed. "Crowds come to look at it."

The committee began work in Germany the latter part of February. The Kapp revolution and the consequent disorders in Saxony and the Ruhr interfered with operations. However, in Berlin, 60,000 of the estimated 80,000 to 100,000 needy children are now being fed, and the work in the provinces is being extended as fast as conditions permit. It is hoped soon to reach all the most urgent cases throughout the country. Germany has been divided into 11 districts, with Berlin as headquarters and the principal sub-stations at Hamburg, Leipzig, Dresden and Chemnitz. The organization is said to have sufficient funds to continue its mission in Germany until the harvest begins to come.

POPULATION RANK OF WOMAN BANKER TALKS

WASHINGTON, May 28.—The population rank of the cities will show a large number of changes when the statistics of the 1920 census have been completed.

Several cities have moved up into the 100,000-class in which there were 59 municipalities in 1910. Some of the cities of that class, whose 1920 populations have been announced, have outgrown others in the same class while some having less than 100,000 ten years ago have taken rank well up among the country's 50 largest cities.

Akron, O., has shown the most growth among the larger cities. It has passed eight cities having 100,000 or more in 1910, whose 1920 populations have been announced.

The rank of the various cities cannot be determined until statistics for all have been announced. New York, Chicago and Philadelphia, first, second and third cities of the country, will continue to rank in that order but the rank of other cities is uncertain. From statistics announced some of the changes shown in rank are:

Washington, D. C., passed Newark, N. J., Cincinnati and New Orleans. Newark, N. J., passed Cincinnati. Toledo, O., passed Louisville and St. Paul.

Dayton, O., passed Paterson, N. J. Bridgeport, Conn., passed Paterson, Nashville and Spokane.

Hartford, Conn., passed Paterson, Nashville, Albany, N. Y., and Spokane.

Youngstown, O., passed Nashville, Albany and Spokane and a number of cities of 50,000 or more in 1910.

Springfield, Mass., passed Nashville, Albany and Spokane and a number of cities of 50,000 or more in 1910.

Camden, N. J., passed Albany and Spokane.

Nashville, Tenn., and Albany, N. Y., passed Spokane, Wash.

Cities of 100,000 or more population in 1920 which have been announced with their 1910 rank and 1920 population include:

When a 11-inch steamship burst at a Phoenixville, Penn., iron works, some employees in a dash for safety ran over red-hot bars of steel, but none were seriously hurt.

In about Aug. 1, German crop prospects are poor, however, and the harvest is expected to give only temporary relief.

Every child receiving food has been reported by a registered physician as underfed. Political or religious considerations play no part in the children's selection. The food received from the committee is in addition, it has been stipulated, to the regular rations allowed by the German authorities.

A few weeks of regular feeding makes a remarkable difference in the appearance of the children. Little ones that look to be nine years old are actually 13 or 14, "grow up amazingly," as one of the kitchen attendants put it.

In addition to children up to 14, nursing and expectant mothers also share in the committee's bounty.

here attending the Tennessee State Bankers' convention declared she would lend to men in preference to some women, but first-class security was an essential.

"She is Mrs. F. J. Runyan, wife of a physician, whose financial institution is located at Clarksville, in north central Tennessee. She and the cashier, the wife of the state's attorney for the county, are the only officers. All the directors are women.

"Men come to me, tell me their business and borrow money," she said. "Our bank is only seven months old. Its purpose is to aid young people who want to save and that was the prime motive for its foundation. The idea was carried out solely by women; but a man suggested it."

The bank has a capital of \$15,000 and its first six months' deposits aggregated \$53,000.

When called upon to address the convention, Mrs. Runyan declined with thanks, saying she never had talked to so many men.

What Supports the Heart?

By N. COOK, M. D.

The heart is the hardest worked organ of the human body. It beats on an average of seventy times a minute—from the minute of birth to the minute of death. Every half minute or every thirty-second beat, the whole of the blood in the body is pumped through the heart, so that the dual heart moves about six tons of blood in each twenty-four hours. On the purity of that blood health depends. On the strength of the heart depends the strength of the body.

The question then is, how can we keep the blood pure and the heart strong? What is blood? Blood is only digested food. No man is stronger than his stomach, because physical strength is derived from food digested and assimilated. Deaths ascribed to weak heart and "heart failure," should be called weak stomach and "stomach failure."

It is this dependence of the heart upon the stomach which explains the relief from "heart trouble" effected by the use of Dr. Pierce's Golden Medical Discovery. This remedy is for diseases of the stomach and other organs of digestion and nutrition. It purifies the blood, eliminating from it the substances which corrupt and poison it. Even this alone would take the strain from the overtaxed heart. But Dr. Pierce's Golden Medical Discovery also acts directly upon the heart itself. It strengthens the heart's action.

This is the time of year when we need a reliable tonic. Toxins (poisons) pile up within the body after a "hard winter," and we feel tired out, blue and discouraged. If you want vim, vigor, vitality, try this Spring Tonic of Doctor Pierce's.

REPUBLICANS TO EVADE "DRY" ISSUE

CHICAGO, May 28.—Beer, light wines and prohibition will not be mentioned in the republican national convention, if present plans of party leaders are carried out, it was learned yesterday.

Directors of the party's policies have decided that the question has been settled, according to Samuel A. Perkins, national committeeman from Washington. The prohibition question and its possible effect on the forthcoming presidential campaign has been under consideration by party leaders for several months, it is known. One member of the national committee, who was here, said yesterday that the committee believed the "wets" to be in the minority, and that the country at a whole wanted prohibition.

Special correspondents of many metropolitan newspapers were thrown into consternation yesterday when it was announced by the Western Union Telegraph company that it would have no wires running into the convention hall. Supt. Hall notified the company that the building trades council had threatened to cut out all workmen employed at the Coliseum if non-union telegraph companies attempted to place wires in the building. The Postal Telegraph company said it had not heard of the trouble and expected to install an office.

There will be plenty of rooms in Chicago at reasonable prices to care for the 40,000 convention visitors, according to the information bureau of the Association of Commerce. First class hotels in the loop have 12,000 rooms available and outlying hotels 21,000, at an average price of \$5 per day.

LADIES' AUXILIARY

The 101st Ladies' Auxiliary met last night and voted to participate in the memorial mass at the Sacred Heart church on Monday morning. Members of the organization are asked to meet in the school hall at 8.30 a. m. and go to the church in a body.

AMUSEMENT NOTES

By Theatres' Own Press Agents

R. F. KEITH'S THEATRE

McWatters and Tyson, one of the best of "big time" dancing and comedy acts, opened up as headliner for the remainder of the present week, at the R. F. Keith theatre yesterday. The work of the pair is of the very highest order, and the act pleased wonderfully well. Kharum, the Persian pianist, is another hit of this week's bill. His playing is specially finished, and he does not lack a jazz number in his program. Lloyd & Wells, personators of the colored negro, are lively while Anderson & Graves, in a repertory comedy, present a specially attractive sketch. Other acts on the week's bill are: The Four Ortons, whistlers; Adams & Griffiths, in a singing lesson; and Madden, the jazz juggler.

THE STRAND

Tom Moore and his happy, smiling countenance adds fertile material in

"Dude." The feature number on the big program at the Strand the latter part of this week. It's a new kind of story for Moore and he makes many new admirers in it. William Russell, in "Leave It to Me," is the other good thing that will give balance and pleasure to the patrons. Besides these two features there is an excellent comedy and a new Weekly. Watch for our big, double-feature program. Regular matinee this afternoon. Tonight is the Boston college concert.

OPERA HOUSE

The enthusiastic reception accorded the popular Lowell Players in their farewell presentation, "Per, or My Heart," a delightful comedy drama of the present day, reflects very forcibly the warm spot the members hold in

the hearts of the playgoers of Lowell and vicinity. Never were audiences more liberal in their recognition of things well done than they have been this week. Miss Fiebis and the rest of the cast should feel particularly flattered at the genuine warmth of the reception accorded them. Tomorrow afternoon the Players will hold a public reception on the stage immediately after the performance and the patrons generally are cordially invited to attend. Come and meet the Players. They will be anxious to greet all. And don't forget Saturday night is goodbye night.

MERRIMACK SQUARE THEATRE

Do you believe there is a significance in the things you dream or are you convinced that dreams are the results

of indignation or an uneasy conscience and mean nothing? There is food for thought on this score as well as rare entertainment of an unusual character. In "The Dark Mirror," in which pretty Dorothy Dalton is featured at the Merrimack Square theatre on the current program. Robert Warwick, the noted dramatic star, in "Thou Art the Man," is the other feature and the International News, a comedy and a Burton Holmes travel picture round out the program.

OWL THEATRE

Some people have already seen "The River's End" twice this week, so good is this picture of the great northwest. It is a picture that appeals to men and women alike, because of its elemental strength, the beauty of the story it tells

and the way in which it is told. The tradition of the Royal Northwest Mounted Police is strikingly told in this film. That tradition is "Get your man if you have to go to the end of the world." Derwent Connison got to the end of the world one night, for after three years, he got his man under the arctic circle. Murderer and captor, trekking back over the snowy wastes, get to know each other. You will want to see what happens then. Added attractions for the remainder of the week include a real novelty, Comediant, an episode of the "Lost City," starring Juanita Hansen, a Harold Lloyd comedy, "His Royal Snyness," and a new reel. Come in the afternoon and see this show if you possibly can, for the nights are pretty busy, so the records say.

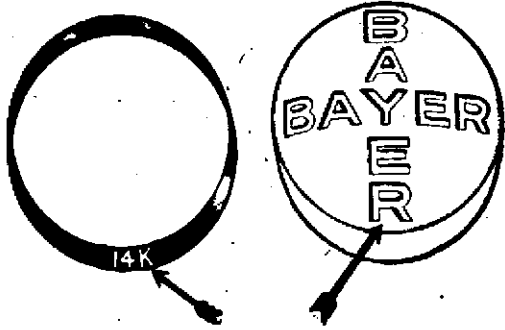

OH! BUT IT WAS HOT!

PANAMA—When it comes to jungle picnics—well, just lead General Pershing to 'em. Americans held one for him while he was on an inspection tour of Panama. Pershing took off his collar—"Oh, but it was hot!"—sat down among the jungle trees and pretty maids, smiled a broad smile, and sailed into the picnic grub.

TO LAY KEEL OF WORLD'S BIGGEST WARSHIP

QUINCY, May 28.—The keel of the world's biggest warship will be laid down here within six months. The battle-cruiser Lexington, combining in a degree unequalled by any ship of war now built or building the qualities of powerful armament and high speed, has taken form in drawings and awaits the arrival of materials to be advanced from the hands of the architect to those of the builder. By fall, it is estimated, the prospective queen of the United States navy will become a ship under construction instead of an ambitious plan.

The Lexington is the name-ship of a class of battle cruisers which will give Uncle Sam within four years a fleet

of six big gun fighting ships unmatched by anything then afloat. Her sister-ships, the Constitution, Saratoga, Ranger, Constitution and United States, are also under contract. They bring hither out of the old navy which to develop for the first new capital vessels of the post-war fleet a traditional background for fresh exploits. With the others of its class, the Lexington will be a whale of a ship. It will displace 43,200 tons and will have the power of 150,000 horses, as measured in mechanical terms. Its length of 574 feet is within 46 feet of the length of the Leviathan, monster passenger liner. The 101.4 feet of width of the Lexington will make that floating gun platform broader than any passenger ship.

The Lexington, which is to be equipped with electric drive, will attain a speed of 33 knots. This cruiser speed, higher than that of many destroyers, is the object of much of the designing that entered into the

Lexington has equipped the ship with four anti-aircraft guns, eight torpedo tubes, four of which are submerged and four on deck and with means of defense against aerial bombs and aerial torpedoes. Defense against submarine torpedoes will be obtained through force and air torpedo defense bulkheads, by which the stability of the vessel will be preserved no matter where she is pierced. Under any conditions but an explosion, it is claimed, the Lexington class of warship should prove unsinkable.

An indication of the Lexington's greatness is afforded by comparison with British warship Hood, which when it is floated will be the biggest ship in the British navy and afloat.

RED PILLS are especially suited to women and young girls who are pale and thin, tired and nervous

Pale, Weak and Nervous

I was very nervous, pale, and so weak that I could not even digest my food right. The physician who was attending me had definitely told me that he did not expect to be able to cure me, but simply to give me relief. My case was called: "Nervous indigestion." Just one of my relatives still had confidence, for she was a fervent believer in RED PILLS for Pale and Weak Women, and finally persuaded me to give them a trial. I took them regularly and was pleased to notice a decided improvement after a few months of treatment. At the end of a year, my different ailments had gradually disappeared and I began to take on flesh. As my household duties are rather trying at times, I have resolved that I will take a couple of boxes of RED PILLS for Pale and Weak Women from time to time, just to keep my strength up.

RED PILLS, Her Friend for Fifteen Years

It is now fifteen years since I first became acquainted with RED PILLS, and I may safely say that they have been my salvation during that time. I was the mother of fifteen children, so that my daily duties were indeed very strenuous and at times trying. I was tired and feeling ill at ease. RED PILLS proved themselves once again, they helped me to regain my strength, saved me from any serious sickness and made me fit to attend properly to my various household duties.

RED PILLS, the Best Tonic

Being the mother of seven children, and having to attend to all the household duties, besides looking after my children, I naturally gave way and became weakened, and suffered severely from indigestion. Having so often read of the various cures effected by the use of RED PILLS, I decided to give them a trial, and after taking them for three months, I was delighted to notice that I was getting stronger and that my health was improving in many ways. Since that time I have firmly made up my mind that I will always take RED PILLS whenever I feel the need of a good tonic to build me up.

Eczema Caused Years of Intense Agony

"I have suffered intense agony from eczema on my leg and other parts of my body for years, and received only temporary relief from other preparations. It is only a month since I started to use PETERSON'S OINTMENT, and there is no sign of eczema or itching. You can refer to me," Geo. C. Talbot, 21 Pennfield Street, Buffalo, N.Y.

"I've got a hundred testimonials," says Peterson of Buffalo, "just as sincere and honest as this one. Years ago, when I first started to put out PETERSON'S OINTMENT, I made up my mind to give a big box for 35 cents, and I am still doing it as every druggist in the country knows."

"I guarantee PETERSON'S OINTMENT because I know that its mighty healing power is marvelous. I say to every one who buys a box that it is rigidly guaranteed for eczema, salt rheum, old sores, blind, bleeding and itching piles, ulcers, skin diseases, crusting, burns, scalds and sunburn, and if not satisfactory any druggist will return your money." SHE'S FIRST-WOMAN CABINET MEMBER

BERLIN, May 28.—Dr. Gertrude Baumer is the first woman to be appointed to the German cabinet and is said to be the first woman cabinet executive in the world. President Ebert recently made her minister of home affairs. One of her duties will be to look after the public school children of the nation. She has been a member of the national assembly for some time.

Fourteen-year-old Jesse Winfield Chase, a boy in the eighth grade of the Haverhill schools, not only beat all the others in the food conservation class by putting up 133 cans and jars of fruits and vegetables last season, but by doing odd jobs night and day he earned all the money needed to buy the jars, the sugar, the fuel, and the food he canned.

CATARHAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or are even just a little hard of hearing or have head noises, go to your druggist and get 1 ounce of Farmit (double strength), and add to it 1 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day. This will often bring quick relief from the distressing head noises. Clogged nostrils should open, breathing become easy and the mucus stop dropping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone losing hearing or who has Catarrhal Deafness or head noises should give this prescription a trial.—Adv.

READY FOR BOUTS IN LAWRENCE TOMORROW

LAWRENCE, May 28.—The biggest crowd in the history of fight circles in the east is expected to flock to Cuddy Brothers arena tomorrow afternoon when the Atlas A.A. will stage an all-star show, including three 12-round bouts and one six-rounder. Owing to the fact that Henry Valzer is in a hospital in St. Louis, where he will be operated upon for appendicitis, and Joe Wellington injured his hand in his bout with Rocky Kansas at Buffalo Monday night, Johnny Cuddy has been obliged to make changes, yet he has arranged the program so that it will be even stronger.

Johnny Dundee will meet Jack Lawlor of Omaha, Nebraska. The latter has been coming in wonderful shape, and in a previous meeting with Dundee was favored with a new sounder punch. Lawlor has also beaten Benny Valzer and Willie Jackson. In his bout with the latter he floored Jackson twice.

Harry "Kid" Brown, the sensational Philadelphia featherweight, will meet Freddy Jakes, the hand-weight champion of England. Brown is an exceptionally clever boy and last Monday night in Philadelphia fought Johnny Kilbane and saved the featherweight champion the toughest battle in his career. Jakes, too, is very clever and this bout should be a hummer.

McCoonan of Brooklyn will meet Pat Moran of New Orleans, the latter taking the place of William Moran, another star in the lightweight class and has been beating all the boys in his class. He has been after Benny Leonard for some time and the champion has always eluded him. Moran defeated Frankie Britt in New Bedford over a week ago, sending Britt to the floor several times, and in the 11th round sent the New Bedford boy through the ropes.

"TOM ED" STILL THERE

Shows Rising Generation How to Play National Game

Who said Tom Ed Smith was slipping? If anybody thinks that way, just let him consult any member of the Broadway or Liberty square clubs. These two organizations lined up in battle array on the North common yesterday afternoon and they do say that it was one wonderful game of baseball.

The broadways were captained by Tom McCarthy. The Liberty square team won by a score of 7 to 6, but it wasn't Tom Ed's fault. He played every position in the field and played it to the fan's taste. He stole bases enough to keep him in jail for the next ten years—if base stealing was a prison offense.

The Liberty square team and its rooters quite freely admitted last evening that as a speed artist, Tom Ed is in a class by himself. "Tom Ed is like old wine," said one, "he seems to improve with age."

Well, anyway, it was a great game, and both clubs are looking forward to many more during the summer months. Pat Doherty was pitcher and John Normandy catcher for the Liberty square club. In relative positions for the Broadway organization were John Madden and Fred Lambert.

Improved fishing conditions have made the port of Grimsby one of the richest towns of its size in England.

Summer Veasey, Tumbling Champion, in Hospital

CHICAGO, May 28.—Summer Veasey, captain of the University of Chicago gymnastic team in 1917-1919, and national intercollegiate tumbling champion, is in a hospital, his lower limbs paralyzed as the result of a fall from his motorcycle. It is said his back is broken and he may not live.

CARMEN WIN FIRST MERCANTILE GAME

In a Mercantile league game on the South common yesterday afternoon the Eastern Massachusetts Street Railway men defeated Bon Marche by the score of 8 to 4. For the first four innings, the department store lads had a winning edge, but this disappeared in the fifth when the champions of the bell cord and air brake broke loose with three runs. Two more scored in the sixth and another in the ninth made the winner's total eight. The Bon Marche threatened in the eighth, but were able to push over only one run.

The score:
Street Railway.....0 1 0 1 2 2 0 1—5
Bon Marche.....0 1 0 0 0 0 1 0—4
Batteries: Smith and Booth; Rhodes and Pare.

LOWELL BOYS IN NATICK BOUTS

Jimmie Mahan and Frankie Walsh, both of Lowell, appeared in an all-star boxing show at Natick last night. Mahan boxed Young McElroy, the fighting iceman, and while the Lowell boy had the lead, his right hand went bad in the sixth round, and his manager, E. Ireland, tossed the fight into the ring. Mahan could have continued, but as he has a bout on for tonight, his manager decided to take no chances.

Frankie Walsh met Mack Murphy of Atlanta and the pair engaged in a whirlwind eight round draw. Walsh made a big hit with the fans, as his opponent outweighed him, yet he assumed the aggressive practically all the way.

PARIS, May 28.—Senegalese regiments which participated in the occupation of Frankfurt and other cities east of the Rhine and which were recently withdrawn from German soil will be sent to the near east as reinforcements to French forces there, says the Journal. They will leave, it is said, about June 10.

SIXTH WEEK OF BOWLING TOURNEY

High scores continue to be put up in the big handicap bowling tournament at the Crescent alleys. The tourney is now in its sixth week, and while many records that may stand for some time have already been set up, local marksmen continue to topple the pins over with remarkable accuracy and many feel that new records will be reached before the grand finale. The system of handicapping, worked out under the expert direction of Walter Jewett, equalizing the bowling gives every man who enters a chance to get into the prize money.

The leaders in this week's rolling, including last night's scores, follow:
Individual: Hayden 530, Sullivan 339, O'Brien 332, Dr. Henson 329.

Two men: Lindsey and Hewson 679, Harral and McNulty 640, McDermott and McQuade 644, O'Brien and Estes 640.

Three men: Buckley, Flynn and Brigham 978, McQuade, Gendron and McDermott 963, Lebrun, Johnson and Jewett 959, Schonborn, Sweeney and Flanders 946.

Five men: Myrick, Concanon, Johnson, Lebrun and Donahue 1527, O'Brien, Thompson, Johnson, Flanders and Estes tied with Myrick, Concanon, Johnson, Lebrun and Jewett at 1579; Lindsey, Whitelock, Esomins, Fineman and Hewson 1537.

Prizes for the week's bowling will be awarded at the close of competition tomorrow night.

LAWYERS ATTACK JUSTICE DEPARTMENT

WASHINGTON, May 28.—Charges that the department of justice has committed "continual illegal acts" in connection with its recent campaign against radical activities, are contained in a report by a special committee of lawyers made public here last night by Jackson King, executive secretary of the National Popular Government League. Mr. King said the committee had prepared its report under the auspices of the league and that its conclusions and exhibits, contained in a pamphlet, were being distributed by the league throughout the country.

Men who composed the committee were: R. G. Brown, Memphis, Tenn.; Zachariah Chafee, Jr., Roscoe Pound and Felix Frankfurter of Harvard University; Ernest Freund, Chicago; Swinburne Hale, New York; Francis F. Kane, Philadelphia; Alfred Sikes, Baltimore; Jackson H. Balston, Washington, D. C.; David Wallerstein, Philadelphia; Frank P. Walsh, New York; and Tyrrell Williams, St. Louis.

They grouped their charges against the department under six heads, as follows:

Cruel and unusual punishments; arrests without warrant; unreasonable searches and seizures; provocative agents; compelling persons to be witnesses against themselves; propaganda by the department of justice.

Appended to the report are more than a score of "exhibits" some of them photographic reproductions of documents connected with various cases under discussion, many affidavits of individuals who were arrested in raids and also copies of what are stated to be confidential instructions sent by department officials to its agents. As to all of this matter, the report says that "it is to the best of our knowledge and belief (based upon careful investigation) truthful both in substance and detail" and that it was drawn mainly from the four centers of New York

NOT A CHANCE OF OVERRIDING VETO

WASHINGTON, May 28.—Republicans generally conceded today that there was not a chance of overriding the veto on the question of repassing the peace resolution which the president yesterday sent back to congress unsigned with the statement that he could not agree to such a program because he considered it would place "an ineffaceable stain" on the nation's honor.

Leaders predicted that the house vote would fall short only a few votes of the required two-thirds majority, but said an attempt in the senate to override the veto would be hopeless. A record vote, however, had been planned in order that the matter might be disposed of promptly and in order that the records might show that Mr. Wilson and not congress was to blame because the nation continued technically in a state of war with the central powers.

Both senate and house leaders for the most part refrained from discussing the situation further than to reiterate that the issues of the treaty might be fought out in the coming political campaigns unless the president soon again submits the treaty to the senate, contemplation of which he did not indicate in his veto message yesterday.

PLAN FOR THRACE BATTLE

Turks and Bulgars Would Reduce City to Ashes Before Leaving it to Greeks

CONSTANTINOPLE, May 28. (By Associated Press)—Moslem leaders in the vilayet of Adrianople, in European Turkey, are sending their families to this city in anticipation of fighting when the Greeks attempt to occupy Thrace. Christians, however, are not permitted to leave their homes in that region. Just before the conclusion of the recent Turkish congress in Adrianople, the presiding officer declared that an agreement to defend Thrace had been reached between the Turks and Bulgarians.

A mass meeting was held at Rodosto 10 miles northeast of Gallipoli, on May 22, the keynote of the addresses made being, it is said: "We shall reduce Thrace to ashes before leaving it to the Greeks."

Many of the speakers and prominent men in attendance took oath upon the Koran to defend Thrace.

Mr. Weston are considered the best exhibition dancers of the east. In fact they are styled the Castles of the east. The management feels certain that the dancing public of Lowell will appreciate what they are doing by bringing so clever a couple to the Kasino. It was the desire to engage them for the entire week, but owing to their being engaged elsewhere, the management was fortunate to secure them for the holiday afternoon and evening. Miss Marlon and Mr. Weston will please the Lowell people as they have thousands of others in New York. Make your plans to visit the Kasino and see the highest priced exhibition dancers ever seen in Lowell. In addition to the dancers, Eddie Schell's Boston Jazz band will play some new music for the first time in Lowell. Admission will be 30c, tax paid, and free dancing included.

Extend Quarantine Against Corn-Borer

WASHINGTON, May 28.—Quarantine against the European corn-borer covering an infested area in western New York, has been extended to include the Dunkirk section, said an announcement today by the department of agriculture. Damage thus far in the New York area, officials said, had been very slight. Small parts of New Hampshire, Massachusetts and Pennsylvania also are under quarantine and in these areas, particularly in Massachusetts, it was said, the insects are proving more destructive.

Díaz Friendly With New Regime

VERA CRUZ, May 28.—(By Associated Press)—Felix Díaz, who was reported yesterday to have assumed an attitude hostile toward the new regime in Mexico has, in fact, notified the authorities that he is friendly to the government. He is at Mianilla, and is awaiting an opportunity to leave the country in accordance with the desire he expressed some time ago. He is awaiting the decision of the new government relative to his quitting Mexican soil. Authorities here have received this definite information from Díaz and have forwarded it to the capital.

NAVAL COURT RECORDS SUBJECT OF TESTIMONY

WESTERLY, R. I., May 25.—The records of a naval court of inquiry which investigated vice conditions at Newport a year ago last March, were the subject of testimony at today's session of the naval court which for the past four months has been considering charges that vice investigators at Newport were guilty of practices which they were assigned to wipe out.

John R. Rathom, editor of the Providence Journal, a principal witness in support of the charges, having finished his testimony yesterday when he was recalled at the request of Assistant Secretary of the Navy Roosevelt, it was expected that the session of the court would close finally today. Mr. Roosevelt was not expected to take the stand again, although he had come from Washington to be present during Mr. Rathom's testimony. The inquiry has taken more than 50 court days.

Ensign Henry J. Hyneman, the judge

advocate, called as witnesses regarding the proceedings of the former court of inquiry Captain John J. Hyland and Lieut. Lester W. Cooch from the Boston navy yard. Captain Hyland was formerly acting commandant of the first naval district, and Lieut. Cooch was his legal aide. Lieut. E. M. Hudson, one of the members of the court of a year ago, and later chief of the anti-vice squad, attended the proceedings today.

Editor Rathom, yesterday declared his belief that a statement made in the form of a question by Judge Advocate Henry J. Hyneman was "part of a plot in which the secretary of the navy and the assistant secretary of the navy are involved to injure and degrade me."

UMPIRE QUESTION UNDER DISPUTE

A difference in opinion as to the man who would be selected to umpire the Pitts' South Ends-Knights of Columbus game at Spaulding park next Monday afternoon, almost wrecked the entire arrangements last night, when Managers Foye and Lyons met to discuss further plans. Finally the matter was ironed out, leaving two men to select from, each of whom would be acceptable to both teams. Arrangements have been made to run special electric lights on the afternoon of the game to care for the large crowd going to and from the park.

The rival managers have posted the following players to pick from: Pitts' South Ends: White, H., Lyons, R., Jenkins, A., Jenkins, M., McCarthy, Freeman, Devlin, McMahon, O'Day, Breen, Gallagher.

Knights of C.: W. Foye, R. Foye, Scully, McVey, Reynolds, Cawley, Lynch, Murphy, Souza, Cordingley, Dillon, Twohey.

Pres. Wilson Orders Wreath
to be Placed Upon Statue
"The American Doughboy"

PARIS, May 27.—President Wilson has ordered a Memorial day wreath of flowers to be laid upon the statue, "The American Doughboy," in Suresnes cemetery, and Ambassador Hugh C. Wallace will deposit it there on Sunday.

At Pichpou cemetery where lies the body of Lafayette, Col. Drake of the Memorial day committee will preside and will make a short address, to which Marquis Chambrun, grandson of Lafayette, will reply.

A message from Major General James G. Harbord, who commanded the Second Division in the battle of Belleau Wood, will be read on that field.

Memorial Ode to Americans
A memorial ode to American volunteers fallen for France, written by Alan Seeger, a member of the French foreign legion, who was killed in September, 1916, will be read in all American cemeteries where members of the American Legion participate. It was to have been read by the author before

the statue of Lafayette and Washington in this city on May 30, 1917, but Seeger met his death in the midst of the French offensive of the Somme, at Belloy-en-Santerre, soon after penning the lines.

Wreath on Seeger's Grave

George Courteline and Louis Marsoleau, widely known French poets, told the Associated Press this afternoon that a special wreath of flowers inscribed, "From the Poets of France" would be placed upon Seeger's grave on Memorial day.

Lieut. Col. Frank Parker, who is scheduled to make a speech on Memorial day, was today asked for an outline of his speech.

"Speech?" he replied. "I am not going to make a speech on Memorial day. I am going to talk to those boys of mine who are lying up there just as I talked to them when they were living."

Major O'Ryan to Speak

Major General John F. O'Ryan, who is now in London, will speak at Bony, where many of the brave soldiers of the 27th Division fell.

Rear Admiral Harry Melv. P. Huss will be the principal speaker at Belleau Wood.

A touching tribute is planned by the Union of Sporting Federations of

France, of which Gaston Viday is president. It has decided to place a special wreath upon the grave of John Overton, Yale athlete and champion mile runner, who was killed during the early days of the great allied offensive. Guillemot, the French champion mile runner, has been chosen to deposit the flowers upon Overton's grave.

In the absence of Andre Lefebvre, minister of war, Premier Millerand has sent instructions to all the 26 army corps of France, as follows:

French Army to Assist
"The French army" will participate in the ceremonies held in principal cemeteries where lie American soldiers, especially Belleau Wood, St. Mihiel and Chaumont."

Gaston Vidal, president of the Union of Sporting Federations, has issued a circular to all sporting federations in France, saying:

"May 30th is a day of mourning in America, but it is also a day upon which sporting events assume a prominent place. Let us mourn the American dead, but in the final elimination contests which will choose athletes for participation in the Antwerp Olympic, let us do our best. Hail off to the American dead. Let us dig our spikes in the track and beat the American living."

The Story of Marshall Field "Dollar" Dynasty Fairly Dripping With Dollars

BY EDWARD M. THIERRY,
N.E.A. Staff Correspondent.
CHICAGO, May 9.—Take a deep breath and hold tight. Or this story will make you dizzy.

It is fairly dripping with dollars. A couple of hundred millions are involved—the millions of the Marshall Field "Dollar Dynasty."

Just what will happen to this mountain of cash—the huge fortune left by Marshall Field—depends on the decision of Judge Charles M. Foell, who for days has been listening to anasthetizing arguments by the nation's leading lawyers in a "friendly" suit to break the famous Field will.

Odds Favor Field III

The odds favor Captain Marshall Field III, 24-year-old grandson of the merchant prince. He can't lose—except a few more millions, in case of an adverse decision. But he may have to wait till he's 50 before he gets "the bulk of an estate that, in 1913, will total about \$150,000,000."

Romance and an annoying thing called "public policy" have risen to jeopardize the colossal plans of Marshall Field, founder of a "dynasty of dollars," who sought to keep his immense fortune rolling on almost indefinitely and concentrated intact in the hands of his male descendants.

The merchant prince was dead in the field "dynasty" Marshall Field II died before his father, Marshall Field I, was 13 years old when his grandfather died in 1906. His son, an infant, is Marshall Field IV.

Only Half Billion

If the field will is not broken and Marshall Field III should die before he is 50, leaving such a will as his grandfather left, Marshall Field IV, at the age of 50 will inherit \$490,000,000, according to estimates—practically half a billion!

The romance that may knock away plans of the "dynasty" founder was the romance of Henry Field, brother of Marshall Field III, with Peggy Marsh, actress Henry and Peggy had a son, Henry Anthony Marsh, now 4 years old. Later Henry Field married Nancy Perkins, niece of Lady Astor, and three years ago he died.

A hand from the grave—the hand of the elder Field—reaches out to protect his fortune. His 31,000-word will, lawyers admit, is bombproof—except for the contention now raised, that the famous "Clause 29," trying it up in perpetuity, is against "public policy."

Ellihu Root, former secretary of state, leader among the legal lights arrayed in court here, held up Field as the greatest of accumulators who accumulated property for the sake of accumulation. He was compared unfavorably with Andrew Carnegie and Henry Frick, called philanthropists.

Lawyers for Nancy Perkins Field, widow of Henry and recently remarried to Arthur Tree, claim a dower for her of at least \$5,000,000.

Share Claimed for Boy

Lawyers for Henry Anthony Marsh, son of Henry Field and Peggy Marsh, claim full possession of Henry's two-fifths share in the entire estate. With accumulated income plus principal this, in 1923, will amount to about \$72,000,000.

Marshall Field III has carried out Henry's contract with Peggy to pay to her and her son \$10,000 a year during their joint lives; this to be increased to \$12,500 a year when the child is 5 and to \$15,000 when he is 10. Henry Field also left \$100,000 life insurance to Peggy's son.

Uncle Sam in the past two years got nearly \$14,500,000 from the estate in income taxes, \$6,925,751 in 1918 and \$7,494,466 in 1919—73 per cent. of the gross income.

LONDON, May 28.—The Bolsheviki are advancing in the Kiev region, and are engaged in fighting on the second fortified line of the Poles northeast of that city, it is announced in Thursday's official statement by the soviet government received by wireless from Moscow today. TEXTILE STRIKE ENDS

New Bedford Operatives Lost \$1,000,000 in Wages During Four Weeks' Strike

NEW BEDFORD, May 28.—Although the textile strike at the 18 cloth mills in the city was officially called off last night by the Textile Council, following the vote of the various unions, there was little change in the number of operatives reporting for work today. The majority of the striking employees voted to return to their machines on Tuesday next when the 15 per cent. increase in wages goes into effect. It is estimated that 13,000 operatives joined the ranks of the strikers, and the loss in wages alone during the four weeks of the strike is approximately \$1,000,000. It will require 26 weeks of regular employment for the employees to make up the amount lost during the past month, based on the 15 per cent. advance.

HAD "MOONSHINE" IN HIS AUTOMOBILE

Charged with unlawfully keeping liquor, Ferdinand J. Bergeron, a resident of this city, was brought in police court this morning and through his counsel he entered a plea of guilty. Bergeron was arrested in Cross street last evening by Officers Winn and Clark, who claim the man had ten gallons of "moonshine" in his automobile. Bergeron informed the court the liquor was given him by a stranger last evening and in order to give the police a chance for further investigation, the case was continued for a week. Louis Verid, who a few days ago was brought before the court on a charge of allowing his automobile to be operated with wrong number plates had his case placed on file this morning after it was found that it was through a misunderstanding that the misdemeanor was committed. It seems that Verid had filed an application with the high commissioners for number plates and he was under the impression that pending the arrival of the plates he could use old ones. Claude E. Ballow and Edna Pappas and Albert H. Francis and Marion Richards were charged with statutory offenses. The quartet pleaded guilty and sentences were imposed as follows:

Ballow, \$50 fine; Pappas, prison for women at Shaborn; Francis, \$15 fine and Richards, three months to the house of correction. The Pappas woman appealed. Harvey Benson, charged with drunkenness and larceny had his case continued until tomorrow, while the case of Frank Garneau, charged with assault and battery was put over for a week.

Sixty applicants for chauffeurs' licenses were examined today at city hall by Inspectors Hubbell, Hardy and Halley of the state highway commission. The water tower of the local fire department was given a thorough trial in Cabot street yesterday and Chief Saunders was much pleased with the result. Miss Lauretta Gauthier of Sarah avenue, who on May 31, will be married to Mr. Ernest Gagne, was tendered a miscellaneous shower at her home Wednesday evening. The affair was attended by about 50 young women and the hostess of the evening was presented numerous appropriate gifts, including a handsome set of dishes. Musical numbers were given and a buffet luncheon was served. The committee in charge of the event consisted of Misses Beulah Ladamme, Evelyn Roux, Bernadette Gagne and Germaine Lemire. Miss Catherine C. Dick of 14 Varum street, a popular Centralville young woman, was the guest of honor at a birthday party given last evening at the home of Miss Irene F. Donnelly, 152 Perry street. Thirty-five friends of the young lady assembled to extend their congratulations and a most enjoyable evening was spent. Victrola and piano selections, solos, dancing and games were included in the program and a buffet luncheon was served. Miss Dick was the recipient of many beautiful and valuable gifts and it was well along in the early hours of the morning before her friends departed, wishing her many happy returns of the occasion. A very pleasant surprise party was

held at the home of Patrick Loobay, 34 Bowden street, Thursday evening when many friends of Miss Annie Loobay and Miss Mary M. Fallon gathered and presented the young women purses of money. Their immediate relatives presented them two beautifully engraved silver watches. Miss Loobay and Miss Fallon will enter the convent of the Sisters of St. Mary in the near future and will leave for St. Joseph's academy, Lockport, N. Y., early in August. Miss Loobay is a student at the Lowell Commercial college and expects to be graduated from the stenographic department within a short time. The success of the party was due to the efforts of Miss Cecelia A. Fallon and Miss Helen F. Mongen as well as to James Daly and James O'Garra who entertained with musical selections. Refreshments were served and at a late hour the guests departed, wishing the two young women success and happiness in the calling they are about to enter.

Gov. Beekman Orders Three
Troops of Militia to Guard
India Rubber Plant

BRISTOL, R. I., May 26.—Three troops of militia were ordered out by Governor Beekman today after a riot in which strike sympathizers attacked young women clerks and other working employees of the National India Rubber Co. The governor's proclamation declares the town in a state of insurrection. The plant has been closed except for the office force and repair men since the strike began three weeks ago.

Two men were shot by factory guards and a number of persons were injured by stones thrown from the ranks of the mob. Joseph Smith of Providence, who was passing through the town on his way to Newport, was one of the injured. His head was cut by a stone and he was taken to a hospital.

The disturbance began this morning with the arrival at the Franklin street station of a train on which many of the working employees were passengers. Windows of the train were broken with stones, some of which struck passengers, and men and women strike sympathizers to the number of 400 attempted to board the cars.

The conductor ordered the train to run to State street, two blocks farther on, and from there a police guard escorted the rubber workers to the factory, four blocks away.

The crowd which had chased the train rapidly increased until thousands of men and women surrounded police and their charges. Many

CAPITAL HAS BEEN BACKWARD

Time to Proclaim Rights and
Insist Upon Proper Con-
sideration, Says Gary

Declares Question of "Unjus-
tified Unrest and Revolt"
Depends on People

NEW YORK, May 25.—Employers in America—referred to as the capitalistic group—heretofore have been backward in proclaiming their rights and insisting upon proper consideration, Elbert H. Gary, chairman of the United States Steel corporation, declared here today in opening the annual meeting of the American Iron & Steel institute.

Speaking on "The Ship of State" Mr. Gary said the question of whether it will be wrecked—whether or not the disease of "unjustified unrest and revolt" will progress—depends upon the conduct and efforts of the ship's sailors, who are all the people. Employees, employers and the general public, which includes them, owe a duty to the nation which must be performed to insure stability of government and continuance of the enjoyment of American freedom, he asserted.

The next president of the United States, the captain of the ship of state, Mr. Gary, said, must be able, wise and well-informed, of unquestioned honesty, morally and intellectually, eminently fair and impartial, frank and sincere, broad-minded, deeply sympathetic, courageous, sturdy and well balanced, and above everything else, loyal to the constitution and the law of the land.

In the battle of Murrefreesboro in the American Civil war the losses on both sides were nearly identical, something more than 9000 each.

In passing sentence, Judge Martin T. Stanton of the circuit court of appeals who presided over the trial, declared that the only thing which saved Smith from the two-year prison sentence which the law made it possible for the judge to impose, was the fact that he was not financially interested in the business.

"Some Baby"

A navy "yeomanette," whose name was not given, figured prominently in the trial in the superior court this morning before Judge James Fox of the petition of Emily Blake D'Arby of Cambridge, for divorce with alimony of \$45 per month, from her husband, Francis Gay D'Arby, a non-commissioned naval officer.

Mrs. D'Arby testified that her husband insisted against her remonstrances in inviting the yeoman (F) to their apartments on Massachusetts avenue, Cambridge, and that the young woman accepted the invitation and prolonged her visit over night. This incident, the witness said, was the cause of a quarrel in which she was subjected to abusive treatment.

On Thanksgiving day, Mrs. D'Arby testified, she prepared dinner for her husband and that he refused to eat it, called her names and struck her. She said a friend, Mrs. Emily Ford, was present. She said she had a handsome case made to hold medals belonging to

Another chapter in the series of "hard luck" incidents which have befallen the fire and water departments since the beginning of the present year was enacted last evening when the huge Allen-Chalmers pump at the West Sixth street pumping station, perhaps the most vital piece of machinery in the water department's organization, broke down at 9:30 o'clock. The big main shaft of the pump broke and threw the entire machine out of commission. Employees of the department immediately began putting an

LOCAL POLICE MADE VERY GOOD CATCH

Shortly after the arrest of George R. Hermann, the counterfeit, which took place in this city a couple of days ago, Supt. Welch of the local police department sent a postal card to the chief of police of Springfield, informing him of the arrest of the man, who it is claimed is wanted in Springfield for having passed counterfeit money, and this morning the following letter was received:

I have your card of yesterday referring to George R. Hermann, a counterfeit, who was arrested in your city. I think this was a splendid piece of police work but, of course, I always knew that Lowell had a good police department and I think the chiefs of week would very much like to hear his methods, for the benefit of the whole country.

I congratulate you upon this most important arrest and I beg to remain Very sincerely yours,
WILLIAM J. GUILTY,
Chief of Police, Springfield, Mass.

HIS LICENSE SUSPENDED

As a result of complaints filed with the Highway commissioner by Patrolman James J. Kennedy of this city, through the superintendent of police, the operator's license of Manuel Joaquin of 22 Bradford street, has been suspended. It seems that on May 20, Joaquin, while operating his car, struck a man named Chandler and on May 22, he struck Joseph J. Kennedy, who was near the scene of the last accident, rode to the police station with Joaquin and he claims that en route, Joaquin narrowly escaped striking two other persons. A complaint was filed against Joaquin and this morning, the highway commissioner notified the superintendent that Joaquin's license had been suspended.

STATE AND MILITARY AID

The regular monthly disbursements for state and military aid will be payable at the state aid office at city hall next Tuesday, the first of the month. The amounts to be paid include \$692 for state aid, \$124 for military aid, and \$377 for soldiers' relief.

AUTOMOBILE STOLEN

A seven-passenger Hudson automobile bearing the Massachusetts registration 11251, and owned by Edward J. Fahey of 191 Chelmsford street, was stolen at Lakeview last evening, at about 10:30 o'clock. The local police have been requested to be on the lookout for the machine, the color of which is dark blue.

Observing a passage of Exodus which refers to the discovery of Moses in the bullrushes in an ark daubed with slime and with pitch, Standard Oil engineers went to Egypt on a little trip of exploration and made discoveries as the result of which there will soon be extensive oil operations there.

"Old Syder," one of the big elephants in the herd with the Sells-Floto circus and his partner, Goldie, a pet hen, who has found a roosting place on the head of the big pachyderm.

vertising car have been busy announcing to the circus "fans," the day and date of exhibition, which is Thursday, June 10.

The Sells-Floto circus is the second largest circus in the world, and wherever it appears it brings hundreds of performers and animals with scores and scores of the very best acts to be seen under the white tops this season; acts that thrill the great audiences which gather both afternoon and evening under the great tent. "The Birth of the Rainbow" is the big spectacular entrée that starts the program, and from that time until the end, novelty after novelty is presented. There is newness in the aerial, wire ground, ring riding, Indians, animal, clown and goodness knows what other kind of acts, all of them circusy. "And there's always a plenty to see," says the press agent.

The parade takes place in the morning, leaving the grounds at 11 o'clock. The doors to the big show open at 1 and 7, performances starting an hour later. The concert by the celebrated Sells-Floto circus band of 50 pieces, begins half an hour after the main entrance opens.

BANK CASHIER ENDS LIFE BEFORE POLICE

BURLINGTON, Vt., May 28.—Charles H. Strong, 63 years old, cashier of the Vergennes national bank for 20 years and an employee of the institution for 40, shot himself dead yesterday morning immediately following the appearance of Bank Examiner F. A. Cooper and his assistant, L. Walsh of Montpelier. Last night bank officials ad-

mitted there was a shortage in the dead cashier's books as revealed by a partial examination.

The incident attendant upon the suicide was dramatic. At 9:15 yesterday morning the bank examiner and assistant made their appearance just as Mr. Strong had cashed a check for a woman customer. The bank examiner had no sooner started work on the books than Strong started for the cellar. It was also noted, after he had gone, that the bank revolver was missing.

Policeman Fred Lebeau was called in and went down into the cellar where he found Strong in a highly excited

state and flourishing the revolver. Lebeau hastily returned upstairs, getting a revolver himself and calling another officer. When the two returned to the cellar, Strong, who had retreated to the far end, placed the revolver in his mouth and shot himself. He died instantly.

A person usually begins to lose height at the age of 50 and at the age of 80 it is estimated that on the average he has lost about 1½ inches.

ALLEGED KILLER INSANE

Mrs. Anna Tomazskiewicz Found Not Guilty by Reason of Insanity

NORTHAMPTON, May 28.—A verdict of not guilty by reason of insanity was returned last night by the jury in the case of Mrs. Anna Tomazskiewicz, charged with the murder of her husband Andrew.

The case went to the jury at 4:20 p. m. which after 1½ hours for lunch began its deliberations which occupied three hours.

Mrs. Tomazskiewicz was committed to the Northampton State hospital for the insane for life.

The state contended that Mrs. Tomazskiewicz had murdered her husband by giving him poison, her motive being to collect insurance which she had placed on his life. The testimony showed that two other former husbands, Theodore Darmatka and Peter Vilos, had died of poison and that they also were heavily insured. The evidence was largely circumstantial and did not show that Mrs. Tomazskiewicz had placed poison in the food of her last husband.

The defense claimed that the defendant was not mentally sound, experts testifying that her actions during the court proceedings indicated she was of low mentality.

NOTES FROM IRELAND

What British Writers Say of Present Situation

The following is from an article in the London "Daily News" of April 19th, 1920, by Major Erskine Childers, D.E.O.: "What we all know is that Ireland is permeated with spies, ordinary and extraordinary, imported Englishmen and native Irishmen, in low places and in high places; who, under various official designations and with the temptation of high rewards, ply their calling in the never-ending work of detecting and punishing first and foremost the great national crime of republicanism."

Major Childers then remarks that the British government's pretext for military arrests in Ireland is that those taken are guilty of crime. He continues:

"In actual fact they [the British government] are accelerating and intensifying the proscription, now long in vogue, of people believing in the independence of Ireland. Pacifists, intellectuals, labor leaders, workers in economic and industrial revival, teachers of the Irish language, election organizers, elected members of local bodies, elected members of parliament, not to speak of a host of local leaders of opinion—all these classes are being swept into the net, together with a number of men—and sometimes young boys—indiscriminately arrested because they happen to be found in a house which happens to have been designated by a spy for a raid."

I want to insist on this general statement, that an attempt is being made to break up a whole national organization, a living, vital, magnificent thing, normally and democratically evolved from the intense desire of a fettered and repressed people for self-reliance and self-development."

\$68,345 RAISED FOR COOLIDGE CAMPAIGN

WASHINGTON, May 28.—James B. Reynolds, who was in charge of headquarters in Washington in the interest of Gov. Coolidge for president, was one of the witnesses yesterday before the special senate committee investigating campaign contributions and expenditures.

Mr. Reynolds disclosed a list of subscriptions which totalled \$68,345.

The largest individual contribution was \$12,500 from F. W. Stearns; \$10,000 contributions were made by Andrew Adie and William F. Whiting; \$6000 by Max Mitchell; \$5000 each by W. M. Crane and E. B. Dane; other subscriptions were as follows:

Winthrop Coffin, \$500; Thomas E. Chandler, \$35; Frank W. Hemick, \$2500; L. M. Hood, \$1250; P. C. Webster, \$1250; John P. Reynolds, \$1000; J. H. Hapaford, \$100; Walter Scott, \$500; John Routmaniere, \$100; H. I. Harriman, \$100; J. C. Bliss, Jr., \$100; G. A. Baker, \$50; A. C. Hatchesky, \$500; William N. Wellington, \$1000; William A. Paine, \$1000; R. W. May, \$1000; John W. Simpson, \$2500; A. J. McWaters, \$1000; Nell A. Weather, \$1000; Grosvenor H. Backus, \$2000;

E. C. Cresset, \$1000; Lucius R. Eastman, \$500.

Committee Asked No Questions

In marked contrast with the examination of most of the other witnesses who have appeared before the committee, there was no attempt to question any of the statements made by Mr. Reynolds or to inquire into or scrutinize the identity of any of the men who appeared in the list of contributors. Most of the campaign treasurers who have thus far appeared have been closely questioned as to the possible motives and the professional or business connections of those making contributions. Senator Kenyon's committee appeared to be satisfied that the Coolidge contributions needed no investigation.

"Shortly after Gov. Coolidge was re-elected last fall, the Republican club of Massachusetts formally proposed his name for president," said Mr. Reynolds. "In the early part of January of this year, without consultation with the governor—but after consultation with certain of his friends in Massachusetts—I opened headquarters in Washington at the Raleigh hotel in support of Gov. Coolidge.

"About the middle of February, Gov. Coolidge, who had heretofore taken no action whatever in the matter, issued a public statement that he desired no contest for delegates made on his behalf, on the ground that it was his duty to devote his whole time to his work as governor of Massachusetts. I thereupon closed the headquarters at

the Raleigh hotel.

Sent Out Governor's Book

"Many of the governor's friends and admirers felt that it was not inconsistent with the governor's position for them to continue their efforts to make his life and work more widely known. These efforts consisted almost entirely in circulating copies of his book of speeches and public papers published under the title 'Have Faith in Massachusetts.' This book was published last October, not at all in connection with the presidential campaign. It has run through several editions.

"The total amount of money collected from all sources is \$68,345, of which \$60,375 came from Massachusetts and \$8970 from outside of the state of Massachusetts. This latter amount came largely from college friends of the governor.

"The work has been carried on largely by volunteers, part of it from my own office in Washington, and part of it from an office in New York opened about three months ago by a committee of college friends of the governor. The money has been expended in the purchase of books, in clerk hire, in wrapping and mailing, in postage, and in the printing and distribution of supplemental matter such as reprints of magazine and newspaper articles. No money has been sent into any state for any purpose. The work has been entirely educational."

LOWELL CARMEN TO DECORATE GRAVES OF MEMBERS WHO DIED IN WAR

The graves of the three members of the local carmen's union who gave their lives in the recent war will be decorated on Memorial day, according to a unanimous vote taken at the last meeting of the organization.

One of the graves, that of William Gallagher, killed in action, is in France, but arrangements have been made to provide that a wreath be placed there. The others where rest the bodies of Ralph Fawksbury and Eugene Tansey are in Lowell and committees have been appointed to personally supervise their decoration.

MOCK TRIAL AT FIRST BAPTIST CHURCH

A mock trial of "The Great Chicken Case" was given last evening in the First Baptist church before a large audience. Many pleasing and humorous incidents were brought out during the prosecution of the case. After the rendering of the decision by the jury, refreshments were served by the ladies of the church.

Warren T. Reid presided as judge over the trial, and the jury was picked from the audience. The defendant was George Tiffany and his witnesses were Mr. Greenwood, Mrs. Alice Shaffer and Frank J. Spooner. The witnesses for the plaintiff were Mrs. Gilman Alcott, Mrs. John Y. Myers and Elsie Hutchinson. William Anderson acted as sheriff.

ARLINGTON MILL SERGE with absolute knowledge of the quality of this blue serge, knowing what I paid for it, knowing what I sold it to you for a year ago, two years ago, yes, and four years hence, I would know I must have pleased you, even if constant demand and duplicate orders didn't prove it to my entire satisfaction. I want you to pass the word around among your friends, tell them exactly what you paid, tell them how the suit wore, tell them exactly how I pleased you.

MY OBJECT is to interest them in this special offer just now for \$27.50. Owing to a temporary lull among the wholesale woolen jobbers the past few weeks, I bought 18 pieces for this store, 20 per cent. less than I paid for it four weeks ago—it is even a better blue and heavier in weight. I don't hesitate to say that not a man in Lowell who has done any shopping this season, even looking in windows, will guess the price under forty after he sees it made and on your back. I don't mind telling you that this serge was never intended for low priced suitings and it is no secret that there is no concern in Lowell or New England which can sell it anywhere near my price.

I GUARANTEE to put every cent where it counts most—into the clothing itself no costly plate glass or swell mahogany fixtures, no Oriental rugs, no oil paintings, and no haughty floorwalkers. I carry no charge accounts and don't have to make up any credit losses. I've cut out expense to the bone—and save you \$10 to \$15.

THE MERRIMACK RIVER

Nothing Doing on Plan to Make River Navigable to the Sea

Another adverse report has been made by the federal board of engineers for rivers and harbors on the Merrimack river navigation project and for the current year, at least, the proposition will remain in the same state of limbo. It has assumed for the past several years.

The report states that whereas the estimated cost of the project in 1916 was \$7,016,600, with \$100,000 annually for maintenance, it now has jumped to \$12,200,000, with yearly upkeep amounting to \$200,000 in round numbers.

This 100 per cent. advance has led the board to pronounce the work inadvisable at the present time, adding, however, that should the conditions obtaining in 1916 return, the project may be worthy of further consideration.

Congressman John Jacob Rogers, backed up by a number of prominent Lowell men, have worked hard for the success of the project for a number of years, but to date, their efforts have been fruitless.

The report covering the findings of the board of engineers follows:

WAR DEPARTMENT

The Board of Engineers for Rivers and Harbors.

Washington, D. C., May 4, 1920.

From: The Board of Engineers for Rivers and Harbors.

To: The Chief of Engineers, U. S. Army, Washington, D. C.

Subject: Report on Merrimack River from Lowell to the Sea, in Response to Resolution.

1. The board submits report in response to the following resolution:

"Resolved, by the committee on rivers and harbors of the House of Representatives, United States, That the board of engineers for rivers and harbors, created under act approved March 3, 1902, be, and it hereby is, requested to review the reports on Merrimack River, Mass., with a view to determining if the improvement there recommended is advisable at the present time, and if so, whether the plan of local co-operation as recommended in said report, also with a view to submitting a revised estimate of the cost of the improvement."

2. The report under review contains plates the improvement of the Merrimack river from Lowell to the sea, to the extent of mean low water and 200 feet deep at mean low water, and 200 feet wide from Black Rock Beacon to Hunt's Falls at an estimated cost of \$1,016,600, and \$100,000 annually for maintenance, the state of Massachusetts or other local interests to contribute 50 per cent. of the first cost of improvement, and to underwrite the improvement, and to the extent of securing and maintaining a channel 1000 feet wide and not less than 23 feet deep across the bar at the mouth of the river at the expense of the United States at a cost not to exceed \$50,000 a year. The plan of improvement includes the construction of a lock and dam at Lion's Mouth, a lock at Lawrence dam, and dredging and rock excavation where necessary.

3. These estimates were made in 1916 when prices were fairly normal. Revised estimates prepared at the instance of the board shows that the work would now cost in round numbers \$12,200,000, including \$195,000 for dredging between the ocean and Black Rock Beacon. This is not in the former estimate, but now considered an essential part of the project. It will, therefore, be seen that the amount now involved is almost exactly twice the original estimate. In addition to this sum of over \$12,000,000, a large amount will be required for rail connections, wharves, terminal facilities, etc., to be paid by local interests. No estimate has been made for damage and other damages. If the cost is distributed as formerly, the amount to be furnished by the United States would be in round numbers \$7,100,000; the state or local interests would have to supply the indefinite balance. The cost of annual operation and maintenance to be borne by the United States is now placed at probably \$200,000.

4. With regard to the inquiry whether the improvement recommended in the report under review is advisable at the present time, it may be stated that in this, as in other investigations looking toward river and harbor improvement, the question hinges upon the relation of cost to benefit. It is quite clear that under present conditions, the cost would be very much greater than formerly estimated, but there is no conclusive evidence that the benefits would be larger than anticipated in 1916, and as the prospective advantages were not then materially greater than considered necessary to justify the improvement, the board must report that the improvement is not deemed advisable at the present time. Should the conditions obtaining in 1916, as to cost of material and labor return, the project may be worthy of further consideration.

For the board:

J. C. SANFORD,

Colonel, Corps of Engineers,

Senior Member of the Board.

REP. BRENNEN LEADS FIGHT AGAINST BILL

Special to The Sun.

STATE HOUSE, Boston, May 25.—

Representative Owen E. Brennan of Lowell took a prominent part in the rejection of the bill permitting savings banks to invest in first mortgage bonds secured by real estate located in this commonwealth.

The bill has been reported favorably by the banks and banking committee of which Rep. Brennan is a member, but the vote of the committee was six to five for the bill, and it fell to the lot of Rep. Brennan to lead the dissenters.

He made the assertion that the purpose of the bill was not to enable savings banks to buy such bonds, but rather to enable real estate promoters more easily to dispose of their bonds to private investors, by stamping upon them a statement that they are legal investments for savings banks, and supposedly a safe investment for private individuals. He said:

"I do not believe that this bill should receive the approval of the legislature. I do not believe that we should put the stamp of approval upon any more questionable methods of offering to

the public securities of doubtful value. There is altogether too much wild cat financing going on today with the public as the victims. This bill, if adopted, will simply put into the hands of bond salesmen a very powerful argument to use in offering bonds for sale to the people, because they will be in a position to say, and truthfully, that savings banks in this commonwealth are authorized and permitted to purchase such bonds and consequently the security behind those bonds must be solid and absolutely safe or savings banks would not be allowed to purchase them. A bond salesman can very easily glibly argue that a bond that is good enough and safe enough for a savings bank to invest in, is surely good enough and sound enough for an individual to put his money into."

"Instead of opening up wider opportunities for savings banks to invest the people's money in what may turn out to be unsound investments, it would be better for us to give consideration to measures having for their object a more restrictive privilege for investment than now exists. There is, to my mind, already too much latitude allowed savings banks in the investment of the people's money in securities, some of which are not altogether what could be called absolutely sound and safe."

"The object of this bill, as I understand it, is to permit big operations in real estate, that is, to allow for erection of mammoth buildings in the commonwealth, constructed upon bond issues, such bond to be secured by first mortgages on the buildings. Buildings that probably would cost so much that no one bank or group of banks or individuals could successfully finance. With bonds issued for the construction of such buildings there, of course, would be a wider distribution and sale of these bonds, thereby allowing for the erection of buildings costing colossal sums of money. In theory this may seem fairly reasonable, but may I ask what good are the bonds secured by first mortgages on such buildings, if these kind of buildings turn out to be so much stone and mortar and fail to earn sufficient revenue to even pay the interest as the bonds issued against their construction. This does happen and one may point to many large buildings that fail to show any earning whatever on the investment."

"If we submit to this unwise and dangerous legislation and allow it to be enacted into law, the next step will be legislation to let down the bars and legalize for safe investment by savings banks all kinds of foreign bonds of doubtful and questionable value. We should stiffen up rather than loosen up

at this time in safeguarding the people's money in savings banks through out this commonwealth. Massachusetts has gone far enough already in designating and permitting savings banks to invest in various kinds of securities. No doubt, some savings banks today would be much better off if they had been more restricted in the kind of securities that they could legally purchase for investment. Bond salesmen are prolific enough in arguments offering bonds for sale to the people without giving them additional arguments to offer that they have bonds now for sale and to offer to the public, that have the stamp of approval of the commonwealth as legal investments for saving banks. I trust this bill will be defeated as a protection to public interest."

MEMORIAL DAY

General Orders for Lowell Post, American Legion

General orders covering the movements of Lowell Post of the American Legion and all former service men in the city on Monday's observance of Memorial day have been issued by Commander Luther W. Faulkner.

Beginning with a military mass at the Sacred Heart church at 9 a. m., practically the entire day will be given over to exercises and demonstrations in memory of the soldier dead of three wars. Commander Faulkner hopes at least 3000 ex-service men will march in the parade in the afternoon and also serve as an escort to Spanish war veterans for joint services in the Edson and St. Patrick's cemeteries.

The general orders follow:

1.—Memorial day, Monday, May 31, 9.15 a. m.—Upon the invitation of the post chaplain, Rev. William F. Mahan, all comrades of the post and other world war veterans, are requested to assemble at post headquarters, 175 Dutton street, to attend a military mass at 9 a. m. at the Sacred Heart church, in Moore street, in memory of all deceased world war veterans.

2.—Memorial services at cemeteries. 12.15 p. m.—Comrades of the post and all other world war veterans will assemble in uniform at post headquarters, 175 Dutton street, to act as escort for the Spanish-American war veterans in a joint service at St. Patrick's and the Edson cemeteries.

The band will report at 1 o'clock at post headquarters, 175 Dutton street, to the post adjutant.

Formation will be taken at 12.45 and the column will proceed from Dutton street to Market street to Memorial hall by the S.W.V. and reviewed at city hall by Mayor Thompson and municipal council. The column will then proceed to the cemeteries. At the

competition of services, the column will march to the South common to take part in the Memorial day parade. The roster for the parade at 12.45 and for the U.S.N. parade at 4 p. m. will be as follows:

KAISER NOW A TAILOR

Work Shows He Missed His Vocation — Doing Good Job at "Building" Suits

LONDON, May 28.—William of Hohenlohe, former emperor of Germany, is trying his hand as a tailor, according to a Central News despatch from Amsterdam. He is cutting out patterns for many new suits with which he is going to stock his wardrobe and the despatch quotes a trade paper as declaring that he is "excelling at the job."

"How unfortunate it is," says this paper, "that William missed his vocation. After all the notoriety he achieved as an emperor, one can imagine what would have been his fame as a tailor."

has a truly complete

HOUSE FURNISHING STORE

In the cuts below some of the most attractive parts of our model rooms have, of necessity, been left out, since the camera cannot focus the entire room.

LIVING ROOM

In this room may be seen a three-piece set of exceptional design and upholstery (a combination of tapestry and velour.) On either side of the divan are consoles or half tables. The shades, both for the table and reading lamps are of parchment, with artistic hand painted designs.

The pictures on the walls are taken from our picture department and include a fine selection of Wallace Nutting and Johnson's works.

SUN PARLOR

The reed furniture in this room is from our REED AND WILLOW FURNITURE DEPT. A striking feature of this furniture is the new kind of finish, known as antique mahogany. Before buying reed furniture ask to see some in this new finish.

DINING ROOM

This set as displayed in the above cut is made from hand rubbed dull brown mahogany; of excellent workmanship, it represents some of the best furniture from Grand Rapids. The set consists of eleven pieces; buffet, china, serving table, dining room table, tea wagon and five chairs and an armchair.

Within the last year our dining room furniture department has almost been doubled in size. Here may be found every style of dining room set in every wood and finish; oak (fumed and golden); mahogany and walnut.

KITCHEN

Were it necessary one could step in to our model kitchen and prepare a meal. The equipment includes a QUAKER PRIZE B No. 8-20 range with gas attachment; a large porcelain top Hoosier cabinet; a Ranney Refrigerator and a Domestic Science fireless cooker—along with this—a complete set of aluminum cooking utensils.

In short everything needed to equip a kitchen may be obtained in our complete Kitchen Furnishings Dept.

Inlaid linoleum is used as a floor covering in this room. This assures a sanitary and durable covering.

THIS suite of rooms will have an entire change of furnishings every three weeks.

YOU are cordially invited to inspect them at any time.

BED ROOM

The bed room set in this room includes eight pieces of walnut furniture consisting of dresser, chiffonier, dressing table, bed, dressing table bench, chair, rocker, and bedside table. The bed is equipped with a De-Lux spiral spring and an imperial edge SILK FLOSS mattress.

We are exceptionally proud of this particular make of mattress since it is without doubt the best of its kind on the market.

SEVEN-MINUTE TIME

Home Rule Committee Seeks
Better Service for Gorham
Street Residents

An effort to secure 7-minute time on the Gorham street line instead of 15-minute time as is at present the case was made at the regular meeting of the home rule committee yesterday afternoon at city hall by John E. Sullivan, one of the members. On Mr. Sullivan's motion it was voted to request the trustees of the Eastern Massachusetts Street Railway company to furnish such service during certain periods of the day.

Otherwise, yesterday's meeting was more or less routine. Chairman John J. O'Rourke brought forth the novel suggestion that the Hildreth building be arcaded so that cars might run through it and thus relieve traffic congestion in Merrimack square but no action was taken on the matter.

The resignation of Abel H. Campbell, a member of the committee, was read and referred to Mayor Thompson. The meeting was called at 4:10. Messrs. O'Rourke, Curtin, Hurfee and Sullivan were present. Manager Lees was absent. Mr. Ricard came in later. The resignation of Abel H. Campbell as a member of the committee was read by Chairman O'Rourke. The resignation was addressed to Secretary Curtin.

Mr. Sullivan moved that the matter be referred to the mayor and it was so voted.

A communication from Manager Lees, announcing that the trustees of the

road had approved the recommendation of the committee that the fare between Lowell and Lakeview be reduced from 15 to 10 cents, was read and accepted. The reduced fare will be operative from May 30 to Labor day.

There was a discussion of the working of the one-man cars on the Pawtucketville-Oaklands and Yarnum avenue-Christian Hill lines. Manager Lees wrote that the cars were meeting with success, particularly on the former route. During the rush hours a little difficulty is experienced. Chairman O'Rourke thought, in view of the saving in men effected by the one-man

system, that more cars might be put on during the rush hours. It was decided to take the matter up with Manager Lees.

Mr. Ricard again brought up the matter of a belt line which had been discussed at a previous meeting. There was no action.

Chairman O'Rourke broached the proposition to arcade the Hildreth building as a means of relieving congestion in Merrimack square. He said that cars might come directly from Central st., through the arcade and out to Brookings street. The cars

would then come into Bridge st. and around to the square again. No action was taken.

A letter from Fred Cummings, publicity agent of the company, showing the increase in the cost of materials used by the road in the past few years, brought forth a discussion of the increase in fares in Lowell. Mr. O'Rourke thought it would be a good idea to have the net earnings of each line during May presented to the committee at its next meeting. The secretary was instructed to ask Manager Lees to furnish the information. Mr. Sullivan said that he believed the Gorham street line was one of those

entitled to better service in view of the amount of traffic there.

He moved that the secretary be instructed to write to the trustees asking that 7-minute time be established on the Gorham street line from 11 a. m. to 8:30 in the evening on Monday, Tuesday, Wednesday, Thursday and Friday and from 11 a. m. to the last car on Saturdays, from the square to the Edison cemetery during the summer months. It was so voted.

FULL TEXT OF VETO MESSAGE

President Gives Reasons for
Refusing to Sign Republi-
can Peace Resolution

Provides Peace Without
Exacting Action to Right
Wrongs Committed

WASHINGTON, May 28.—The full
text of President Wilson's message re-
fusing the republican peace resolution
which was sent to congress late yester-
day afternoon follows:

To the House of Representatives:
"I return herewith without my sig-
nature, house joint resolution 327, in-
tended to repeal the joint resolution of
April 6, 1917, declaring a state of war
to exist between the United States and
the Austro-Hungarian government, and
to declare a state of peace. I have
not felt at liberty to sign this joint
resolution because I cannot bring my-
self to become party to an action
which would place inextinguishable stain
upon the gallantry and honor of the
United States. The resolution seeks
to establish peace with the German
empire without exacting from the
German government any action by way
of setting right the infinite wrongs
which it did to the peoples whom it
attacked and whom we professed it
our purpose to assist when we entered
the war. Have we sacrificed the lives
of more than 100,000 Americans and
ruined the lives of thousands of others
and brought upon thousands of Amer-
ican families an unhappiness that
can never end for purposes which we
do not now care to state or take fur-
ther steps to attain? The attainment
of these purposes is provided for in
the treaty of Versailles by terms
deemed adequate by the leading states-
men and experts of all the great peo-
ples who were associated in the war
against Germany. Do we now not care
to join in the effort to secure them?"

"We entered the war most reluc-
tantly. Our people were profoundly
disinclined to take part in a Euro-
pean war, and at last did so, only be-
cause they became convinced that it
could not in truth be regarded as only
a European war, but must be regard-
ed as a war in which civilization it-
self was involved and human rights of
every kind as against a belligerent
government. Moreover, when we en-
tered the war, we set forth very def-
initely the purposes for which we en-
tered, partly because we did not wish
to be considered as merely taking part
in a European contest.

"This joint resolution which I re-
turn does not seek to accomplish any
of these objects, but in effect makes a
complete surrender of the rights of
the United States so far as the Ger-
man government is concerned. A treaty
of peace was signed at Versailles on
the 28th of June last, which did seek
to accomplish the objects which we
had declared to be in our minds, be-
cause all the great governments and
peoples which united against Germany
had adopted our declarations of pur-
pose as their own and had in solemn
form embodied them in communica-
tions to the German government pre-
liminary to the armistice of Nov. 11,
1918. But the treaty as signed at
Versailles has been rejected by the sen-
ate of the United States, though it has
been ratified by Germany. By that
rejection and by its methods we had
in effect declared that we wish to
draw apart and pursue objects and
interests of our own, unhampered by
any connections of interest or of pur-
pose with other governments and peo-
ples.

"Notwithstanding the fact that upon
our entrance into the war we pro-
fessed to be seeking to assist in the
maintenance of common interest, noth-
ing is said in this resolution about the
freedom of navigation upon the seas,
or the reduction of armaments, or the
vindication of the rights of Belgium,
or the rectification of wrongs done to
France, or the release of the Chris-
tian populations of the Ottoman em-
pire from the intolerable subjugation
which they have had for so many gen-
erations to endure, or the establish-
ment of an independent Polish state,
or the continued maintenance of any
kind of understanding among the great
powers of the world which would be
calculated to prevent in the future such
outrages as Germany attempted, and
in part consummated. We have now
in effect declared that we do not care
to take any further risks or to assume
any further responsibilities with re-
gard to the freedom of nations or the
sacredness of international obligations
or the safety of independent peoples.
Such a peace with Germany—a peace
in which none of the essential interests
which we had at heart when we en-
tered the war, is safeguarded—is, in
effect, to be, inconceivable, is incon-
sistent with the dignity of the United
States, with the rights and liberties of
her citizens and with the very funda-
mental conditions of civilization.

"I hope that in these statements, I
have sufficiently set forth the reasons
why I have felt it incumbent upon me
to withhold my signature.

WOODROW WILSON.

"The White House, 27th May, 1920."

ADVENTURES OF THE TWINS

by Olive Roberts Barton.

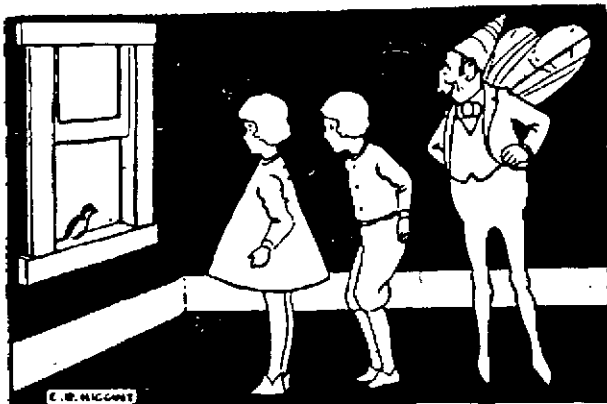

SLEEPER SWALLOW'S NEWS

Sleeper Swallow was leaving Scrub-Up Land to go to the Land-Where-Spring-is-Comeing, when he thought of something.

"Say," he said, "aren't you the children who live in the white house on a hill above a meadow that has a chestnut tree in it?"

"Yes, we are. Do you know us?" asked the twins in pleased surprise.

"Mr. yes!" Sleeper assured them, "I remember when you were first brought

"SAY," HE SAID, "AREN'T YOU THE CHILDREN WHO LIVE IN THE WHITE HOUSE ON THE HILL?"

Do you remember a toy monkey you used to have?"

"Jocko!" cried the twins eagerly. "Have you seen him?"

"Not recently, but one day last year, you kiddies had him out in the barn playing circus in the hayloft, as you remember. Then you went away and left him, but while you were gone Jake and the men brought in a load of new hay, for they were starting to harvest, and quite covered Jocko up. Did you ever get him?"

"Oh, no, no!" they cried, clapping their hands. "We've been hunting for him ever since. Thank you so much, Mr. Swallow!"

Sleeper said they were welcome, then flew away, happy to be off. Scrub-Up Land was empty at last!

Rubadub locked the cupboards and pulled down all the shades, ready for next year. At the gate he said an affectionate good-bye to the twins, and himself flew away to the Fairy

Queen's palace. Nick and Nancy were carried gently but quickly by their little Green Shoes to the Land-Where-Spring-Had-Come-at-Last.

Spring Ailments

Relieved By a Well-Known Medicine of Superlative Merit

Spring ailments are due to impure, impoverished, deaillated blood. Among them are pimples, boils and other eruptions, loss of appetite, that tired feeling, a run-down condition of the system, and sometimes chronic weaknesses made worse.

Hood's Sarsaparilla combines the roots, bark, herbs, berries and other medicinal that have been found, in many years of intelligent observation, to be most effective in treatment of these ailments.

Successful physicians prescribe these ingredients for diseases of the blood, stomach, liver and kidneys, and in cases where alterative and tonic effects are needed.

Hood's Sarsaparilla is the spring medicine that purifies, enriches and revitalizes your blood, increasing power of resistance to disease.

For a laxative take Hood's Pills.—Adv.

TULLE ON SATIN FOR DANCE FROCKS

NEW YORK, May 25.—As charming and simple a summer evening dance gown as the most exacting could desire is this frock from "Irene." It is of majenta tulle over white satin, the tulle trimmed with iridescent bands of sequins and the white satin slip scalloped and bound with a narrow velvet ribbon.

A bandeau bodice of white lace has a drapery of the majenta tulle about it and is held up by one sequin band strap and one lace band. A velvet girdle with a velvet ribbon bow into which a few flowers are tied in, gives the finishing touch.

Much attention is given to the elips and underdresses over which transparencies are draped. They are oftentimes trimmed more or less elaborately with lace, French flowers and ribbons, the latter twisted into knots, shaped in rosettes or introduced in shirred, plaited or plain bands.

About 300 were present. Following the whist tournament there was general dancing. Prizes for whist were donated by Miss Lannon, Donald Shanahan, Miss Lee, Mrs. Gleason, Mrs. Sheehan and Mrs. Brown. Mrs. George Bannister and Mrs. Ryan, were awarded the consolation prizes. William J. Ryan and James Morrison, were tied for first, and they cut with Mr. Ryan landing on top. The consolation prize went to John Sullivan.

KILL MASON RESOLUTION

Provided Recognition of Irish Republic—Cong. Rogers Votes Against Measure

WASHINGTON, May 28.—The committee on foreign affairs of the house will in all probability report a resolution today, expressing "sympathy with the aspirations of the Irish people for a government of their own choice."

This action was forecasted last night by Congressman Rogers of Massachusetts following a long session of the committee, during which the original Mason resolution providing for an appropriation for a minister and consuls to the Irish republic, was rejected by a vote of 15 to 5.

The resolution upon which it is expected the committee will finally agree is suggested as an amendment to the substitute Mason resolution. It is as follows:

"Whereas the American people have always sympathized with the aspirations of every people seeking political freedom; and

"Whereas the people of Ireland have

shown unmistakably their desire to govern themselves; and

"Whereas the conditions in Ireland today endanger world peace; and

"Whereas in particular the unrest caused by these conditions is inevitably reflected in these United States of America, tending to weaken the bonds of unity and the ancient ties of kinship which bind so many of our people to the people of Great Britain and Ireland, therefore, in the interest of world peace and international good will, be it

"Resolved by the house of representatives (the senate concurring) that the house of representatives views with concern and solicitude these conditions and expresses its sympathy with the aspirations of the Irish people for a government of their own choice."

The vote on the original Mason resolution was as follows: In favor, Kennedy of Rhode Island, Browne of Wisconsin, Sabath of Illinois, Smith of New York, Mason of Illinois.

Opposed—Rogers of Massachusetts, Temple of Pennsylvania, Ackerman of New Jersey, Berg of Ohio, Houghton of New York, Newton of Minnesota, Dickinson of Iowa, Smith of Illinois, Flood of Virginia, Goodwin of Arkansas, Juddleston of Alabama, Connally of Texas, Linthicum of Maryland.

Moore of Indiana and Steadman of North Carolina. All resolutions providing directly for a recognition of the Irish republic were defeated.

MEMORIAL DAY PLANS

At a meeting of Admiral Farragut camp, auxiliary, 47, held last evening in Memorial hall plans for Memorial day were completed. Mrs. Eleanor Farragut, the president, occupied the chair. It was announced that the auxiliary will co-operate with the Sons and Daughters of Veterans in providing supper and entertainment at the First Universalist church in Hurd street for Post 42 and the Women's Relief corps, 75, after the Memorial day parade. In the course of the meeting two new members were initiated and one application for membership was received.

NEW POLISH REPUBLIC

Pledges to Purchase \$20,000
Worth of Bonds Made at
Meeting

Pledges to purchase \$20,000 worth of bonds of the new Polish republic were gathered in at a public meeting held last evening at Associate hall to open a campaign for the sale of \$100,000 of the bonds in Lowell. The largest single subscription was from Rev. Alexander Ogonowski, pastor of Holy Trinity church in High street. About 500 persons were in attendance at the meeting.

The meeting was in charge of an executive committee made up of Frank Kus, president; Anthony Pomprok and Peter Kozlowski, treasurers; Jacob Targ, financial secretary, and Frank Urbanek, recording secretary. President Kus was chairman of the evening.

The meeting opened with the reading by Jacob Targ of an appeal from the Polish government for the purchase of the bonds. In the appeal reference was made to what had been accomplished by America in the world war toward giving Poland her freedom.

Rev. Fr. Soltyslak spoke of Poland's bitter experiences in the past, and said that the opportunity to purchase the bonds offered a splendid chance to the Polish people of America, and others, to help a country that was just emerging from a long era of oppression.

Rev. Fr. Ogonowski told of the part Poland had played in the war and expressed appreciation for the splendid help given to her by America through the Red Cross and other agencies.

The final speaker was Rudolph Zabek of the speakers' bureau of the Boston headquarters for the bond drive.

The bonds that are being offered are in denominations of \$50, \$100 and \$500 and are payable in 1940. They bear interest at the rate of 6 per cent.

The headquarters for the drive in Lowell are at the Polish club house in Cornhill street and the parish house of Holy Trinity church in High street. At these headquarters reports will be received from canvassers who will visit every Polish resident of the city.

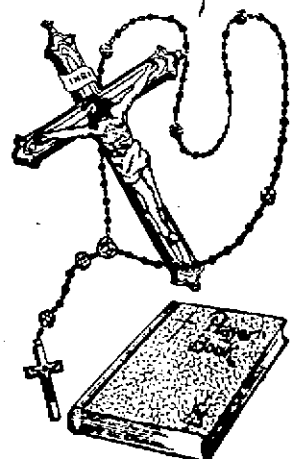

On the advisory committee connected with the drive are the presidents of all of the Polish societies of the city and the pastors of the two Polish churches.

RETURNED VERDICT
FOR DEFENDANT

The jury in the case of George Basbanes against Dr. John K. Gatsopoulos for the recovery of damages for the results of alleged illegal acts performed upon the plaintiff's wife by the defendant returned a verdict for the defendant in the superior court yesterday afternoon. The case had occupied the time of the court for two days, its progress having been held back by the fact that the plaintiff, who conducted his own case, was unfamiliar with the methods and rules governing court procedure. The members of the jury reached a decision in about half an hour after the case was given to them.

Secretary Daniels is able to hold his own fairly well despite the efforts of Senator Ladd and others to make him ridiculous.

Governor Coolidge seems to still have an inside track as a favorite son and dark horse in the race for the nomination at Chicago with Lowden gaining in his efforts to force the Bay State man back among the "also rans" as the distance to the wire grows shorter.

Assuming that the total population is four times the number of polls, the assessors estimate the city's population at 120,000, while the federal census makes it 112,470. Can it be that the federal enumerators are over 7,000 astray? The assessors in past years have come quite close to the official figures.

Recently quite a lively tilt occurred in the national house over a pet provision included in the diplomatic and consular appropriation bill, by which citizens of other countries could not come here without a passport from their home government. It was killed by a vote of 102 to 96.

Self-interest, it appears, is causing many of the great motor companies to unite with government agencies in improving the roads of the country. If the roads are good, the motor truck can render valuable assistance to the railroads, especially in short haul business and for this reason the good roads movement is being pushed in every part of the union.

The drive that has been started to dispose of \$100,000 worth of Polish government bonds in Lowell deserves to meet with success. The buyers will have a chance of making a reasonably safe and profitable investment, and the certainty of doing something to help the people of a long-oppressed nation for which Americans have long had an abiding sympathy.

If it be found true, as alleged, that certain American manipulators are parties to the scheme by which Cuba is to hold back sugar so as to put up the price here, they should be punished, if it be possible, to punish anybody in high places. There are profiteers and speculators conspiring against the people; but the government doesn't seem to have any success in finding them.

The message of Chairman O'Leary of the democratic state committee to the speaker of the Louisiana house of representatives urging the ratification of the suffrage amendment may or may not materially help to bring the desired result for the reason that there seems to be about as many women in the Bayou state opposed to ratification as in favor of it.

Representing the railroads before the Railroad Labor Board considering the demand of 2,000,000 railroad men for an increase of wages, Mr. E. T. Whiter said the railroads are not opposed to granting an increase provided they get a fair day's work in return. That would seem to imply that they have not been getting an honest day's work in the past. The implication is unjust to the great body of railroad men for the reason that only those who have done good work have been retained by the bosses.

SENDING PRICES HIGHER

Strange as it may appear, the first effect of price probes is to advance the prices. We have had many examples of that since the close of the war. The latest instance is that of sugar over which the nation has been raving for some weeks past. If the price is kept up by profiteers it is queer that the government should do not catch them. But with reports that sugar is coming to Boston in great quantities, still the prices continue to advance. Somebody will say the prices are regulated by the law of supply and demand. A temporary shortage may result in an increase in price but when that shortage is overcome the price falls to normal. Thus the law of supply and demand seems to operate against the consumer. Where's the fault?

WOOD INDICTED

It is not at all probable that the federal authorities will be able to sustain the charge of profiteering against the American Woolen company although the profits of that concern during the war and since,

have been enormous. That the company violated any law by rolling up such great profits is not now apparent. President Wood who has been indicted appeals to the employees of his mills to suspend judgment until the case is heard in court, claiming that he, himself, and the company as well, will be exonerated from all blame.

In all probability, this and other indictments have been made in response to the clamor for action against profiteers; but thus far the government has had very indifferent success in such proceedings. Its action against the packers, and other big food producing concerns, indicates that it is not so easy as some people think to convict on the general charge of profiteering.

GLARING HEADLIGHTS

There is a law on the statute books of Massachusetts forbidding the use of glaring headlights on automobiles. It has the support of every conservative motorist. It was enacted to protect drivers of cars as much as pedestrians from possible injury.

That this law is not being enforced as it should be is plain enough to anyone who passes along any of the highways at night. On the streets of Lowell, and more especially in the country round about, cars run back and forth over the roads at high speed with lights that are simply blinding to those who meet them full glare.

The police seem to have fallen asleep on their jobs so far as the glaring headlights are concerned. An effort on their part, and it would not require the expenditure of very much energy, ought to go far to prevent such violations of the law.

It ought not to require a large amount of sleuthing to obtain evidence against this particular class of law-breakers whose offenses menace the safety of all who use the streets and roads either on foot or in vehicles of any sort at night.

A COMMUNITY SPIRIT

Charles H. Penney, of At-Leboro, in a recent address in this city said: "The community spirit is needed to cement the many factions existing throughout the country into one American brotherhood."

These words have a familiar ring. Something very similar has been said a number of times before. Every thoughtful person probably realizes the truth that lies behind the statements. Perhaps only a few who have looked below the surface and studied existing conditions realize fully how great the need of a wider and more inclusive community spirit really is.

As a nation we are split up into many little exclusive circles that very seldom widen out sufficiently to overlap and mingle with one another. We are kept apart by boundaries of wealth or the lack of it, by social position or the lack of it, or perhaps because we speak the English tongue through our noses with a Yankee twang or in the broken, vowel-he-spangled dialects of some whose birthplaces are on the other side of the Atlantic.

As a people we need some common meeting places where we can get together in the warmth and understanding of human companionship. We need places where men and women can gather to talk over their common interests. In the Community Service club house on Dutton street a splendid beginning has been made toward providing such places. It is only a beginning though and can only accommodate comparatively few people. There is a wide field for the growth and expansion of the idea.

FOR NEW FORESTS

This is forest preservation week. Why?

Charles Lathrop Pack, president of the American Forestry association, calls our forests the backbone of all industry and cites some figures to prove it. Take a look at these facts and then endorse the association's move to have forest preservation week multiplied by 52. Ten years ago the United States produced its entire supply of pulpwood, but now two-thirds of it is imported. This means freight rates to be added to the purchase price.

Indications are that supplies of pulpwood in New England and New York will be exhausted in 10 to 20 years. Ten years ago the United States produced its entire newspaper supply—now we import two thirds of it.

ply—now we import two thirds of it.

Do you wonder that newspapers are fighting for their lives? Do you wonder what makes the cost of building a home so high?

Experts predict saw-log lumber will be gone in 50 years.

The bulk of the original supplies of yellow pine in the south will be gone in 10 years, and, within seven years, 3000 manufacturing plants there will go out of existence.

White pine in the lake states is nearing exhaustion, and these states are paying \$6,000,000 a year in freight bills to import timber.

New England, self-supporting in lumber 20 years ago, now has to import one-third of the amount used.

Fire destroys over \$20,000,000 worth of timber every year and kills the reproduction upon thousands of acres of forest lands.

Within 50 years the present timber shortage will have become a blighting timber famine.

Forest devastation must be stopped; lands now in forest must be kept continuously productive; forest lands now devastated and idle must be put to work.—N. E. A.

THE IRISH PROBLEM

Our old friend Gamaliel Bradford comes out in a long letter to the Boston Herald against "people who are urging America to enter into a war against England in behalf of Ireland." What Mr. Bradford thinks of the status of America and her chances in a war with England may be judged from the following statement in his communication:

"To hope that a victory of America over England would free Ireland, is to hope for a dream; there would be no Ireland left to free and no America left to free it."

Thus does Mr. Bradford intimate that if we became involved with England over the Irish question, England would wipe both the United States and Ireland off the map. No true American will show such a lack of confidence in his own country. But all this talk about war with England over Ireland, is merely the outcome of superheated propagandists. Why should the demand of any people for justice be regarded as a cause of war between two great nations?

Ireland is demanding her right to deliverance from eight centuries of continued British oppression. She is adopting radical measures because she is goaded to this action by the decision of England not only not to grant the Irish parliament which was conceded under the leadership of Redmond, but actually to place the entire country under the control of the Carson faction in the north, about one-sixth of the entire population. That means that in Ireland alone is majority rule to be reversed, and it means also partition along religious lines or the restoration of the ancient "pale" which divided the native Irish from the British invaders.

If England refused to grant Ireland independence, why did she refuse to treat her fairly as any of the other colonies of the empire? Had England adopted the latter course instead of breaking all her pledges, in 1915, all the trouble that has since occurred, would have been prevented.

The enemies of Ireland in defending the course of England, put the effect for the cause and charge that the people were in collusion with Germany in the war.

The record of enlistments and actual service demolishes that lie. There was no disposition to enlistment or conscription on the part of Ireland until the government sided with the Ulster minority in its opposition to putting the home rule act in operation.

The Irish people are disarmed and defenseless against the power of England; but they are pursuing a policy of passive resistance that will make alien government impossible. England may imagine that she can stamp out the national spirit of the people; but nothing less than extermination will accomplish that end.

None of the terrible things conjured up by Mr. Bradford will happen. Nobody is urging the United States to interfere in behalf of Ireland, but representatives of Great Britain, official and otherwise, are quite outspoken in their threats that should the Mason bill be passed it would result in war between this country and England. We still agree with Secretary Colby that congress has a right to do as it pleases in this matter without consulting any foreign power.

It might be as well for some European statesmen to realize that the world has undergone a radical change of late and that coun-

tries formerly held in bondage as vassal states must be given their freedom. No American who believes in the principles of our constitution can deny that the demand of Ireland for independence is based upon the eternal principles of right and justice. Ireland is not now and never was an integral part of the British empire.

"What?" cried the careful housewife. "You charge me a shilling a pound for these apples?"

"Yes, madam," answered the polite grocer, "that is the very lowest price we can sell them for."

"How is it that I can get them from Todd's for eightpence, then?"

"I cannot say, madam. Perhaps Mr. Todd has taken a fancy to you. He is a widower and you are beautiful. Unfortunately I—Yes, two pounds? Certainly!—Blighly."

The Wise Agent

The agent for the Useless Dingus he was selling was a smart man. He rang the doorbell and a maid opened the door.

"Good morning," smiled the agent. "I am trying to find a married lady whose name I can't remember just now. I think this is her house. She is a woman easily described. Perhaps you know her. She is a handsome woman, with a perfect complexion, beautiful hair and teeth, lovely eyes and an ideal figure. I thought—"

As She Is Wrote

Critic Butler Gleaner, whose knowledge of French is profound, said at the Players' club:

"All our popular authors managed to get to France on one excuse or another during the war, and now they all burden their stories with French phrases."

"Those French phrases! How awful they are! How they make you laugh if you know French at all!"

"A woman magazine writer who gets \$300 a piece for her short stories came into a restaurant the other day and sat down near me. She wore a Y uniform. I know she'd had a week or two abroad."

"Got any bon vivants?" she said to the waiter.

"But, madame, I don't understand," the waiter, a Parisian, stammered.

"Go on! I thought you was French!" said the woman magazine writer. "Bon vivants means good liver. Bring me some with bacon."

I join my fellow citizens and on the bleachers from afar I gaze on eighteen lively men engaged in baseball's mimic war. How oft my logic-loving mind has asked what normal-seeming gent in this here foolishness could find, but all have fled my arguments. Because these sturdy hired boys elect to throw a ball or run, should I proceed to make a noise and call it any kind of fun? They start, and some fond fool implores a lad to give the ball a ride, and when three strikes are called he roars that that there umpire's brains are fried. He criticizes every play, he groans or cheers with every run; he knows a more effective way to do whatever thing is done. He pounds his neighbors on the back, he hurls remarks across the scene; in short, he shows an utter lack of what we call the placid men. This most undignified of guys, who can the foolish mad-head be? Quillo suddenly I realize the evidence all points to me!

No matter if out of the frosty North A zero spell or a blizzard blows, Though a polar gale leaps fiercely forth From haunts of the hardy Eskimos; Though it snows and sleets, and sleets and snows, Though Borcas croons and howls and hums, Though it's cold, and steadily colder grows— No matter how cold—our kernal comes.

The butcher's cart in the snow is stalled, The grocer's sticks in the stable yard, The baker's wagon drifts heavily forth Tied to the barn, and frozen hard; The coal man, once by Garfield started, Sits within to twiddle his thumbs; All but one by the weather's barred— No matter how cold—our kernal comes.

We're shy of sugar, and out of bread; The furnace dwindles, droops and dies, There's a leak below and leak overhead; But the plumber's phone it never rings, Father crouches and mother sighs; Gone are comforts, 'ere the crumbs; And then, from without, some sounds arise— No matter how cold—our kernal comes.

MAN ABOUT TOWN

The manager of a downtown store which deals in yeast cakes, tells me that he has noticed a great increase in the sales of this article within the past few months and is wondering just what reason may be assigned for the unusual demand. Ordinarily, only a few cakes a day were sold in days

gone by, but now it is not unusual to sell several dozen a day, the manager in question tells me. Of course, it is assumed that the great majority of purchasers plan to use the yeast for bread, but when a customer asks for a half dozen or more at a time, there naturally arises suspicion that something more tasty than bread is to be made. "Home brew" might be mentioned, for instance, but, of course, there's no way of telling what the yeast is used for after it leaves the store.

The Eastern Massachusetts Street Railway Co. has introduced the one-man car in this city in an endeavor to increase business, and there is no doubt in mind that if the cars were operated in a proper manner a great many people who do not patronize street cars would take to riding. By this statement I do not mean to criticize all operators of one-man cars, for some of them are doing their utmost to make the enterprise a success, but some others seem indifferent. Thursday afternoon I stood at the railroad crossing at Dutton and Merrimack streets, where all electric cars are supposed to stop. A man came running along just as a one-man car made its appearance and stood at the crossing, waving at the operator, but the latter opened the throttle of

his car and speeded by, leaving the passenger behind. The result was that the man who was waiting for a car, walked home, which meant one less passenger for the company.

He told of his experiences with the blinding, cutting dust storms of South Africa. The terrible sweltering heat along the banks of the River Ganges in India was mentioned. A year spent at Point Barrow, within the Arctic circle, where fierce blizzards sweep in from Bering sea and the cold is so intense that the mercury nearly ceases in the thermometer, was referred to.

"Where have you found the most disagreeable climate and weather?" queried the Man About Town. The answer was prompt, "Right here in New England, anywhere within 15 or 20 miles from the Atlantic coast. The trouble here is that you can never tell what the weather is likely to be for more than a few hours at a time. In India, for example, where the heat is intense, the people have arranged their lives and activities, and dress and are housed in such a way, that they get along with a minimum of discomfort. Here on one summer day the temperature may be in the hundreds and 16 hours later a cold northeast storm may sweep in from the ocean. Then, too, you have your moisture-laden atmosphere to make the heat more willing

BIG DAY IN TEWKSBURY

Memorial Day Program Includes Welcome Home to World War Veterans

The most extensive and elaborate program in the history of the town of Tewksbury has been planned for Monday, May 31, Memorial day. Not only will the usual tributes to the G.A.R. veterans, but also the official town welcome home reception to the World War veterans. The program beginning at 8.30 in the morning and ending late in the evening has been made possible, to a large extent, by the facilities afforded by the new town hall which gives ample room for the memorial services, the dinner, a banquet and a military ball at different times during the day and evening.

The first event of the morning will be memorial services for the G.A.R. men in the Center cemetery, under the direction of Post 135 of Lowell, Commander Franklin S. Pevey. This will include the usual tributes and the planting of new flags on the veterans' graves. More extensive memorial services will then be held in the new town hall when Rev. N. W. Matthews of Lowell will be the orator of the occasion.

For the veterans of the G.A.R. and their guests, the annual dinner will then be served in the town hall under the direction of the Ladies' Aid society of the Centre church. In the evening, from 8.30 to 11.30, there will be a band concert on the common by the Reading Brass band. The foregoing part of the program has been arranged and will be in charge of the Memorial day committee of the town.

In regard to the official welcome home reception to the world war veterans, which will take place in the afternoon and evening, it may be said that the special committee in charge has been working tirelessly for the success of the affair. The exercises in the town hall in the afternoon for the reception are open to the public and will consist of speeches welcoming home the boys, the presentation of the town emblem to the world war soldiers, the presentation of a memorial to the town by those soldiers, the unveiling of the memorial tablet in the town hall on which is embossed the names of 61 men and one woman who served during the great war, and community singing under the direction of Albert Edmund Brown of Lowell. The address in the presentation of the town's emblem to the soldiers will be made by Lieut. Col. Frank S. Perkins, formerly of the 101st Light Artillery, U.S.A.

The memorial from the world war veterans will be presented by George E. Pierce, assistant superintendent of the state infirmary, who served in the medical corps during the war.

Following the afternoon exercises for the welcome home to the veterans, there will be a banquet in the town hall at which the world war

veterans, their guests and officials of the town will be present. Toasts and addresses will be made in honor of our country, state, town and the press. Hon. Butler Ames and others will speak at the banquet.

In the evening at near 8.30 as possible, the grand march for the military ball will start in the new dance hall in the town building. Many out-of-town visitors are expected at the dance in the evening, including service and former service men who are acquainted with residents or service men of Tewksbury. The ball will be under the direction of the World War Veterans and managed by a committee selected by them. Music for the dance will be furnished by Ives Boston orchestra, a marine band of high calibre.

Application for a charter in the legion has been granted to the former service men of the town and it is expected that they will soon have a post organized.

fine presentation of the second act of Edward Peple's gripping story, "The Littlest Rebel," with Miss Mary Casey, John Groark, Raymond Crowley and Donald Adams in the character roles.

Undoubtedly the major portion of credit for the excellent production is due Miss Mary C. Joyce, dramatic coach but the four pupils raised their acting far above the usual amateur standard and read into the patriotic lines every possible bit of meaning and interpretation the author intended.

"Virgie," the Littlest Rebel, daughter of Capt. Carey of the south, was played by Miss Casey in her usual graceful manner. She received splendid support from John Groark as "Capt. Carey," Raymond Crowley as "Lieut. Col. Morrison of the North," and Donald Adams as "Corporal Dudley."

The school assembled at the usual hour and went to the theatre, each room in charge of a teacher. The exercises were preceded by an entrance march played by the school orchestra, directed by Frederick O. Blunt. Piano solos by Francis Gorman were followed by Civil war songs, sung by the girls' glee club, also under Mr. Blunt's baton. Miss Anna Mulligan gave the prologue to "The Littlest Rebel" in excellent voice and with fine ability. The troops in the cast were Everett Birby, Erwin Braverman, Cecil Gardner and William Plante.

As the curtain went down at the close of the play a huge American flag fell and the audience rose as the orchestra played "The Star Spangled Banner."

Capt. MacBrayne struck a serious note in his address, feelingly referring to the millions of young men who were sacrificed in the last great war. A declamation in French of "Gloire aux Morts," adapted from Victor Hugo, was spiritedly given by George Parreault, and the exercises closed with "Taps" played by Regimental Buglers Fred C. Laite and Wallace McQueenen.

old pump that has been at the station for some time but not used recently, into operation to maintain the city's water supply. However, the old pump has not the capacity of the Allis-Chalmers machine and today the water in the reservoir was going down rapidly.

Commissioner John F. Salmon immediately made plans for a campaign of water conservation in the city until the pump is repaired, which may be a matter of a few weeks or perhaps months. He will ask Commissioner Dennis A. Murphy of the street department to forego using further water for streets until the pump is repaired and through the press urges the general public to be as saving in the use of water as possible until the present emergency is passed. It is doubtful if the average daily consumption of 7,000,000 gallons a day, which has been the amount used during the past few months, can be maintained with the substitute pump and only by the co-operation of the public in using no more water than necessary can enough be pumped to meet all needs.

The Cook wells on the boulevard, which have been closed for the past month or more, were opened again this morning and will be kept going at full blast until conditions become normal again.

It will be remembered that the municipal council last fall voted to purchase a new Snow cross-bar pump for the West Sixth street station to replace the machine which broke down last night and the contract was signed long before the close of the year with the understanding that the new pump should be delivered not later than Feb. 1. The stipulations provided rigid penalties for the city if the foundation for the new pump were not ready at that time and when Commissioner Salmon assumed office he had work on the foundation pushed forward at a rapid pace.

However, Feb. 1 came and went and today, almost four months after the date when the pump should be delivered, it has not reached the city. Information has been received that it has been shipped and tracers have been sent out to try to locate it. If it is found within a few weeks it will be set in place and the old Allis-Chalmers will be kept for emergencies such as that which happened last evening.

According to an Italian scientist more suicides occur between the ages of 15 and 26 than at any other period of life.

HIDDEN FOR TEN YEARS

Musty American Diplomatic Secret Has Just Been Disclosed

PHILADELPHIA, May 25.—A musty American diplomatic secret has been disclosed here through announcement that Canada soon will send its own minister to Washington. It is that for the last ten years a specially made chair, carved with the Canadian coat of arms, has been waiting in Washington for use of this envoy.

ed on, Secretary Root asked me to have an additional one made with the Canadian arms on it, which was done, and which has been hidden for the past ten years, for Secretary Root cautioned me to use his exact words: to be a "little reticent about the matter."

In one ward at the Philadelphia primates there was a riot in which the ballot box disappeared and the voting booth was set on fire.

What Supports the Heart?

By N. COOK, M. D.

The heart is the hardest worked organ of the human body. It beats on an average of seventy times a minute—from the minute of birth to the minute of death. Every half minute or every thirty-second beat, the whole of the blood in the body is pumped through the heart, so that the dual heart moves about six tons of blood in each twenty-four hours. On the purity of that blood health depends. On the strength of the heart depends the strength of the body.

The question then is, how can we keep the blood pure and the heart strong? What is blood? Blood is only digested food. No man is stronger than his stomach, because physical strength is derived from food digested and assimilated. Deaths ascribed to weak heart and "heart failure," should be called weak stomach and "stomach failure."

It is this dependence of the heart upon the stomach which explains the relief from "heart trouble" effected by the use of Dr. Pierce's Golden Medical Discovery. This remedy is for diseases of the stomach and other organs of digestion and nutrition. It purifies the blood, eliminating from it the substances which corrupt and poison it. Even this alone would take the strain from the overtaxed heart. But Dr. Pierce's Golden Medical Discovery also acts directly upon the heart itself. It strengthens the heart's action.

This is the time of year when we need a reliable tonic. Toxins (poisons) pile up within the body after a "hard winter," and we feel tired out, blue and discouraged. If you want vim, vigor, vitality, try this Spring Tonic of Doctor Pierce's.

MILLION UNDERFED CHILDREN IN GERMANY

BERLIN, May 28.—The American Friends service committee now is feeding 100,000 of the under-nourished children of Germany, of whom there are, according to estimates based on physicians' reports, at least 1,000,000. Only one-tenth of them are being cared for as the committee can feed only those seriously or dangerously underfed.

In a kindergarten at Schoenberg, a huge district where the Berlin poor cluster like bees, the correspondent saw several hundred pale-faced children ravenously attack the meal the committee daily provides. It was a ground-floor room with big windows flush with the street. Every window had a dado of swarming little ones. They stood on the sidewalk peering in, noses flattened against the panes, their big, round eyes eagerly watching the children in the room feasting.

Most of those on the outside were in the class of merely under-nourished, for whom no aid is available. Frau, Margaret Barth, a well known educator, who, as the head of the local committee, supervises all the feeding arrangements in the Schoenberg district, sighed as she glanced at those wistful faces at the windows, and turned away.

"On the first day," she said, "we permitted the parents to come to see their children fed. They went with gratitude. We didn't let them come again. They were hungry themselves and their pinched faces were more than we could bear in a place where food was being served."

Cocoa, milk, flour, sugar, rice, peas, beans and lard are the foodstuffs supplied by the American friends committee. Of the different menus afforded the most popular among the Berlin children is a kind of porridge made of flour, condensed milk, sugar and lard, eaten with a roll.

Sixty per cent flour is furnished. Fraulein Barth spoke of it with enthusiasm. "Such flour hasn't been seen in Berlin for years," she exclaimed. "Crowds come to look at it."

The committee began work in Germany the latter part of February. The Kapp revolution and the consequent disorders in Saxony and the Ruhr interfered with operations. However, in Berlin, 50,000 of the estimated 20,000 to 100,000 needy children are now being fed, and the work in the provinces is being extended as fast as conditions permit. It is hoped soon to reach all the most urgent cases throughout the country. Germany has been divided into 11 districts, with Berlin as headquarters and the principal sub-stations at Hamburg, Leipzig, Dresden and Chemnitz. The organization is said to have sufficient funds to continue its mission in Germany until the harvest begins to come.

WOMAN BANKER TALKS

Mrs. Runyon Would Lend to Men in Preference to Some Women

MURKIN, Tenn., May 28.—Tennessee's woman banker, the only woman bank president in the country, while here attending the Tennessee State Bankers' convention declared she would lend to men in preference to some women but first-class security was an essential.

She is Mrs. F. J. Runyan, wife of a physician, whose financial institution is located at Clarksville, in north central Tennessee. She and the cashier, the wife of the state's attorney for the county, are the only officers. All the directors are women.

"Men come to me, tell me their business and borrow money," she said. "Our bank is only seven months old. Its purpose is to aid young people who want to save and that was the prime motive for its foundation. The idea was carried out solely by women; but a man suggested it."

The bank has a capital of \$15,000 and its first six months' deposits aggregated \$53,000.

When called upon to address the convention, Mrs. Runyan declined with thanks, saying she never had talked to so many men.

SUGAR PRICES ARE HIGH

That is the reason many so-called soft drink bottlers are using saccharine (which is a drug) as sweetening, because it is cheap. It costs 60 cents per 2 dozen cases with sugar and 3 cents with saccharine, which has been pronounced by FOOD EXPERTS as INJURIOUS to HEALTH. It is illegal to sell it unless printed on the label.

REPUBLICANS TO EVADE "DRY" ISSUE

CHICAGO, May 28.—Beer, light wines and prohibition will not be mentioned in the republican national convention, if present plans of party leaders are carried out, it was learned yesterday.

Directors of the party's policies have decided that the question has been settled, according to Samuel A. Perkins, national committeeman from Washington. The prohibition question and its possible effect on the forthcoming presidential campaign has been under consideration by party leaders for several months, it is known. One member of the national committee, who was here, said yesterday that the committeemen believed the "wet" to be in the minority, and that the country as a whole wanted prohibition.

Special correspondents of many metropolitan newspapers were thrown into consternation yesterday when it was announced by the Western Union Telegraph company that it would have no wires running into the convention hall. Supt. Hall notified the company that the building trades council had threatened to call out all workmen employed at the Coliseum if non-union telegraph companies attempted to place wires in the building. The Postal Telegraph company said it had not heard of the trouble and expected to install an office.

There will be plenty of rooms in Chicago at reasonable prices to care for the 40,000 convention visitors, according to the information bureau of the Association of Commerce. First class hotels in the loop have 13,500 rooms available, and outlying hotels 21,000, at an average price of \$6 per day.

AMUSEMENT NOTES

By Theatres' Own Press Agents

R. F. KEITH'S THEATRE

McWaters and Tyson, one of the best of "bit time" dancing and comedy acts, opened up as headliner for the remainder of the present week, at the R. F. Keith theatre yesterday. The work of the pair is of the very highest order, and the act pleased wonderfully well. Kharum, the Persian juggler, is another bit of this week's bill. His playing is specially finished, and he does not tackle a jazz number in his program. Lloyd & Wells, mermaids of the colored negro, are lively, while Anderson & Graves, in a reharist comedy, present a specially attractive sketch. Other acts on the week's bill are: The Four Ortons, a singing quartet, and Madden, the jazz juggler.

THE STRAND

Tom Moore and his happy, smiling countenance finds fertile material in

"Dude," the feature number of the big program at the Strand the latter part of this week. It's a new kind of story for Moore and he makes many new admirers in it. William Russell, in "Leave It to Me," is the other good thing that will give balance and pleasure to the patrons. Besides these two features there is an excellent comedy and a new weekly. Watch for our big double-feature program. Regular matinee this afternoon. Tonight is the Boston college concert.

OPERA HOUSE

The enthusiastic reception accorded the popular Lowell Players in their farewell presentation, "The Heart of My Heart," a delightful comedy drama of the present day, reflects very forcibly the warm spot the members hold in

the hearts of the playgoers of Lowell and vicinity. Never were audiences more liberal in their recognition of things well done than they have been this week. Miss Fields and the rest of the cast should feel particularly flattered at the genuine warmth of the reception accorded them. Tomorrow afternoon the Players will hold a public reception on the stage immediately after the performance and the patrons generally are cordially invited to attend. Come and meet the Players. They will be anxious to meet all. And don't forget Saturday night is good-bye night.

MEMORIAL SQUARE THEATRE

Do you believe there is a significance in the things you dream or are you convinced that dreams are the results

of indigestion or an uneasy conscience and mean nothing? There is food for thought on this score as well as rare entertainment of an unusual character, in "The Dark Mirror," in which pretty Dorothy Dalton is featured at the Memorial Square theatre on the current program. Robert Warwick, the noted dramatic star, in "Thou Art the Man," is the other feature and the International News, a comedy and a Burton Business travel picture round out the program.

DOWL THEATRE

Some people have already seen "The River's End" twice this week, so good is this picture of the great northwest. It is a picture that appeals to men and women alike, because of its elemental strength, the beauty of the story it tells

and the way in which it is told. The tradition of the Royal Northwest Mounted Police is strikingly told in this film. That tradition is "Get your man if you have to go to the end of the world." Derwent Conniston got to the end of the world one might say, for after three years, he got his man under the arctic circle. Murderer and captor, trekking back over the snowy wastes, get to know each other. You will want to see what happens then. Added attractions for the remainder of the week include a real novelty, Comedy, an episode of the "Roast City," starring Juanita Hansen, a Harold Lloyd comedy, "His Royal Snyss," and a news reel. Come in the afternoon and see this show if you possibly can. For the nights are pretty busy, so the records say.

TO LAY KEEL OF WORLD'S BIGGEST WARSHIP

QUINCY, May 28.—The keel of the world's biggest warship will be laid down here within six months. The battle-cruiser Lexington, combining in a degree unequaled by any ship of war now built or building the qualities of powerful armament and high speed, has taken form in drawings and awaits the arrival of materials to be advanced from the hands of the architect to those of the builder. By fall, it is estimated, the prospective queen of the United States navy will become a ship under construction instead of an ambitious plan.

The Lexington is the name-ship of a class of battle cruisers which will give Uncle Sam within four years a fleet

of six big gun fighting ships: unmatched by anything then afloat. Her sister-ships, the Constitution, Saratoga, Ranger, Constitution and United States, are also under contract. They bring names out of the old navy which to develop for the first new capital vessels of the post-war fleet a traditional background for fresh exploits.

With the others of its class, the Lexington will be a whale of a ship. It will displace 43,200 tons and will have the power of 160,000 horse, as measured in mechanical terms. Its length of 374 feet is within 16 feet of the length of the Leviathan, monster passenger liner. The 101.4 feet of width of the Lexington will make that floating gun platform broader than any passenger ship.

The Lexington, which is to be equipped with electric drive, will attain a speed of 35 knots. This cruising speed, higher than that of many destroyers, is the object of much of the designing that entered into the

Lexington have equipped the ship with four anti-aircraft guns, eight torpedo tubes, four of which are submerged and four on deck and with means of defense against aerial bombs and aerial torpedoes. Defense against submarine torpedoes will be obtained through fore and aft torpedo defense bulkheads, by which the stability of the vessel will be preserved no matter where she is pierced. Under any conditions but an explosion, it is claimed, the Lexington class of warship should prove unsinkable.

An indication of the Lexington's greatness is afforded by comparison with British warship Hood, which when it is floated will be the biggest ship in the British navy and afloat.

RED PILLS are especially suited to women and young girls who are pale and thin, tired and nervous

Pale, Weak and Nervous

I was very nervous, pale, and so weak that I could not even digest my food right. The physician who was attending me had definitely told me that he did not expect to be able to cure me, but simply to give me relief. My case was called: "Nervous indigestion." Just one of my relatives still had confidence, for she was a fervent believer in RED PILLS for Pale and Weak Women, and finally persuaded me to give them a trial. I took them regularly and was pleased to notice a decided improvement after a few months of treatment. At the end of a year, my different ailments had gradually disappeared and I began to take on flesh. As my household duties are rather trying at times, I have resolved that I will take a couple of boxes of RED PILLS for Pale and Weak Women from time to time, just to keep my strength up.

RED PILLS, Her Friend for Fifteen Years

It is now fifteen years since I first became acquainted with RED PILLS, and I may safely say that they have been my salvation during that time. I was the mother of fifteen children, so that my daily duties were indeed very strenuous and at times trying. I was tired and feeling ill at ease. RED PILLS proved themselves once again, they helped me to regain my strength, saved me from any serious sickness and made me fit to attend properly to my various household duties.

RED PILLS, the Best Tonic

Being the mother of seven children, and having to attend to all the household duties, besides looking after my children, I naturally gave way and became weakened, and suffered severely from indigestion. Having so often read of the various cures effected by the use of RED PILLS, I decided to give them a trial, and after taking them for three months, I was delighted to notice that I was getting stronger and that my health was improving in many ways. Since that time I have firmly made up my mind that I will always take RED PILLS whenever I feel the need of a good tonic to build me up.—Mrs. J. BERUBE,

Eczema Caused Years of Intense Agony

"I have suffered intense agony from eczema on my leg and other parts of my body for years, and received only temporary relief from other preparations. It is only a month since I started to use PETERSON'S OINTMENT, and there is no sign of eczema or itching. You can refer to me."—Geo. C. Talbot, 21 Penfield Street, Buffalo, N. Y.

"I've got a hundred testimonials," says Peterson of Buffalo. "Just as sincere and honest as this one. Years ago, when I first started to put out PETERSON'S OINTMENT, I made up my mind to give a big box for 25 cents, and I am still doing it as every druggist in the country knows."

"I guarantee PETERSON'S OINTMENT because I know that its mighty healing power is marvelous. I say to every one who buys a box that it is rigidly guaranteed for eczema, salt rheum, old sores, blind bleeding and itching piles, ulcers, skin diseases, chafing, burns, scalds and sunburn, and if not satisfactory, any druggist will return your money." Mail orders filled by Peterson Ointment Co., Inc., Buffalo, N. Y.—Adv.

SHE'S FIRST WOMAN CABINET MEMBER

BERLIN, May 26.—Dr. Gertrude Baumert is the first woman to be appointed to the German cabinet and is said to be the first woman cabinet executive in the world. President Ebert recently made her minister of home affairs. One of her duties will be to look after the public school children of the nation. She has been a member of the national assembly for some time.

Fourteen-year-old Jesse Windfield Chase, a boy in the eighth grade of the Haverhill schools, not only beat all the others in the food conservation class by putting up 133 cans and jars of fruits and vegetables last season, but by doing odd jobs night and day he earned all the money needed to buy the jars, the sugar, the fuel, and the food he canned.

UNION SERVICE IN WESTFORD CHURCH

The American Legion, Civil and Spanish war veterans and Sons and Daughters of Veterans of Westford will attend a union service which will be held Sunday at the Westford Unitarian church. The veterans will meet at the town hall at 10 a. m. and will march to the church. At 1 o'clock they will assemble at the town hall and visit all the town cemeteries, where

services will be held. The memorial sermon at the church will be delivered by Rev. W. A. Anderson.

The concert on the common Memorial day will be given by the Abbot Worsted Co. band and free transportation between Forge Village, Granville and Westford will be furnished on that day by the Abbot Worsted Co., which will operate trucks between the hours of 8.30 a. m. and 5 p. m.

CHURCH ENTERTAINMENT

"A Gilded Youth," a humorous three-act play, was staged by the Upstreamers' Bible class of the First Congregational church last evening before a large audience in the vestry of the church. Those who took part were Earle Ireland, Joseph Hollingworth, H. S. Deaham, Elmer Trevors and Edward Alcott. The play was presented under the direction of Mrs. Haskell

CATARRAHAL DEAFNESS MAY BE OVERCOME

If you have Catarrhal Deafness or are even just a little hard of hearing or have head noises, go to your druggist and get 1 ounce of Farman (double strength), and add to it 1/2 pint of hot water and a little granulated sugar. Take 1 tablespoonful four times a day.

This will often bring quick relief from the distressing head noises. Clogged nostrils should be open, breathing become easy and the mucus stop dripping into the throat. It is easy to prepare, costs little and is pleasant to take. Anyone losing hearing or who has Catarrhal Deafness or head noises should give this prescription a trial.—Adv.

MY DENTISTRY MUST MAKE GOOD or I WILL

Use Dr. King's Mouth Wash

What I mean by the above statement is just this—My work must be better work than you are able to get elsewhere—no patient is allowed to leave my office until he or she is fully satisfied—and no work is ever called finished until I am satisfied, and I assure you that I am far more particular than you are, no matter how hard you are to please.

Why is it That Dr. King Does Such Wonderful Dentistry and Doesn't Hurt You in the Least?

Because the King Safe System of Painless Dentistry is sure in 90 out of 100 cases—this surely means a great deal to those of you who dread the thoughts of having your teeth fixed.

READY FOR BOUTS IN LAWRENCE TOMORROW

LAWRENCE, May 28.—The biggest crowd in the history of fight circles in the east is expected to flock to Cuddy Brothers arena tomorrow afternoon when the Atlas A.A. will stage an all-star show, including three 12-round bouts and one six-rounder. Owing to the fact that Benny Valer is in a hospital in St. Louis, where he will be operated upon for appendicitis, and Joe Wellington injured his hand in his bout with Rocky Kansas at Buffalo Monday night, Johnny Cuddy has been obliged to make changes, yet he has arranged the program so that it will be even stronger.

Johnny Dundee will meet Jack Lawlor of Omaha, Nebraska. The latter has been going in wonderful shape, and in a previous meeting with Dundee was favored with a newspaper decision. Lawlor has also beaten Benny Valer and Willie Jackson.

Harry "Kid" Brown, the sensational Philadelphia featherweight, will meet Freddy Jacks. The featherweight champion of England, Brown is an exceptionally clever boy and last Monday night in Philadelphia fought Johnny Kibane and gave the featherweight champion the toughest battle in his career. Jacks, too, is very clever and this bout should be a hummer.

Mel Concan of Brooklyn will meet Pat Moran of New Orleans. Moran is taking the place of Wellington. Moran is another star in the lightweight class and has been beating all the boys in his class. He has been after Benny Leonard for some time but the champion has always sidestepped him. Moran defeated Frankie Britt in New Bedford over a week ago, sending Britt to the floor several times, and in the 11th round sent the New Bedford boy through the ropes.

"TOM ED" STILL THERE

Shows Rising Generation How to Play National Game

Who said Tom Ed Smith was all-powery? Just let him consult any member of the Broadway or Liberty square clubs. These two organizations lined up in battle array on the North common yesterday afternoon and they do say that it was one wonderful game of baseball.

The Broadways were captained by Tom Ed and the Liberty square boys by Tom McCarthy. The Liberty square team won by a score of 7 to 8, but it wasn't Tom Ed's fault. He played every position in the field and played it to the fans' taste. He stole bases enough to keep him in fall for the next ten years—if base stealing was a prison offense.

The Liberty square team and its rooters quite freely admitted last evening that as a speed artist, Tom Ed is in a class by himself. "Tom Ed is like old wine," said one, "who seems to improve with age."

Well, anyway, it was a great game, and both clubs are looking forward to many more during the summer months. Pat Doherty was pitcher for the John Normandy catcher for the Liberty square club and in relative positions for the Broadway organization were John Madden and Fred Lambert.

Improved fishing conditions have made the port of Grimby one of the richest towns of its size in England.

CHICAGO, May 28.—Summer Veasey, captain of the University of Chicago gymnastic team in 1917-1918, and national intercollegiate tumbling champion, is in a hospital, his lower limbs paralyzed as the result of a fall from his motorcycle. It is said his back is broken and he may not live.

CARMEN WIN FIRST MERCANTILE GAME

In a Mercantile league game on the South common yesterday afternoon the Eastern Massachusetts Street Railway men defeated Bon Marche by the score of 5 to 1. For the first four innings, the department store kids had a winning edge, but this disappeared in the fifth when the champions of the ball cord and air brake broke loose with three runs. Two more scored in the sixth and another in the ninth made the winners' total eight. The Bon Marche threatened in the eighth, but were able to push over only one run.

The score:
Street Railway.....0 1 0 1 3 2 0 0 1—8
Bon Marche.....0 1 2 0 0 0 0 1—1
Batteries: Smith and Booth; Rhodes and Park.

LOWELL BOYS IN NATICK BOUTS

Jimmie Mahan and Frankie Walsh, both of Lowell, appeared in the star boxing show at Natick last night. Mahan boxed Young McDonald, "the fighting leeman," and while the Lowell boy had the lead, his right hand went bad in the sixth round and his manager, B. Ireland, tossed the towel into the ring. Mahan could have continued, but as he has a bout on for tonight, his manager decided to take no chances.

Frankie Walsh met Mack Murphy of Atlanta and the pair engaged in a whirlwind eight round draw. Walsh made a big hit with the fans, as his opponent outweighed him, yet he assumed the aggressive practically all the way.

SIXTH WEEK OF BOWLING TOURNEY

High scores continue to be put up in the big handicap bowling tournament at the Crescent alleys. The tourney is now in its sixth week, and while many records that may stand for some time have already been set up, local marksmen continue to tootle the blind over with remarkable accuracy and many feel that new records will be reached before the grand finale. The system of handicapping, worked out under the expert direction of Walter Jewett, equalizing the bowling, gives every man who enters a chance to get into the prize money.

The leaders in this week's rolling, including last night's scores, follow: Individual: Hayden 249, Sullivan 238, O'Brien 332, Dr. Hewson 339.
Two men: Lindsey and Hewson 673, Harrell and McNulty 644, McDermott and McQuade 644, O'Brien and Estes 640.
Three men: Buckley, Flynn and Brigham 979, McQuade, Gendron and McDermott 943, Lebrun, Johnson and Jewett 939, Schonborn, Sweeney and Flinders 936.
Five men: Myrick, Concannon, Johnson, Lebrun and Donahue 1571, O'Brien, Schonborn, Johnson, Flinders and Estes tied with Myrick, Concannon, Johnson, Lebrun and Jewett at 1573; Lindsey, Whitlock, Espinola, Finnegan and Hewson 1567.

Prizes for the week's bowling will be awarded at the close of competition tomorrow night.

NAVAL COURT RECORDS
SUBJECT OF TESTIMONY

WESTERLY, R. I., May 28.—The records of a naval court of inquiry which investigated vice conditions at Newport a year ago last March, were the subject of testimony at today's session of the naval court which for the past four months has been considering charges that vice investigators at Newport were guilty of practices which they were assigned to wipe out.

John R. Rathom, editor of the Providence Journal, a principal witness in support of the charges, having finished his testimony yesterday when he was recalled at the request of Assistant Secretary of the Navy Roosevelt, it was expected that the sessions of the court would close finally today. Mr. Roosevelt was not expected to take the stand again, although he had come from Washington to be present during Mr. Rathom's testimony. The inquiry has taken more than 50 court days.

Ensign Henry J. Hyneman, the judge

advocate, called as witnesses regarding the proceedings of the former court of inquiry Captain John J. Hyland and Lieut. Lester W. Cooch from the Boston navy yard. Captain Hyland was formerly acting commandant of the first naval district, and Lieut. Cooch was his legal aide. Lieut. E. M. Hudson, one of the members of the court of a year ago, and later chief of the anti-vice squad, attended the proceedings today.

Editor Rathom, yesterday declared his belief that a statement made by the form of a question by Judge Advocate Henry J. Hyneman was "part of a plot in which the secretary of the navy and the assistant secretary of the navy are involved to injure and degrade me."

UMPIRE QUESTION
UNDER DISPUTE

A difference in opinion as to the man who would be selected to umpire the Pitts' South Ends-Knights of Columbus game at Spaulding park next Monday afternoon, almost wrecked the entire arrangements last night, when Managers Foye and Lyons met to discuss further plans. Finally the matter was ironed out, leaving two men to select from, each of whom would be acceptable to both teams. Arrange-

ments have been made to run special electric on the afternoon of the game to care for the large crowd going to and from the park.

The rival managers have posted the following players to pick from: Pitts' South Ends: White, H. Lyons, R. Jenkins, A. Jenkins, McCarty, Freeman, Devlin, McMahon, O'Day, Green, Gallagher.

Knights of C. W. Foye, R. Foye, Scully, McVey, Reynolds, Cawley, Lynch, Murphy, Souza, Cordingly, Dillon, Twomey.

Pres. Wilson Orders Wreath
to be Placed Upon Statue
"The American Doughboy"

PARIS, May 27.—President Wilson has ordered a Memorial day wreath of flowers to be laid upon the statue, "The American Doughboy," in Suresnes cemetery, and Ambassador Hugh C. Wallace will deposit it there on Sunday.

At Pichpus cemetery where lies the body of Lafayette, Col. Drake of the Memorial day committee will preside and will make a short address, to which Marquis Chamberlain, grandson of Lafayette, will reply.

A message from Major General James G. Harbord, who commanded the Second Division in the battle of Belleau Wood, will be read on that field.

Memorial Ode to Americans

A memorial ode to American volunteers fallen for France, written by Allen Seeger, a member of the French foreign legion, who was killed in September, 1918, will be read in all American cemeteries where members of the American Legion participate. It was to have been read by the author before

the statue of Lafayette and Washington in this city on May 30, 1917, but Seeger met his death in the midst of the French offensive of the Somme, at Bailly-en-Santerre, soon after penning the lines.

Wreath on Seeger's Grave

George Courtlines and Louis Marsolieu, widely known French poets, told the Associated Press this afternoon that a special wreath of flowers inscribed, "From the Poets of France" would be placed upon Seeger's grave on Memorial day.

Lieut. Col. Frank Parker, who is scheduled to make an address at the Pichpus cemetery, was today asked for an outline of his speech.

"Speech," he replied. "I am not going to make a speech on Memorial day. I am going to talk to those boys of mine who are lying up there just as I talked to them when they were living."

Major O'Ryan to Speak
Major General John F. O'Ryan, who is now in London, will speak at Bony, where many of the brave soldiers of the 27th Division fell.

Rear Admiral Harry McL. P. Huse will be the principal speaker at Belleau Wood.

A touching tribute is planned by the Union of Sporting Federations of

France, of which Gaston Vidal is president. It has decided to place a special wreath upon the grave of John Overton, Yale athlete and champion mile runner, who was killed during the early days of the great allied offensive. Guillemet, the French champion mile runner, has been chosen to deposit the flowers upon Overton's grave.

In the absence of Andre Lefebvre, minister of war, Premier Millerand has sent instructions to all the 26 army corps of France, as follows:

French Army to Assist
"The French army will participate in the ceremonies held in principal cemeteries where the American soldiers, especially Belleau Wood, St. Mihiel and Chaumont."

Gaston Vidal, president of the Union of Sporting Federations, has issued a circular to all sporting federations in France, saying:

"May 30th is a day of mourning in America, but it is also a day upon which sporting events assume a prominent place. Let us mourn the American dead, but in the final elimination contests which will choose athletes for participation in the Antwerp Olympic, let us do our best. Hats off to the American dead. Let us dig our spikes in the track and beat the American living."

ANGLO-IRISH RELATIONS

Not Affected by Visit of Prominent Irishmen to Rome—Pope's Views

LONDON, May 28.—Anglo-Irish relations will not be affected by the visit of many prominent Irishmen to Rome, in connection with the beautification of Oliver Plunkett, first bishop of Armagh, says the Rome correspondent of the Daily Mail. Sean O'Connell, president of the Irish parliament, was asked whether the visit of prominent Irishmen to Rome would result in any improvement in relations between their country and England, and O'Connell replied: "None whatever."

"While it would be wrong to say Pope Benedict has departed from his policy of non-interference in the national affairs of Europe," the correspondent writes, "information has been received that he has expressed his pain and displeasure over the continuance of crime in Ireland. If his words have been veiled in diplomatic language, they nevertheless have revealed a definite state of mind—that no solution can ever be reached by one party murdering another. The pope is keenly desirous of peace everywhere and if he can in any way bring his moral support into play, he will do it."

HELD ANNUAL WHIST PARTY AND DANCE

The annual whist party and dance of the Massachusetts State Infirmary Alumnae Association of Nurses was held in the new town hall in Tewksbury Center last evening. Many of the graduates nurses of the infirmary and their friends from the town, Lowell, Boston and Lawrence were present. The proceeds of the dance will be turned into the treasury for the establishment of a sick relief fund for the alumnae members of the organization.

The speaker of the evening was Dr. John H. Nichols, superintendent of the state infirmary, and his remarks were in the form of greeting and welcome to the alumnae. He also paid a tribute to the excellent fitness of the town hall for such an event and mentioned briefly the fact that the members of the organization should feel gratified upon its success, which was their first in the new building.

The hall was decorated with ferns and flowers furnished by Patrick Nash, the florist at the state infirmary. The results of the whist contest during the evening were as follows: First gentleman's prize, Francis J. O'Hare; second, Arthur Blaisdell; first lady's prize, Miss A. C. Lausman; second, Miss Marion French, and consolation prizes to Mr. S. J. Ward and Miss Boutillier.

The Alumnae association was organized in 1902 and since then the first revision of the by-laws was made in 1905 and the second in 1919. The present membership is 258.

Miss Anna Dwyer, a public health nurse of Lowell, was chairman of the dance committee. Those who acted her were Mr. Louis Farmer, as floor director, Dr. George Pierce, Dr. William Hanson, Mr. John Flynn, Mr. William Kelly, Mr. Robert Day and Mr. Patrick Goodspeed. Mrs. Louis Farmer, past president of the association and now of Tewksbury, was chairman of the entertainment and she was assisted by Miss Annie McKillop, of the Tubercular hospital, Lawrence; Miss Leader, an industrial nurse of this city, and Mrs. A. G. McDonald. This committee made arrangements for the presence of Dunlop's orchestra at the dance. Mrs. Frank W. Mason of the state infirmary was chairman of the refreshment committee, and she was assisted by Mrs. Dawling, Miss Calder, Miss Hurley, Miss Chisholm, Miss Barnhill and Miss M. F. Dunn, all of the infirmary.

Those in charge of whist were Mary, Blordan, a public health nurse of this city, and Mrs. H. Otto. The treasurer of the affair was Mrs. Annie Taylor of the infirmary.

The officers of the alumnae association are Mrs. Frank Mason, president; Miss J. Calder, vice-president; Miss G. Howlett, treasurer; Miss M. Barnhill, recording secretary; and Miss Florence Chisholm, corresponding secretary.

Mrs. Frank Mason today expressed thanks to all, especially Dr. Nichols, who had done so much towards the success of the dance, and to Mr. Eugene Patterson, the janitor of the town hall, who was formerly an employee of the state infirmary for 33 years.

The services of Mr. Anthony Kelly, the police officer who was present, were greatly appreciated, as were those of Mr. Irving Rich, who drove the jitney back and forth between the infirmary and the town hall.

On or about June 10, the minstrel show which was presented by members of the staff in the state infirmary a short time ago, will be presented in the town hall.

SLIGHT CLASH IN THE FORD FAMILY

The junction of Princeton and Rutland streets was last evening the scene of an automobile accident, when a Ford sedan and a Ford touring car crashed. Both machines were badly damaged, but fortunately no one was seriously injured.

It seems that the sedan, driven by a woman, was going along Rutland street, while the touring car, operated by a man, was coming cityward. When the junction of Princeton and Rutland streets was reached the two motorists in an endeavor to dodge each other, turned sharply, but unfortunately in the same direction. The touring car was completely overturned, but its two passengers were only slightly injured. The occupants of the sedan escaped with only a shaking-up. The touring car was towed to a nearby garage, but the sedan was able to continue on its way. The names of the operators of the machines could not be learned, as the accident was not reported at the police station.

BOLSHEVIK UPRISING

CRUSHED BY ARMENIANS

CONSTANTINOPLE, May 28. (By Associated Press.)—Armenians have crushed the Bolshevik uprising against their government in Erivan and a loyal Armenian army is now in control of Alexandropol, according to a message received from the Armenian capital by M. Pokotian, Armenian diplomatic representative at Tiflis.

Gen. Khachadorian, an Armenian commander who recently revolted and who was in charge of an armored train which made Bolshevik control of Alexandropol possible, was killed during the fighting before that city and his associates fled when the loyal troops captured the train.

PULP WOOD

Exports From Canada to U. S. Show Decrease

WASHINGTON, May 28.—Exports of pulp wood from Canada to the United States, in the 11 months ending with February, amounted to only 799,828 cords, against 1,099,107 cords in the corresponding period of the preceding year, according to a report received here from the American consul at Kingston. February exports were 52,351 cords, a decrease of approximately 35,000 cords from the same month last year.

The value of pulp and paper exports in the 11 months' period, on the other hand, increased to \$22,000,000 from \$14,000,000 in the corresponding period of the preceding year, with the February increase amounting to \$2,226,000.

NOVEL PLAN TO GET SPEEDING AUTOISTS

ATHENS, Greece, May 28.—Police-men of this city have an effective method of curbing speeding autoists. Officers posted along the principal streets carry planks studded with long sharp nails and when they see a car approaching at a rate they believe is excessive, they drop the plank in front of the machine. If the car is speeding, it cannot be stopped in time and as a result its tires are punctured, but if the machine is proceeding at a reasonable pace it can be stopped before the plank is reached.

The chief of police finds the system is cheaper than maintaining a motorcycle squad, and has the additional advantage of making the capture of speeders comparatively easy.

MEMORIAL MONUMENT BIDS CALLED FOR

A big step toward the realization of the hopes of people of Pawtucketville, who have been working for the past eight months on plans for the erection of a monument to their heroes of the world war, has just been taken, when the committee in charge of the monument, Rev. Arthur G. Lyon, pastor of the Pawtucketville Congregational church; William H. Rigby and Cornelius F. Cronin, instructed Harry Prescott Graves, architect of the proposed monument, to call for bids.

As soon as these are received the contract will be awarded, if possible, to a Lowell firm. The committee hopes to have the monument in place and ready for dedication by the latter part of the summer.

CHINESE STARCH WAS PLAIN "JAKE"

An employee of the Ocean Mills Co. of 463 Commercial street, Boston, was arrested here this afternoon for illegally selling liquor. He drove a new Red truck loaded with stock labelled as "Chinese starch" and was peddling it to the smaller stores in this city.

The machine was very beautifully lettered "Grocers and Druggists Specialists." All the packages and boxes of the Chinese starch described the goods as excellent for laundry work, but on inspection the police found that the starch was "jakey." The load was transferred to the wine cellar of the police station and the driver of the truck was released after word was sent to the Boston firm and he drove the truck back to Boston.

Sound Riot Call

stones were thrown. Some of the girl clerks were roughly handled by other women who pulled their hair, tore at their clothing and threatened them with injury if they went to work.

At the factory a squad of factory guards advanced to meet the police and the workers were escorted inside the plant. Some of the crowd attempted to follow but were forced back. Three of the guards, John McQuaid, John Sullivan and George Gillis, were struck down by stones, and seeing them down, other guards drew their revolvers and fired. Angelo Pedro was shot in the right arm and Francis Costello was wounded in the abdomen. According to strikers, Costello, a rubber shop employee, was standing in a doorway and was not taking part in the demonstration. He was removed to the Rhode Island hospital in Providence.

A riot call sounded on the fire alarm called out all available reserve officers.

FIRE IN ALKEN STREET

House 5 was called to rear No. 6 of 252 Alken street by an alarm from box 138 at 3:35 this afternoon for a fire in a room in the block at that address. The damage was confined to the loss of several curtains and the scorching of paint.

REAL ESTATE CASE IN SUPERIOR COURT

In the superior court, before Judge Fosdick, this morning trial was begun of the suit of Mohamed Ahmed against H. E. Coburn for the recovery of \$200 involved in a real estate transaction. It was alleged by the plaintiff that the rental value of certain property had been misrepresented to him, and he asked for \$200 claimed to have been paid as a brokerage commission.

In the course of the evening a musical program was given and a buffet luncheon was served.

He said he had convinced them that they were making too great profits.

Diaz Friendly With New Regime

VERA CRUZ, May 28.—(By Associated Press.)—Felix Diaz, who was reported yesterday to have assumed an attitude hostile toward the new regime in Mexico has, in fact, notified the authorities that he is friendly to the government. He is at Minilla, and is awaiting an opportunity to leave the country in accordance with the desire he expressed some time ago. He is awaiting the decision of the new government relative to his quitting Mexican soil. Authorities here have received this definite information from Diaz and have forwarded it to the capital.

Extend Quarantine Against Corn-Borer

WASHINGTON, May 28.—Quarantine against the European corn-borer covering an infested area in western New York, has been extended to include the Dunkirk section, said an announcement today by the department of agriculture. Damage thus far in the New York area, officials said, had been very slight. Small parts of New Hampshire, Massachusetts and Pennsylvania also are under quarantine and in these areas, particularly in Massachusetts, it was said, the insects are proving more destructive.

Bolsheviki Advancing in Kiev Region

LONDON, May 28.—The Bolsheviks are advancing in the Kiev region, and are engaged in fighting on the second fortified line of the Poles northeast of that city, it is announced in Thursday's official statement by the soviet government received by wireless from Moscow today. The statement says the fighting line runs 10 miles north of Drovori village. This village lies about 10 miles directly east of Kiev.

PLAN FOR THRACE BATTLE

Turks and Bulgars Would Reduce City to Ashes Before Leaving it to Greeks

CONSTANTINOPLE, May 28. (By Associated Press.)—Moslem leaders in the vilayet of Adrianople, in European Turkey, are sending their families to this city in anticipation of fighting when the Greeks attempt to occupy Thrace. Christians, however, are not permitted to leave their homes in that region. Just before the conclusion of the recent Turkish congress in Adrianople, the presiding officer declared that an agreement to defend Thrace had been reached between the Turks and Bulgarians.

A mass meeting was held at Rodosto 60 miles northeast of Gallipoli, on May 22, the keynote of the addresses made being, it is said: "We shall reduce Thrace to ashes before leaving it to the Greeks."

Many of the speakers and prominent men in attendance took oath upon the Koran to defend Thrace.

LAWYERS ATTACK JUSTICE DEPARTMENT

WASHINGTON, May 28.—Charges that the department of justice has committed "continual illegal acts" in connection with its recent campaign against radical activities, are contained in a report by a special committee of lawyers made public here last night by Judson King, executive secretary of the National Popular Government league. Mr. King said the committee had prepared its report under the auspices of the league and that its conclusions and exhibits, contained in a pamphlet, were being distributed by the league throughout the country.

Men who composed the committee were: R. G. Brown, Memphis, Tenn.; Zechariah Chafee, Jr., Roscoe Pound and Felix Frankfurter of Harvard University; Ernest Freund, Chicago; Swinburne Hale, New York; Francis F. Kane, Philadelphia; Alfred Stiles, Baltimore; Jackson H. Ralston, Washington, D. C.; David Wallenstein, Philadelphia; Frank P. Walsh, New York; and Tyrrell Williams, St. Louis.

They grouped their charges against the department under six heads, as follows:

1. Cruel and unusual punishments; arrests without warrant; unreasonable searches and seizures; prosecutive agents; compelling persons to be witnesses against themselves; propaganda by the department of justice.

Appended to the report are more than a score of "exhibits" some of them photographic reproductions of documents connected with various cases under discussion; many affidavits of individuals who were arrested in the raids and also copies of what are stated to be confidential instructions sent by department officials to its agents. As to all of this matter, the report says that "it is to the best of our knowledge and belief (based upon careful investigation) truthful both in substance and detail" and that it was drawn mainly "from the four centers of New York city, Boston, Mass.; Detroit, Mich.; and Hartford, Conn."

NOT A CHANCE OF OVER-RIDING VETO

WASHINGTON, May 28.—Republicans generally conceded today that there was not a chance of overriding the veto on the question of repealing the peace resolution which the president yesterday sent back to congress unsigned with the statement that he could not agree to such a program because he considered it would place "an ineffable stain" on the nation's honor.

Leaders predicted that the house vote would fall short only a few votes of the required two-thirds majority, but said an attempt in the senate to override the veto would be hopeless. A record vote, however, had been planned in order that the matter might be disposed of promptly and in order that the records might show that Mr. Wilson and not congress was to blame because the nation continued technically in a state of war with the central powers.

Both senate and house leaders for the most part refrained from discussing the situation further than to reiterate that the issues of the treaty might be fought out in the coming political campaigns unless the president soon again submits the treaty to the senate, contemplation of which he did not indicate in his veto message yesterday.

TEXTILE STRIKE ENDS

New Bedford Operatives Lost \$1,000,000 in Wages During Four Weeks' Strike

NEW BEDFORD, May 28.—Although the textile strike at the 18 cloth mills in the city was officially called off last night by the Textile council, following the vote of the various unions, there was little change in the number of operatives reporting for work today. The majority of the striking employees voted to return to their machines on Tuesday next when the 15 per cent. increase in wages goes into effect.

HAD "MOONSHINE" IN HIS AUTOMOBILE

Charged with unlawfully keeping liquor, Ferdinand J. Bergeron, a resident of this city, was brought in police court this morning and through his counsel he entered a plea of guilty. Bergeron was arrested in Cross street last evening by Officers Wilson and Clark, who claim the man had ten gallons of "moonshine" in his automobile. Bergeron informed the court the liquor was given him by a stranger last evening and in order to give the police a chance for further investigation, the case was continued for a week.

Louis Terid, who a few days ago was brought before the court on a charge of allowing his automobile to be operated with wrong number plates had his case placed on file this morning after it was found that it was through a misunderstanding that the misdemeanor was committed.

It seems that Terid had filed an application with the high commissioners for number plates and he was under the impression that pending the arrival of the plates he could use old ones.

Claude E. Ballow and Edna Pappas and Albert H. Francis and Marion Richards were charged with statutory offenses. The quartet pleaded guilty and sentences were imposed as follows:

Ballow, \$50 fine; Pappas, prison for women at Sherborn; Francis, \$15 fine and Richards, three months to the house of correction. The Pappas woman appealed.

Harvey Meltons, charged with drunkenness and larceny had his case continued until tomorrow, while the case of Frank Garneau, charged with assault and battery was put over for a week.

SETTLEMENT BY AGREEMENT

In the case of Joseph H. Hibbard vs. the Mineral Soap Manufacturing company, that was on trial before Judge Jabez Fox in the superior court yesterday afternoon, a settlement by agreement was reached this morning.

Mr. Hibbard sued to recover salary alleged to be due him from the defendant company, which he helped to organize.

Brilliant Spectacle

Continued
the second; blue by the third; yellow by the fourth; and green by the fresh men.

In effective contrast to the daintily dressed girls, marched the well set up regiment of boys. They marched splendidly under the command of Col. E. Sterling Pratt and staff composed of Lieut. Col. Raymond J. Crowley, Regimental Adjutant Alder C. Bourgeois

and Regimental Quartermaster Edward B. Ball.

The first battalion, Major Homer Bourgeois in command, with Battalion Adj. Harry L. McDonough, included Companies A, B and C. The commissioned personnel was as follows: Company A, Capt. Maurice L. Lawler and Lieuts. George A. Gagne and Richard F. Chase; Company B, Capt. William A. Thompson and Lieuts. Arthur J. Riley and Ernest Anderson; Company C, Capt. William B. Kelley and Lieuts. William N. McCann and Raymond E. Denovan.

Major Bruce Kimball commanded the second battalion, with John J. Sullivan as battalion adjutant. The three companies in this battalion were: Co. D, Capt. George W. Stewart, Jr. and Lieuts. Andrew D. B. Peverill and Victor G. Vevers; Co. E, Capt. Douglas J. Walker and Lieuts. William J. Shea and Harold K. Gordon; Co. F, Capt. Nicholas Kefauver and Lieuts. Allan MacKenzie and E. A. LeBlanc.

An entirely new wrinkle was the portion of the parade given over to the freshmen boys in charge of Donald MacIntyre, physical instructor. They wore long, white duck trousers, white shirts with black ties and although a new innovation, proved to be a distinct feature of the exercises. The school file and drum corps provided them with a fine marching cadence.

The line of march continued through Merrimack and Central streets to Church and Andover to the latter's intersection with High, where special electric lights were waiting to cover the balance of the journey to the park.

The exercises started at approximately 2:15 o'clock with a salute to the colors. The program ran as follows:

Prize drill.
Companies C, E, F
Ward and Junior High Drill
Sophomore Girls
Pyramids and Tumbling.
Freshmen Boys
Individual Competitive Prize Drill
Dance—Acrobatic.
Freshmen Girls
Gymnastic Marching.
Freshmen Boys
Buttrick and Calisthenics.
Boys' Regiment
Sword Drill.
Girl Officers
Junior Girls
Regimental Parade and Presentation of Prizes.

The most beautiful medals ever given for the first and second place winners in the boys' individual prize drill were on display. One of gold and the other of silver, they were identical in every other detail. They were in the shape of laurel wreaths hung from a bar pin, with crossed rifles. In the center of each was a raised monogram of the initials H.S.R. (High School Regiment). Consolation prizes for the 11 boys failing to win one of the two medals were given this year for the first time. They were 15 pound boxes of candy, the gifts of the members of the school committee.

Sixty applicants for chauffeurs' licenses were examined today at city hall by inspectors Habbell, Hardy and Hailley of the state highway commission.

The water tower of the local fire department was given a thorough trial in Cabot street yesterday and Chief Saunders was much pleased with the result.

Miss Lauretta Gauthier of Sarah Avenue, who on May 31, will be married to Mr. Ernest Gagne, was tendered a miscellaneous shower at her home Wednesday evening. The affair was attended by about 50 young women and the hostess of the evening was presented numerous appropriate gifts, including a handsome set of dishes. Musical numbers were given and a buffet luncheon was served. The com-

mission in charge of the event consisted of Misses Louise Latham, Elaine Roux, Bernadette Gagne and Germaine Lemire.

Miss Catherine C. Dick of 34 Vermont street, a popular Centralville young woman, was the guest of honor at a birthday party given last evening at the home of Miss Irene P. Donnelly, 182 Perry street. Thirty-five friends of the young lady assembled to extend their congratulations and a most enjoyable evening was spent. Victrola and piano selections, solos, dancing and games were included in the program and a buffet luncheon was served. Miss Dick was the recipient of many beautiful and valuable gifts and it was well along in the early hours of the morning before her friends departed, wishing her many happy returns of the occasion.

A very pleasant surprise party was held at the home of Patrick Looney, 54 Bowden street, Thursday evening when many friends of Miss Annie Looney and Miss Mary M. Fallon gathered and presented the young women purses of money. Their immediate relatives presented them two beautifully engraved silver watches. Miss Looney and Miss Fallon will enter the convent of the Sisters of St. Mary in the near future and will leave for St. Joseph's academy, Lockport, N. Y., early in August. Miss Looney is a student at the Lowell Commercial college and expects to be graduated from the stenographic department within a short time. The success of the party was due to the efforts of Miss Cecelia A. Fallon and Miss Helen F. Moggan as well as to James Daly and James O'Gara who entertained with musical selections. Refreshments were served and at a late hour the guests departed, wishing the two young women success and happiness in the calling they are about to enter.
